Securities registered or to be registered pursuant to Section 12(b) of the Act.

<u>Title of each class</u>	<u>Name of each exchange on which registered</u>
American Depositary Shares, each representing two common shares, par value \$0.01 per share	NASDAQ Global market

Securities registered or to be registered pursuant to Section 12(g) of the Act. **None**

[Table of Contents](#)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act. **None**

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

46,000,312 common shares.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transaction report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer. See the definitions of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

International Financial Reporting Standards as issued
by the International Accounting Standards Board

Other

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow:

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

INTRODUCTION

Except where the context otherwise requires and for purposes of this annual report only:

- all references to years are to the calendar year from January 1 to December 31 and references to our fiscal year or years are to the fiscal year or years ended March 31;
- “we,” “us,” “our company,” “our,” and “ATA” refer to ATA Inc. and its subsidiaries and affiliated PRC entity as the context requires;
- “China,” “Chinese” and “PRC” refers to the People’s Republic of China, excluding, for purposes of this annual report only, Taiwan and the Special Administrative Regions of Hong Kong and Macau;
- all references to “Renminbi” or “RMB” are to the legal currency of China, and all references to “U.S. dollars,” “dollars,” “\$” or “US\$” are to the legal currency of the United States;
- “U.S. GAAP” refers to generally accepted accounting principles in the United States; and
- “PRC GAAP” refers to generally accepted accounting principles in the People’s Republic of China.

This annual report on Form 20-F includes our audited consolidated statements of comprehensive income for the fiscal years ended March 31, 2011, 2012 and 2013 and audited consolidated balance sheets as of March 31, 2012 and 2013. Each of our ADSs represents two common shares. Our ADSs are listed on the Nasdaq Global Market under the symbol “ATAI.”

FORWARD-LOOKING STATEMENTS

This annual report on Form 20-F contains forward-looking statements that are based on our current expectations, assumptions, estimates and projections about us and our industry. All statements other than statements of historical fact in this annual report are forward-looking statements. In some cases, these forward-looking statements can be identified by words and phrases such as “may,” “should,” “intend,” “predict,” “potential,” “continue,” “will,” “expect,” “anticipate,” “estimate,” “plan,” “believe,” “is /are likely to” or the negative form of these words and phrases or other comparable expressions. The forward-looking statements included in this annual report relate to, among others:

- our goals and strategies;
- our future prospects and market acceptance of our technologies, products and services;
- our future business development and results of operations;
- projected revenues, profits, earnings and other estimated financial information;
- our plans to expand and enhance our products and services;
- competition in the computer-based testing, educational services and test preparation and training markets; and
- Chinese laws, regulations and policies, including those applicable to the education industry, Internet content providers, Internet content and foreign exchange.

These forward-looking statements involve various risks, assumptions and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, our expectations may turn out to be incorrect. Our actual results could be materially different from our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in Item 3.D. of this annual report, “Key information — Risk Factors” and elsewhere in this annual report.

The forward-looking statements made in this annual report relate only to events or information as of the date on which the statements are made in this annual report. All forward-looking statements included herein attributable to us or other parties or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Except to the extent required by applicable laws and regulations, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date on which the statements are made or to reflect the occurrence of unanticipated events.

ITEM 3. KEY INFORMATION

A. Selected Financial Data

Selected Consolidated Financial Data

The following selected consolidated statements of comprehensive income data for the fiscal years ended March 31, 2011, 2012 and 2013 (other than ADS data) and the selected consolidated balance sheet data as of March 31, 2012 and 2013 are derived from our audited consolidated financial statements included elsewhere in this annual report and should be read in conjunction with such consolidated financial statements and related notes. Our selected consolidated statements of comprehensive income data for the years ended March 31, 2009 and 2010 (other than ADS data) and the selected consolidated balance sheet data as of March 31, 2009, 2010 and 2011 are derived from audited consolidated financial statements not included in this annual report. The following information should also be read in conjunction with Item 5. “Operating and Financial Review and Prospects.” Our audited consolidated financial statements are prepared in accordance with U.S. GAAP.

Also includes free tests delivered for business development purpose. The number of tests delivered excluding free tests in the fiscal years ended March 31, 2009, 2010, 2011, 2012 and 2013 was 5,063,379, 5,760,147, 6,907,158, 8,026,639 and 8,744,859, respectively.

Exchange Rate Information

We conduct our business primarily in China and a substantial majority of our revenues and expenses are denominated in Renminbi. The conversion of Renminbi into U.S. dollars in this annual report is based on the noon buying rate in The City of New York for cable transfers of Renminbi per U.S. dollar certified for customs purposes by the Federal Reserve Bank of New York, as set forth in the H.10 weekly statistical release of Federal Reserve Board. Unless otherwise noted, all translations from Renminbi to U.S. dollars in this annual report were made at a rate of RMB6.2108 to US\$1.00, which was the noon buying rate in effect as of March 29, 2013. The noon buying rate on June 21, 2013 was RMB6.1328 to US\$1.00. We make no representation that any Renminbi or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Renminbi, as the case may be, at any particular rate, the rates stated below, or at all. The Chinese government restricts or prohibits the conversion of Renminbi into foreign currency and foreign currency into Renminbi for certain types of transactions.

[Table of Contents](#)

The following table sets forth information concerning exchange rates between the Renminbi and the U.S. dollar for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report.

	Renminbi per U.S. Dollar Noon Buying Rate			
	Average ⁽¹⁾	High	Low	Period-end
Fiscal year ended March 31, 2009	6.8684	7.0185	6.7800	6.8329

D. Risk Factors

[Table of Contents](#)

Risks Relating to Our Business

A limited number of our clients have accounted and are expected to continue to account for a high percentage of our revenues. The loss of or significant reduction in orders from any of these clients could significantly reduce our revenues and have a material adverse effect on our results of operations.

Our three largest clients in the fiscal year ended March 31, 2013, the Securities Association of China, or SAC, the China Banking Association, or CBA, and the Chinese Institute of Certified Public Accountants, or CICPA, accounted for 23.0%, 16.5% and 14.8%, respectively, of our net revenues in that period. We provide both computer-based testing services and online test preparation services to the SAC. We generated RMB76.5 million (\$12.3 million) and RMB7.7 million (\$1.3 million) from provision of computer-based testing services and online test preparation services, respectively, to the SAC in the fiscal year ended March 31, 2013. For computer-based testing services, we enter into an annual contract with the SAC each year providing detailed terms of our engagement. We are currently delivering tests for the SAC under our 2013 contract, which was entered into in January 2013 and expires in December 2013. For test preparation services, since December 2011 the SAC has been in the process of assessing the feasibility of running its online training program internally rather than outsourcing its operation to us. In place of our previous contract under which we operated the online training program on behalf of the SAC, we entered into a contract through March 2013 under which we provide technical and services support during the contract period. We are currently providing data transfer services to the SAC, upon the completion of which we will earn revenue of RMB1.0 million. We do not expect any further revenue from providing test preparation services to the SAC subsequent to our completion of these data transfer services.

As of March 31, 2013, our accounts receivable from SAC were RMB19.6 million (\$3.2 million).

Due to our dependence on a limited number of clients, any one of the following events, among others, could cause material fluctuations or declines in our revenues and have a material adverse effect on our financial condition or results of operations:

- a reduction, delay or cancellation of contracts or product or service orders from one or more of our major clients;
- a delay in paying or failure to pay outstanding accounts receivable;
- a decision by one or more of our major clients to award contracts or orders to one of our competitors; and
- a decision by one or more of our major clients to significantly reduce the price they are willing to pay for our services or products.

Any of these events could occur due to causes outside of our control, such as macro-economic conditions, changes in a client's management or the personnel with whom we interact, changes in technology, the actions of our competitors, changes in governmental regulations and policies and changes in a client's budgeting or financial prospects.

Our financial results are subject to fluctuations and seasonality related to the revenue cycles for our products and services, our relatively long and unpredictable sales cycle and other factors beyond our control, any of which may decrease our revenues in a particular period. As a result, it is difficult for us to predict our results of operations and you should not rely on our historical operating results as an indication of our future financial performance.

Our results of operations have varied in the past from period to period, and are likely to vary in the future, due to the fact that a substantial portion of our sources of revenues are seasonal. We have experienced seasonality and expect in the future to continue to experience seasonality in net revenues and accounts receivable related to our test delivery services, with the quarters ending June 30 and December 31 typically having higher net revenues from testing services and the quarters ending September 30 and March 31 typically having lower net revenues from testing services. This is primarily because the tests from which we derive substantial revenues are mostly delivered in the quarters ending June 30 and December 31. Test timing can be a major contributing factor to quarterly fluctuations of financial results. For example, we had RMB46.8 million in revenues in the quarter ended September 30, 2012 as compared to RMB179.4 million in revenues in the quarter ended December 31, 2012 primarily because one of our major test sponsors, the CICPA, held tests during the third quarter for the fiscal year ended March 31, 2013.

In addition, our sales cycles are generally long and unpredictable. A client's decision to purchase our products and services often involves a lengthy evaluation process. Throughout the sales cycle, we often spend considerable time educating and providing information to prospective clients regarding the use and benefits of our products and services. Moreover, budget constraints and the need for multiple approvals within large enterprises, governmental agencies and educational institutions may also delay purchasing decisions. As a result, the sales cycle for our services may last a year or longer. Such a lengthy sales cycle, and any future increases in our sales cycle, could lead to higher sales and marketing expenses and adversely affect our cash flow from operations. In addition, the lengthy sales cycle has made, and may continue to make, our financial results prone to fluctuations or decrease our revenues in a particular period.

If our revenues for a particular quarter are lower than we expect, we may be unable to reduce our operating expenses for that quarter by a corresponding amount, which could negatively affect our operating results for that quarter. As a result, you should not rely on our quarter-to-quarter comparisons of our operating results as indicators of likely future performance. Our operating results may be below the expectations of public market analysts and investors in one or more future quarters. If that occurs, the market price of our ADSs could decline and you could lose part or all of your investment. Fluctuations of our quarterly financial results may also lead to increased volatility in the market price of our ADSs.

[Table of Contents](#)

The Chinese market for our services is still emerging and evolving rapidly. If market acceptance of our services declines or fails to grow, our revenue growth may slow or we may experience a decrease in revenues.

As the Chinese market for our services is still emerging, our success will depend to a large extent on our ability to convince our clients that our technologies and services are valuable and that it is more cost-effective for them to utilize our services than for them to develop similar services in-house.

We must address the following concerns, among others, with our clients as they decide to implement our computer-based testing and career-oriented educational services and to use our technologies and services:

- concern over the commitment of time, personnel and funding necessary to implement our computer-based testing services and career-oriented educational services;
- ability of clients to develop their own computer-based testing services or career-oriented educational services;
- possible perceived security and academic integrity risks associated with computer-based testing services and third-party curriculum providers; and
- reluctance of the academic community to adopt computer-based learning materials and computer-based tests.

A decline in the demand for computer-based testing services by test sponsors could negatively affect demand for our computer-based testing services and technologies. Even if demand for computer-based testing services continues to grow, this demand may not grow as quickly as we anticipate.

In addition, we have allocated, and intend to continue to allocate, time, effort and capital to expand our service offerings, including our HR Select employee assessment solution, distribution and administration of the Test of English for International Communication, or TOEIC, exam in China, all of which we launched in 2009. We generated RMB54.5 million, RMB88.0 million and RMB88.4 million (\$14.2 million) from the HR Select and TOEIC services in the fiscal years ended March 31, 2011, 2012, and 2013, respectively. As the markets for these offerings are relatively new for us, we cannot assure you that we will succeed in adapting to client needs in these markets or effectively addressing risks associated with this expansion. It may be difficult for us to accurately predict demand for these and other new service offerings we develop. Furthermore, the PRC government may enact unforeseen regulations and policies that could limit our ability to provide or expand certain services, such as prohibitions on foreign-invested entities engaging in certain businesses. Additional risks that we face expanding in this market include the following:

- we may underestimate the amount of capital, personnel and other resources required to carry out our expansion plans, which may affect the success of our expansion and/or negatively impact the quality of our other product and service offerings;

- if we are unsuccessful in the relevant new market, it may negatively affect our reputation and the status of our brand in our other markets; and
- we may fail to develop sufficient payment collection, technical support and other administrative capabilities necessary to successfully develop and manage our new service offerings on an increasingly large scale.

The success of our service offerings going forward also depends on our ability to gain and maintain relevant business relationships, such as our relationship with major test sponsors for computer-based tests in China, our relationship with Educational Testing Services, or ETS, in relation to our distribution and administration of TOEIC exams in China, and our relationship with Saville Consulting in relation to psychometric tests for our HR Select employee assessment solution. If our new service offerings are ultimately unsuccessful or do not grow as rapidly as we expect, our net revenues and profitability will be adversely affected.

[Table of Contents](#)

Breaches or perceived breaches of our security measures relating to test collection, scoring and storage or unauthorized disclosure or misuse of personal data through breach of our computer systems or otherwise could cause us to receive negative publicity and lose clients and expose us to protracted and costly litigation.

As part of our service offerings, we collect, process, transmit and store highly confidential information, including personal information and test questions, answers and scores. Maintaining the security and confidentiality of the information we handle as part of our testing services is essential to protecting the integrity and accuracy of the test taking process and retaining our client base. In addition, any breach or perceived breach in our security measures pertaining to the collection, processing, transmission or storage of such information as a result of third-party action, employee error, and malfeasance or otherwise, or any instances or claims of cheating on tests that we administer, could result in liability claims and have a negative impact on our reputation. Additionally, we could be subject to liability claims or regulatory penalties for misuses of information collected from clients or students or for the unauthorized disclosure or unauthorized or inappropriate use of such information. Any such negative publicity or liability claims could have a significant negative impact on our future business, cause us to lose clients and expose us to costly litigation.

Reductions in public funding available to our clients that are governmental agencies could adversely impact demand by these agencies and institutions for our products and services.

We have derived a significant portion of our total net revenues from licensing and service fees from Chinese governmental agencies. Demand and ability to pay for our products and services by these agencies are affected by government budgetary cycles, funding availability and government policies. Funding reductions, reallocations or delays could adversely impact demand for our products and services by our clients or reduce the fees these clients are willing to pay for our products and services. For example, in the fiscal year ended March 31, 2010, NTET sales decreased significantly relative to the previous fiscal years, due to a delay in the government's implementation of the national NTET certification requirement and the associated cuts in relevant government budgets. We had no NTET sales in the fiscal years ended March 31, 2011, 2012 and 2013.

A significant portion of our revenues are dependent on market acceptance of our E-testing platform and other computer-based testing technologies, and if we are unable to anticipate and meet our clients' technological needs and challenges from new technologies and industry standards, our products and services may lose market acceptance or become obsolete, and our margins and results of operations may be adversely affected.

Our advanced technologies for the creation and delivery of computer-based tests, including our E-testing platform and our performance-based testing technologies, are a key factor in growing and maintaining our relationships with test sponsors, educational institution clients and educational program content providers. Our future success depends on our ability to upgrade our systems, develop new technologies and anticipate and meet the technical needs of our clients on a regular basis. The emergence in the market of new test creation and delivery technologies or substitute products and services could reduce the competitiveness or result in the obsolescence of our current technologies and services. Moreover, if other companies develop similar technologies offering functionality comparable to that of our technologies, pricing pressure may increase and our margins and results of operations may be adversely affected. Additionally, industry standards such as standard interfaces and data exchange protocols may be developed for testing technologies, and if these industry standards are incompatible with our technologies, demand for our technologies, products and services may decline significantly. To the extent we are unable to maintain our market leadership position in key testing technologies or anticipate and respond to technological developments and changes in industry standards in a timely and cost-effective manner, our products and services may lose market acceptance or become obsolete.

Technical errors or failures in relation to computer-based tests delivered through our test delivery platform could result in negative publicity, loss of clients, liability claims and costly and disruptive litigation.

Due to the complexity of the technologies we have developed and use to create and deliver computer-based tests for our clients, there is a risk that technical errors or failures may occur in relation to these services. These may include errors, failures or bugs in our self-developed software applications and test security technologies, breakdowns or failures of our servers and computer networks, and connectivity failures between our networks. While we have not experienced major problems to date due to errors, breakdowns, failures, bugs or defects, we cannot assure you that we will not experience such problems in the future. If such a problem were to occur, it could disrupt or compromise the integrity of the test taking process or of test content and results, which could lead to negative publicity and loss of clients and may subject us to liability claims. Although we have established a formal crisis management system to respond to technical problems, it has

never been tested in a real crisis situation. Any litigation or negative publicity resulting from an error or failure, with or without merit, could result in substantial costs and divert management's attention and resources from our business and operations.

If we fail to maintain a strong brand identity, our business may not grow and our financial results may be adversely impacted.

We believe that maintaining and enhancing the value of the "ATA" brand is important to attracting clients. Our success in maintaining brand awareness will depend on our ability to consistently provide high quality, value-adding, user-friendly and secure products and services. As we expand our product and service offerings, we are increasing our efforts to establish a wider recognition of the "ATA" brand. To establish a wider recognition of our "ATA" brand among test takers, test sponsors and companies, we may need to spend significant resources on advertising. As we have limited experience with advertising and other activities required to establish a widely recognized brand, we cannot assure you that we will effectively allocate our resources for these activities or succeed in maintaining and broadening our brand recognition and appeal. If we fail to maintain a strong brand identity, our business may not grow and our financial results may be adversely impacted.

[Table of Contents](#)

Actions by our authorized test centers could lead to damage to our brand and reputation, which could cause us to incur substantial costs and strain our relationships with our clients.

As of March 31, 2013, we had contractual relationships with 2,804 authorized test centers. We do not own these centers and their employees are not our employees. Under our contracts with these test centers, we require them to provide sufficient facilities to properly administer computer-based tests and to follow prescribed guidelines for facility maintenance and test administration. We also conduct regular reviews of their facilities and operations and provide consulting services on test administration. However, our contractual arrangements with the test centers provide us with only limited ability to oversee their activities, and most test centers engage in other activities, such as serving as classrooms, when not administering tests. If a test center were to engage in unauthorized or unlawful conduct, whether related to administering computer-based tests or otherwise, our clients, prospective clients and the general public may associate this conduct with our brand, and negative publicity associated with this conduct could harm our reputation and lessen overall demand for computer-based testing services. Furthermore, our business may also be adversely affected if our authorized test centers do not maintain their premises, administer our computer-based tests, or hire qualified personnel and train them properly in a manner consistent with our standards and requirements. In addition, a liability claim against an ATA authorized test center or any center personnel may result in unfavorable publicity for us, our products and services and our other test centers, and could damage our brand and reputation, whether or not the claim is successful. While we may terminate our contracts and relationships with our authorized test centers if any of these events were to occur, we may not be able to identify problems or take action quickly enough to prevent harm to our reputation.

We may face increasing competition from international and domestic Chinese competitors. If we fail to successfully compete, our revenues and market share may decrease, and our results of operations may be adversely affected.

We anticipate that as our business and markets continue to expand, we will face increasing competition, including competition from new entrants, both domestic and international, who will try to gain market share from us. In the future, competitors may introduce new technologies, products and services that have better performance, offer lower prices and gain broader acceptance than our technologies, products and services. Such new products may reduce the overall market for our products and services.

In the computer-based testing services market, we compete primarily on the basis of technology, price, management experience and established infrastructure. In the future, as more companies enter this market, we believe pricing may become increasingly competitive as well. For our HR Select employee assessment solution, while there are other companies providing services to corporate human resources departments, we are differentiated by our focus on offering more professional testing services with proprietary testing technologies. Traditional Chinese test preparation material providers, such as publishing companies, indirectly compete with our test preparation and training solutions. Increased competition could cause us to lose clients or make it necessary for us to reduce our prices in order to retain our clients, which may negatively affect our revenues and results of operations.

We depend on our key personnel and our business may be severely disrupted if we lose their services and are unable to replace them.

Our future success is dependent upon the continued services of our key executives, as we rely on their industry experience and expertise in our business operations. In particular, we rely heavily on Kevin Xiaofeng Ma, our chairman and chief executive officer for his business vision, management skills, technical expertise, experience in the testing, IT and education industries and working relationships with many of our clients, shareholders and other participants in the testing, IT and education industries. If Mr. Ma is unable or unwilling to continue in his present positions, or if he joined a competitor or formed a competing company in violation of his employment agreement, we may not be able to replace him easily and our business may be severely disrupted. We do not maintain key-man life insurance for Mr. Ma or for any of our other employees.

[Table of Contents](#)

Because competition for highly skilled employees is intense, we may not be able to attract and retain the highly skilled employees we need to support our planned growth.

Due to intense market competition for highly skilled workers, we have faced difficulties locating experienced and skilled personnel in certain areas, such as administration, marketing, product development, sales, finance and accounting. In particular, we have had difficulty finding personnel with experience in the relatively new computer-based testing services market. We cannot assure you that we will be able to attract or retain the key personnel that we will need to achieve our business objectives. Even if we can find qualified candidates, they may be subject to non-competition agreements with their prior employers that prevent us from hiring them. In addition, we cannot assure you that we will be able to retain our current skilled personnel. According to our contracts with our employees, all of our employees are prohibited from engaging in any activities that compete with our business during the period of their employment and for two years after termination of their employment with us. Furthermore, all employees are prohibited, for a period of two years following termination, from soliciting other employees to leave us and, for a period of five years following termination, from soliciting our existing clients. However, we may have difficulty enforcing these non-competition and non-solicitation provisions in China because the Chinese legal system, especially with respect to the enforcement of such provisions, is still developing.

Many of our contracts with governmental agencies and public educational institutions take the form of framework agreements and offer little contractual or legal protections, and it may be impractical for us to pursue or obtain legal remedies against these clients.

Many governmental agencies and other public sector entities in China require the use of simple framework agreements for the procurement of products and services from us that lack many of the detailed aspects of our business arrangement. For example, the terms of service may lack the clarity we would normally have in our contracts with commercial enterprises, or contract terms protecting our intellectual property may not be as clear and detailed as we would normally have in our contracts with commercial enterprises. Moreover, it may not be feasible or practicable under current Chinese law for us to take legal action against our government and public sector clients to enforce our contractual rights. As a result, we may lack the same contractual or legal protections, or ability to enforce such protections, that we would normally have under the contracts we typically enter into with our other clients.

Unauthorized use of our intellectual property by third parties, including infringement of our “ATA” brand, and the expenses incurred in protecting our intellectual property rights, may adversely affect our business.

Our copyrights, trademarks, trade secrets, patents and other intellectual property are important to our success. In particular, we believe that our “ATA” brand name represents a valuable asset as we have sought to gain a reputation for high quality and secure testing services and advanced testing technologies within our markets. Unauthorized use of any of our intellectual property may adversely affect our business and reputation. We rely on trademark, patent, and copyright law, trade secret protection and confidentiality agreements with our employees, clients, business partners and others to protect our intellectual property rights. Nevertheless, it may be possible for third parties to obtain and use our intellectual property without authorization. The unauthorized use of intellectual property is common and widespread in China and enforcement of intellectual property rights by Chinese regulatory agencies is inconsistent. Moreover, litigation may be necessary in the future to enforce our intellectual property rights. Future litigation could result in substantial costs and diversion of our management’s attention and resources, and could disrupt our business, as well as have a material adverse effect on our financial condition and results of operations. Given the relative unpredictability of China’s legal system and potential difficulties enforcing a court judgment in China, there is no guarantee that we would be able to halt the unauthorized use of our intellectual property through litigation.

We may be subject to intellectual property infringement claims, which may force us to incur substantial legal expenses and, if determined adversely against us, may materially disrupt our business.

We cannot assure you that our software and other technologies do not or will not infringe upon patents, valid copyrights or other intellectual property rights held by third parties. We may become subject to legal proceedings and claims from time to time relating to the intellectual property of others in the ordinary course of our business. For example, we have been unable to register our “ATA” trademark with the China Trademark Office due to similarity with other marks. Although we have not received notice of trademark infringement claims since we began using the mark in 1999 and believe that the risk of litigation is remote, we may be subject to such claims in the future. If we are found to have violated the intellectual property rights of others, we may be enjoined from using such intellectual property, and we may incur licensing fees or be forced to develop alternatives. In addition, we may incur substantial expenses, and may be forced to divert management and other resources from our business operations, to defend against these third-party infringement claims, regardless of their merit. Successful infringement or licensing claims against us may result in substantial monetary liabilities or may materially disrupt the conduct of our business by restricting or prohibiting our use of the intellectual property in question.

[Table of Contents](#)

Because there is limited business insurance coverage in China, any business disruption or litigation we experience might result in our incurring substantial costs and diverting significant resources to handle such disruption or litigation.

The insurance industry in China is not fully developed. Insurance companies in China offer limited business insurance products. While business disruption insurance may be available to a limited extent in China, we have determined that the risks of disruption and the difficulties and costs associated with acquiring such insurance render it commercially impractical for us to have such insurance. As a result, we do not have any business liability, disruption or litigation insurance coverage for our operations in China. Any business disruption or litigation might result in our incurring substantial costs and the diversion of resources.

We may face challenges and risks in connection with possible acquisitions, including identifying suitable opportunities and integrating acquired businesses and assets with our existing operations, which could interrupt our business operations or adversely affect our results of operations.

As part of our business strategy, we may seek to broaden our service offerings, obtain additional clients and strengthen our service quality by acquiring other companies or businesses. However, our ability to implement our acquisition strategy will depend on a number of factors, including the availability of suitable acquisition candidates at an acceptable cost or at all, our ability to compete effectively to attract and reach agreement with acquisition candidates or joint venture partners on commercially reasonable terms, and the availability of financing to complete acquisitions or joint ventures as well as our ability to obtain any required government approvals or licenses. In addition, we cannot assure you that any particular acquisition or joint venture transaction will produce the intended benefits or synergies. For example, we may not be successful in integrating acquisitions with our existing operations and personnel. Moreover, the acquisitions we pursue may require us to expend significant management and other resources, which may result in interruption to our business operations.

There are other risks associated with acquisitions, including:

- unforeseen or hidden liabilities, including exposure to legal proceedings, associated with newly acquired companies;
- failure to generate sufficient revenues to offset the costs and expenses of acquisitions;
- integration of the management of the acquired business into our own;
- potential impairment losses or amortization expenses relating to goodwill and intangible assets arising from any of such acquisitions, which may materially reduce our net income or result in a net loss;
- potential conflicts with our existing employees as a result of our integration of newly acquired companies; and
- possible contravention of Chinese regulations applicable to such acquisitions.

Furthermore, raising capital to finance acquisitions could cause earnings or ownership dilution to your shareholding interests, which in turn could result in losses to you. Any one or a combination of the above risks could interrupt our business operations and adversely affect our results of operations.

We may need additional capital and any failure by us to raise additional capital on terms favorable to us, or at all, could limit our ability to grow our business and develop or enhance our product and service offerings to respond to market demand or competitive challenges.

Capital requirements are difficult to plan in our rapidly changing industry. We believe that our current cash and expected future cash flows from operations will be sufficient to meet our anticipated working capital and capital expenditures for the next 12 months and the foreseeable future beyond that point. We may, however, require additional cash resources due to changed business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If our sources of liquidity are insufficient to satisfy our cash requirements, we may seek to sell additional equity or debt securities or obtain a credit facility. The sale of additional equity securities could result in dilution to our shareholders. The incurrence of indebtedness would result in increased debt service obligations and could require us to agree to operating and financing covenants that would restrict our operations. Our ability to obtain additional capital on acceptable terms is subject to a variety of uncertainties, including:

[Table of Contents](#)

- investors' perception of, and demand for, securities of computer-based testing and education companies;
- conditions of the U.S. and other capital markets in which we may seek to raise funds;
- our future results of operations and financial condition;
- Chinese government regulation of foreign investment in China;
- economic, political and other conditions in China; and
- Chinese government policies relating to the borrowing and remittance outside China of foreign currency.

We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, could limit our ability to grow our business and develop or enhance our product and service offerings to respond to market demand or competitive challenges.

We may be unable to maintain an effective system of internal control over financial reporting, and as a result we may be unable to accurately report our financial results or prevent fraud.

We are subject to provisions of the Sarbanes-Oxley Act of 2002. Section 404 of the Sarbanes-Oxley Act requires that we include a report from management on the effectiveness of our internal control over financial reporting in our annual reports on Form 20-F. In addition, our independent registered public accounting firm must report on the operating effectiveness of our internal control over financial reporting. While our management concluded that our internal control over financial reporting is effective as of March 31, 2013, and our independent registered public accounting firm reported on our internal controls over financial reporting, our management may conclude in the future that

our internal controls are not effective. Our failure to maintain effective internal control over financial reporting could result in a loss of investor confidence in the reliability of our reporting processes, which could materially and adversely affect the trading price of our ADSs.

Our reporting obligations as a public company will continue to place a significant strain on our management, operational and financial resources and systems for the foreseeable future. Our failure to maintain effective internal control over financial reporting could result in the loss of investor confidence in the reliability of our financial reporting processes, which in turn could harm our business and negatively impact the trading price of our ADSs.

Our independent registered public accounting firm's audit documentation related to their audit reports included in this annual report may include audit documentation located in China. The Public Company Accounting Oversight Board currently cannot inspect audit documentation located in China and, as such, you may be deprived of the benefits of such inspection.

Our independent registered public accounting firm that issues the audit reports included in our annual reports filed with the U.S. Securities and Exchange Commission, as auditors of companies that are traded publicly in the United States and a firm registered with the U.S. Public Company Accounting Oversight Board (United States), or the PCAOB, is required by the laws of the United States to undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and professional standards. Our operations are conducted in China, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the PRC authorities. Accordingly, any audit documentation located in China related to our independent registered public accounting firm's reports included in our filings with the U.S. Securities and Exchange Commission is not currently inspected by the PCAOB. On May 24, 2013, the PCAOB announced that it had entered into a memorandum of understanding on enforcement and cooperation with the China Securities Regulatory Commission, or CSRC, and the PRC Ministry of Finance, or MOF, which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations in the United States and China. However, direct PCAOB inspections of independent registered accounting firms in China are still not permitted by Chinese authorities.

Inspections conducted by the PCAOB outside of China have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating audit documentation located in China and its related quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

[Table of Contents](#)

The inability of the PCAOB to conduct inspections in China makes it more difficult to evaluate the effectiveness of our auditor's audit procedures or quality control procedures as compared to audits outside of China that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

Proceedings instituted recently by the Securities Exchange Commission, or SEC, against five PRC-based accounting firms, including the mainland China affiliate of our independent registered public accounting firm, could result in financial statements being determined to not be in compliance with the requirements of the Securities Exchange Act of 1934.

In December 2012, the SEC instituted proceedings under Rule 102(e)(1)(iii) of the SEC's Rules of Practice against five PRC-based accounting firms, including the mainland China affiliate of our independent registered public accounting firm, alleging that these firms had violated U.S. securities laws and the SEC's rules and regulations by failing to provide to the SEC the firms' work papers related to their audits of certain PRC-based companies that are publicly traded in the United States. Rule 102(e)(1)(iii) grants to the SEC the authority to deny to any person, temporarily or permanently, the ability to practice before the SEC who is found by the SEC, after notice and opportunity for a hearing, to have willfully violated any such laws or rules and regulations. While we cannot predict the outcome of the SEC's proceedings, if the mainland China affiliate of our independent registered public accounting firm were denied, temporarily or permanently, the ability to practice before the SEC, and we are unable to find timely another China-based registered public accounting firm which can audit and issue a report on our financial statements, our financial statements could be determined to not be in compliance with the requirements for financial statements of public companies with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Such a determination could ultimately lead to the delisting of our ordinary shares from the NASDAQ Global Select Market, which event would effectively terminate the trading market for our ordinary shares in the United States, and/or to the SEC's revoking the registration of our ordinary shares under the Exchange Act pursuant to Section 12(j) thereof, in which event broker-dealers thereafter would be prohibited from effecting transactions in, or inducing the purchase or sale of, our ordinary shares in the United States.

We may be classified as a passive foreign investment company, which could result in adverse U.S. federal income tax consequences to U.S. holders of our ADSs or ordinary shares.

We believe that we were not a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for our taxable year ended March 31, 2013, and we do not expect to be a PFIC in any future taxable year. However, PFIC status is tested each year and depends on the composition of our assets and income and the value of our assets from time to time. Since we currently hold, and expect to continue to hold, a substantial amount of cash and other passive assets and, since the value of our assets is to be determined in large part by reference to the market prices of our ADSs and ordinary shares, which is likely to fluctuate over time, there can be no assurance that we will not be a PFIC for any future taxable year. If we are a PFIC for any taxable year during which a U.S. investor held our ADSs or ordinary shares, certain adverse U.S. federal income tax consequences would apply to the U.S. investor. See "Item 10. — Additional Information — E. Taxation — United States Federal Income Taxation — Passive Foreign Investment Company."

Risks Relating to Regulation of Our Business

Substantial uncertainties and restrictions exist with respect to the application and implementation of Chinese laws and regulations relating to Internet content distribution. If the Chinese government finds that the structure for our online test preparation services and other services we provide through the Internet do not comply with Chinese laws and regulations, we could be subject to penalties and may not be able to continue those businesses.

The Chinese government regulates internet access, the distribution of online information, the conduct of online commerce and the provision of online services through strict business licensing requirements and other government regulations. These laws and regulations also include limitations on foreign ownership of Chinese companies that provide Internet content. Specifically, foreign investors are not allowed to own more than a 50% equity interest in any Chinese company engaging in Internet content provision.

Because we are a Cayman Islands company, we and our Chinese subsidiaries and their branch companies in China are treated as foreign or foreign-invested enterprises under Chinese laws and regulations. To comply with Chinese laws and regulations, we conduct our online businesses in China through a series of contractual arrangements entered into among ATA Testing Authority (Holdings) Limited, or ATA BVI, ATA Learning (Beijing) Inc., or ATA Learning and ATA Online (Beijing) Education Technology Limited, or ATA Online, which is a domestic Chinese company incorporated in the PRC and owned by Kevin Xiaofeng Ma, our co-founder, chairman and chief executive officer and Walter Lin Wang, our co-founder and director. Our contractual arrangements with ATA Online include a technical support agreement and a strategic consulting service agreement. These contractual arrangements also include an equity pledge agreement and powers of attorney entered into with each of the shareholders of ATA Online and a call option and cooperation agreement entered into with ATA Online and its shareholders. Under PRC law, a pledge of equity interests can only be valid after such pledge is registered at the relevant agency. The equity pledges under the equity pledge agreement were registered with the relevant local authority, Haidian Branch of Beijing Administration for Industry and Commerce, on April 25, 2012. We may enforce the pledge by foreclosing on the pledge equity interest to recover amounts due in the event of breach by ATA Online of the technical support agreement, strategic consulting service agreement or covenants under the equity pledge agreement.

[Table of Contents](#)

In or around September 2011, various media sources reported that the CSRC had prepared a report proposing pre-approval by a competent central government authority of offshore listings by China-based companies with variable interest entity structures, such as ours, that operate in industry sectors subject to foreign investment restrictions. However, it is unclear whether the CSRC officially issued or submitted such a report to a higher level government authority or what any such report provides, or whether any new PRC laws or regulations relating to variable interest entity structures will be adopted or if adopted, what they would provide. In addition, the Notice on Establishing a Security Review System for Merger and Acquisition of Domestic Enterprises by Foreign Investors, which was promulgated by MOFCOM and became effective on September 1, 2011, require acquisitions by foreign investors of PRC companies engaged in military related or certain other industries that are crucial to national security be subject to security review before consummation of any such acquisition. According to Industry list of Security Review System for Merger and Acquisition of Domestic Enterprises by Foreign Investors, industries relating to our business, such as other storage, telecom and other information transfer services, may fall under the purview of the national security review rules.

ATA Online holds a Telecommunications and Information Services Operating License, or ICP license, issued by the Beijing Telecommunications Administration Bureau, a local branch of the Ministry of Industry and Information Technology, or MIIT, which allows ATA Online to provide Internet content distribution services. This license is essential to the operation of our online test preparation and training services business.

The relevant Chinese regulatory authorities have broad discretion in determining whether a particular contractual structure is in violation of Chinese law. If our ATA Online corporate and contractual structure is deemed by MIIT to be illegal, either in whole or in part, we may have to modify such structure to comply with regulatory requirements. However, we cannot assure you that we can achieve this without material disruption to our business. Further, if our ATA Online corporate and contractual structure is found to be in violation of any existing or future Chinese laws or regulations, the relevant regulatory authorities would have broad discretion in dealing with such violations, including:

- revoking our business and operating licenses;
 - levying fines on us;
 - confiscating any of our income that they deem to be obtained through illegal operations;
 - shutting down a portion or all of our servers or blocking a portion or all of our web site;
 - discontinuing or restricting our operations in China;
 - imposing conditions or requirements with which we may not be able to comply;
 - requiring us to restructure our corporate and contractual structure;
 - restricting or prohibiting our use of the proceeds from our initial public offering to finance ATA Online's business and operations;
- and

- taking other regulatory or enforcement actions that could be harmful to our business.

The occurrence of any of these events could materially and adversely affect our business, financial condition and results of operations.

[Table of Contents](#)

Our contractual arrangements with ATA Online may be subject to scrutiny by the Chinese tax authorities and create a potential double layer of taxation for our revenue-generating services conducted by ATA Online.

The new PRC Enterprise Income Tax Law, or New EIT Law requires every enterprise in China to submit its annual enterprise income tax return together with a report on transactions with its related parties to the relevant tax authorities. The tax authorities may impose reasonable adjustments on taxation if they have identified any related party transactions that are inconsistent with arm's length principles. We could face material and adverse tax consequences if the Chinese tax authorities determine that our contractual arrangements with ATA Online were not priced at arm's length for purposes of determining tax liability. If the Chinese tax authorities determine that these contracts were not entered into on an arm's-length basis, they may adjust our income and expenses for Chinese tax purposes in the form of a transfer pricing adjustment. A transfer pricing adjustment could result in a reduction, for Chinese tax purposes, of deductions recorded by ATA Online, which could adversely affect us by increasing the tax liabilities of ATA Online. This increased tax liability could further result in late payment fees and other penalties to ATA Online for underpaid taxes. Any payments we make under these arrangements or adjustments in payments under these arrangements that we may decide to make in the future will be subject to the same risk.

Our contractual arrangements with ATA Online and its shareholders do not provide us with ownership interest in ATA Online. If ATA Online or its shareholders fail to perform their respective obligations under these contractual arrangements, we may have to legally enforce such arrangements and our business, financial condition and results of operations may be materially and adversely affected if these arrangements cannot be enforced.

Because of PRC restrictions on foreign ownership of Internet-based businesses in China, we depend on a series of contractual arrangements with ATA Online, in which we have no equity ownership interest, to conduct our online businesses. These contractual arrangements include loan agreements, technical support agreement, strategic consulting service agreement, call option and cooperation agreement, equity pledge agreement and powers of attorney. They are intended to provide us with the power to direct the activities of ATA Online that most significantly impact ATA Online's performance and allow us to obtain the economic benefits from ATA Online, but may not be as effective in providing control over ATA Online as equity ownership. For example, ATA Online and its shareholders could breach the terms of the contractual arrangements by, among other things, failing to operate our online businesses in an acceptable manner or taking other actions that are detrimental to our interests. As a protection against such risks, ATA Online and its shareholders are prohibited under the contractual arrangements from engaging in certain activities without our consent, including a prohibition on any transfer by ATA Online's shareholders of their equity interest in ATA Online and a prohibition on ATA Online entering into similar technical support and strategic consulting agreements with third parties. In addition, we have the exclusive option to purchase or have our designee purchase each shareholder's equity interest in ATA Online at any time so long as such purchase is in compliance with PRC laws. Due to restrictions under PRC law on foreign ownership of Internet-based businesses in China, we are not permitted to exercise the exclusive option to directly purchase ATA Online's equity interests. There are no material restrictions under PRC law if we were to designate PRC citizens or non-foreign-invested PRC enterprises as our designees to purchase ATA Online's equity interests or assets.

The shareholders of ATA Online have pledged their entire equity interest in ATA Online to ATA Learning to guarantee ATA Online's and its shareholders' performance of their obligations under the technical support agreement and the strategic consulting service agreement. Pursuant to the Property Law of the PRC, a pledge must be registered with the competent local branch of the State Administration of Industry and Commerce after the execution of the relevant pledge agreement. We registered the equity pledges under the equity pledge agreement with the relevant local authority, Haidian Branch of Beijing Administration for Industry and Commerce in April 2012. The shareholders of ATA Online have also assigned their rights as a shareholder of ATA Online to ATA Learning, including but not limited to voting rights and rights to appoint directors and executive management of ATA Online pursuant to the powers of attorney.

Although we have significant protections under the contractual arrangements, if ATA Online or its shareholders fail to perform their obligations under the contractual arrangements, we may have to resort to litigation or other contract remedies to enforce our rights, which may be time-consuming, unpredictable, expensive and damaging to our operations and reputation. For example, if the shareholders of ATA Online were to refuse to transfer their equity interest to us or our designated persons when we exercise the call option, we may have to take legal action to compel them to fulfill their contractual obligations. All of these contractual arrangements are governed by PRC or Hong Kong Law and provide for the resolution of disputes through binding arbitration in China. The legal framework and system in China is not as developed as other jurisdictions such as the United States. As a result, significant uncertainties relating to the enforcement of legal rights through arbitration, litigation and other legal proceedings remain in China, which could limit our ability to enforce the contractual arrangements and exert effective control over our consolidated affiliated entity. In addition, a PRC court may refuse to enforce the contractual arrangements on the grounds that they are designed to circumvent PRC foreign investment restrictions and therefore are against PRC public policy. If we are unable to enforce the contractual arrangements, or if we suffer significant delay or other obstacles in the process of enforcing the contractual arrangements, our business and operations could be significantly disrupted, which could materially and adversely affect our results of operations and damage our reputation.

[Table of Contents](#)

The shareholders of ATA Online may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

The shareholders of ATA Online, Kevin Xiaofeng Ma and Walter Lin Wang, are also beneficial holders of our common shares. They are also directors of both ATA Online and our company. Conflicts of interests between their dual roles as shareholders and directors of both ATA Online and our company may arise. We cannot assure you that when conflicts of interest arise, any or all of these individuals will act in the best interests of our company or that conflicts of interests will be resolved in our favor. In addition, these individuals may breach or cause ATA Online to breach or refuse to renew the existing contractual arrangements that allow us to receive economic benefits from ATA Online. Currently, we do not have existing arrangements to address potential conflicts of interest between these individuals and our company. We rely on these individuals to abide by the laws of the Cayman Islands and China, both of which provide that directors owe a fiduciary duty to the company, which requires them to act in good faith and in the best interests of the company and not to use their positions for personal gain. If we cannot resolve any conflicts of interest or disputes between us and the shareholders of ATA Online, we would have to rely on legal proceedings, which could result in disruption of our business and substantial uncertainty as to the outcome of any such legal proceedings.

We may lose the ability to use and enjoy assets held by ATA Online that are important to the operation of our business if ATA Online goes bankrupt or becomes subject to a dissolution or liquidation proceeding.

To comply with PRC laws and regulations relating to foreign ownership restrictions in the Internet content distribution businesses, we currently conduct our operations in China through contractual arrangements with ATA Online. As part of these arrangements, ATA Online holds certain of the assets that are important to the operation of our online test preparation business. We have not entered into any pledge agreements with respect to the underlying assets as collateral to secure the responsibilities of ATA Online. We have, however, entered into a call option and cooperation agreement under which our wholly owned subsidiary, ATA BVI, has an exclusive purchase option to acquire the entirety or any portion of ATA Online's equity interest or the assets owned by ATA Online, exercisable at ATA BVI's discretion. Nonetheless, if ATA Online goes bankrupt and all or part of its assets become subject to license or rights of third-party creditors, we may be unable to continue some or all of our online test preparation business operations, which could materially and adversely affect our business, financial condition and results of operations.

If ATA Online undergoes a voluntary or involuntary liquidation proceeding, its shareholders or unrelated third-party creditors may claim rights to some or all of its assets, thereby hindering our ability to operate our online test preparation business. We can take part in the liquidation procedures as a general creditor pursuant to PRC law and to recover any outstanding liabilities owed by ATA Online to our wholly owned subsidiaries under the contractual arrangements. We could also enforce the pledges contained in the equity pledge agreement entered into with each of the shareholders of ATA Online against ATA Online's shareholders and dispose the pledged equity to indemnify any losses under the technical support agreement and strategic consulting service agreement with priority over any unsecured creditors of ATA Online's shareholders.

If the China Securities Regulatory Commission, or CSRC, or another PRC regulatory agency determines that CSRC approval was required in connection with our initial public offering, we may become subject to penalties.

On August 8, 2006, six PRC regulatory agencies, including the CSRC, promulgated the Provisions Regarding Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rule, which became effective on September 8, 2006. The M&A Rule, among other things, requires that an offshore company controlled by PRC companies or individuals that has acquired a PRC domestic company for the purpose of listing the PRC domestic company's equity interest on an overseas stock exchange must obtain the approval of the CSRC prior to the listing and trading of such offshore company's securities on an overseas stock exchange. On September 21, 2006 the CSRC, pursuant to the M&A Rule, published on its official web site procedures specifying documents and materials required to be submitted to it by offshore companies seeking CSRC approval of their overseas listings.

Our PRC counsel, Jincheng Tongda & Neal Law Firm, advised us that CSRC approval was not required for our initial public offering in February 2008 because the CSRC approval required under the M&A Rule only applies to an offshore company that has acquired a domestic PRC company for the purpose of listing the domestic PRC company's equity interest on an overseas stock exchange, while (i) we obtained our equity interest in each of our PRC subsidiaries by means of direct investment other than by acquisition of the equity or assets of a PRC domestic company and (ii) our contractual arrangements with ATA Online do not constitute the acquisition of ATA Online. However, if it is determined that CSRC approval was required, we may face regulatory actions or other sanctions from the CSRC or other PRC regulatory agencies. These regulatory agencies may impose fines and penalties on our operations in China, limit our operating privileges in China, or take other actions that could have a material adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as the trading price of our ADSs.

[Table of Contents](#)

Because we may rely on dividends and other distributions on equity paid by our current and future Chinese subsidiaries for our cash requirements, restrictions under Chinese law on their ability to make such payments could materially and adversely affect our ability to grow, make investments or acquisitions that could benefit our business, pay dividends to you, and otherwise fund and conduct our businesses.

We have adopted a holding company structure, and our holding companies may rely on dividends and other distributions on equity paid by our current and future Chinese subsidiaries for their cash requirements, including the funds necessary to service any debt we may incur or financing we may need for operations other than through our Chinese subsidiaries. Chinese legal restrictions permit payments of dividends by our Chinese subsidiaries only out of their accumulated after-tax profits, if any, determined in accordance with PRC GAAP.

Our Chinese subsidiaries are also required under Chinese laws and regulations to allocate at least 10% of their after-tax profits determined in accordance with PRC GAAP to statutory reserves until such reserves reach 50% of the company's registered capital. Allocations to these statutory reserves and funds can only be used for specific purposes and are not transferable to us in the form of loans, advances or cash dividends. As of March 31, 2013, our Chinese subsidiaries allocated RMB 14.9 million (\$2.4 million) to the general reserve fund, which is restricted for distribution to the Company. We are in full compliance with PRC laws and regulations relating to such allocations. Any limitations on the ability of our Chinese subsidiaries to transfer funds to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends and otherwise fund and conduct our business.

The discontinuation of any of the preferential tax treatments currently enjoyed by our subsidiaries in the PRC could materially increase our tax obligations.

Effective from January 1, 2008, the new PRC Enterprise Income Tax Law, or New EIT Law, imposes a tax rate of 25% on all enterprises, including foreign-invested enterprises, and terminates many of the tax exemptions, reductions and preferential treatments available under previous tax laws. However, enterprises that were established before March 16, 2007 and already enjoyed preferential tax treatments may continue to enjoy them (i) in the case of certain preferential tax rates that are specified by tax legislations for a transition period of five years from January 1, 2008 or (ii) in the case of tax exemption or reduction for a specified term, until the expiration of such term.

Under the New EIT Law, qualified "high-and-new technology enterprises eligible for key support from the State" ("HNTE") are entitled to a preferential tax rate of 15%, subject to an annual review during the valid period of their HNTE certificates. In December 2008, ATA Testing was recognized as a HNTE and obtained its HNTE certificate, which entitled ATA Testing to a preferential tax rate of 15% for calendar years 2008 to 2010. In October 2011, ATA Testing successfully renewed its HNTE certificate for another three years from 2011 and therefore is entitled to a preferential tax rate of 15% retroactively for calendar years 2011 to 2013. In December 2009, each of ATA Learning, ATA Online and Beijing JDX received an approval from the tax authority that it qualified as an HNTE for three years, entitling them to a preferential income tax rate of 15% for calendar years 2009 to 2011. In July, May and July of 2012, ATA Learning, ATA Online and Beijing JDX successfully renewed their HNTE certificates, respectively, for another three years from 2012 and therefore are entitled to a preferential tax rate of 15% for calendar years 2012 to 2014. We cannot assure you that ATA Testing, ATA Learning, ATA Online and Beijing JDX will continue to qualify as an HNTE after the expiration of their HNTE certificates, or that the local tax authorities will not, in the future, change their position and revoke any of our past preferential tax treatments.

The discontinuation of any of our preferential tax treatments could materially increase our tax obligations and adversely affect our business, operating results and financial condition.

Under the New EIT Law, we may be classified as a "resident enterprise" of China. Such classification will likely result in unfavorable tax consequences to us and U.S. holders of our ADSs or ordinary shares.

Under the New EIT Law, an enterprise established outside of China with its "de facto management body" in China is considered a "resident enterprise," meaning that it can be treated the same as a Chinese enterprise for enterprise income tax purposes. In addition, a tax circular, or Circular 82, issued by the State Administration of Taxation, or the SAT on April 22, 2009 regarding the standards used to classify certain Chinese controlled enterprises established outside of China as "resident enterprises" clarified that dividends and other income paid by such "resident enterprises" will be considered to be PRC source income, subject to PRC withholding tax currently at a rate of 10%, when paid to non-PRC enterprise shareholders. Circular 82 also subjects such "resident enterprises" to various reporting requirements with the PRC tax authorities. Under the Implementation Rules to the New EIT Law, a "de facto management body" is defined as a body that exercises "substantial and overall management and control over the manufacturing and business operations, personnel, and human resources, finances and properties of an enterprise." In addition, Circular 82 details that certain Chinese-controlled enterprises will be classified as "resident enterprises" if the following are located or resident in China: senior management personnel and departments that are responsible for daily production, operation and management; financial and personnel decision making bodies; key properties, accounting books, company seal, and minutes of board meetings and shareholders' meetings; and half or more of the senior management or directors having voting rights.

[Table of Contents](#)

Currently, a substantial majority of the members of our management team as well as the management team of some of our offshore holding companies are located in China. However, Circular 82 only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreign entities like us. In the absence of detailed implementing regulations or other guidance determining that offshore companies controlled by PRC individuals or foreign entities like us are PRC resident enterprises, we do not currently consider our Company or any of our overseas subsidiaries to be a PRC resident enterprise.

However, the SAT may take the view that the determining criteria set forth in Circular 82 reflects the general position on how the "de facto management body" test should be applied in determining the tax resident status of all offshore enterprises. Or additional implementing regulations or guidance may be issued determining that our Cayman Islands holding company is a "resident enterprise" for PRC enterprise income tax purposes. If the PRC tax authorities determine that our Cayman Islands holding company is a "resident enterprise" for PRC enterprise income tax purposes, a number of unfavorable PRC tax consequences could follow. First, we will be subject to enterprise income tax at a rate of 25% on our worldwide income as well as PRC enterprise income tax reporting obligations. This would mean that income such as interest on offering proceeds and other non-China source income would be subject to PRC enterprise income tax at a rate of 25%, in comparison to no taxation in the Cayman Islands. Second, although under the New EIT Law and its implementing rules dividends paid to us by our PRC subsidiaries would qualify as "tax-exempt income," we cannot guarantee that such dividends will not be subject to a 10% withholding tax, as the PRC foreign exchange control authorities, which enforce the withholding tax, have not yet issued guidance with respect to the processing of outbound remittances to entities that are treated as resident enterprises for PRC enterprise income tax purposes.

Finally, a 10% withholding tax will be imposed on dividends we pay to our non-PRC enterprise shareholders, and future guidance may extend the withholding tax to dividends we pay to our non-PRC individual shareholders and gains derived by our non-PRC shareholders from transferring our ADSs or ordinary shares. Similar results would follow if our BVI holding company is considered a PRC “resident enterprise.” In addition to the uncertainty in how the new “resident enterprise” classification could apply, it is also possible that the rules may change in the future, possibly with retroactive effect. We are closely monitoring the development of this area of rules and are evaluating appropriate arrangements of our management activity to avoid being classified as a PRC “resident enterprise.”

China’s regulation of loans and direct investments by offshore holding companies or their Chinese subsidiaries or affiliates may restrict our ability to execute our business strategy.

In order to execute our business strategy, we must invest the funds in our Chinese subsidiaries, through loans or capital contributions, and in our affiliated PRC entity, ATA Online, through loans. Under applicable Chinese laws, any loan made by us to ATA Testing or ATA Learning, both of which are foreign-invested enterprises, cannot exceed statutory limits tied to each company’s registered capital and total investment as approved by the Ministry of Commerce or its local counterpart, and all such loans must be registered with China’s State Administration of Foreign Exchange, or SAFE, or its local counterpart. Loans by us to ATA Online, as a domestic PRC enterprise, must be approved by the relevant government authority and must also be registered with SAFE. We may also decide to finance ATA Testing by increasing their registered capital through capital contributions. The Ministry of Commerce or its local counterpart must approve any capital contributions to ATA Testing or ATA Learning.

In 2008, SAFE promulgated the Circular on the Relevant Operating Issues concerning Administration Improvement of Payment and Settlement of Foreign Currency Capital of Foreign-invested Enterprises, or Circular 142, a notice regulating the conversion by a foreign-invested enterprise, or FIE, of foreign currency into Renminbi by restricting how the converted Renminbi may be used. Circular 142 requires that Renminbi converted from the foreign currency-denominated capital of a FIE may only be used for purposes within the business scope approved by the applicable governmental authority and may not be used for equity investments within the PRC unless specified otherwise in its business scope. For example, such converted amounts may not be used for investments in or acquisitions of other companies, which can inhibit the ability of companies to consummate such transactions. In addition, SAFE strengthened its oversight of the flow and use of Renminbi funds converted from the foreign currency-denominated capital of FIEs under Circular 142. The use of such Renminbi may not be changed without approval from SAFE, and may not be used to repay Renminbi loans if the proceeds of such loans have not yet been utilized. Violations of Circular 142 will result in severe penalties, including heavy fines. As a result, Circular 142 may limit our ability to convert net proceeds raised in subsequent offerings or financings by our overseas companies into Renminbi and use such net proceeds in investments or acquisitions of other companies, which may adversely affect our liquidity and our ability to fund and expand our business in China.

[Table of Contents](#)

A failure by us to obtain the necessary government approvals or complete any required registrations for a capital contribution, an increase in approved total investment or a loan on a timely basis, may restrict our ability to execute our business strategy.

A failure by our shareholders who are Chinese citizens or residents in China to comply with regulations issued by SAFE could restrict our ability to distribute profits, restrict our overseas and cross-border investment activities or subject us to liability under Chinese laws, which could adversely affect our business and prospects.

In October 2005, SAFE, issued the Notice on Issues Relating to the Administration of Foreign Exchange in Fund-raising and Return Investment Activities of Domestic Residents Conducted via Offshore Special Purpose Companies, or Notice 75, which became effective as of November 1, 2005. Notice 75 states that Chinese residents must register with the relevant local SAFE branch in connection with their establishment or control of an offshore entity established for the purpose of overseas equity financing involving a round-trip investment whereby the offshore entity acquires or controls onshore assets or equity interests held by the Chinese residents. Notice 75 applies to our shareholders who are Chinese residents and also applies to our offshore acquisitions.

To further clarify and simplify the implementation of Notice 75, SAFE has issued various rules, including Circular 19, which was issued on May 20, 2011 and took effect on July 1, 2011. Circular 19 established more specific and stringent supervision on the registration process required by Notice 75. For example, Circular 19 imposes obligations on onshore subsidiaries of an offshore entity to make true and accurate statements to the local SAFE authorities concerning any shareholder or beneficial owner of the offshore entity who is a PRC citizen or resident. Untrue statements by the onshore subsidiaries may lead to potential liability for the subsidiaries. Under these foreign exchange regulations, PRC residents who make, or have previously made direct or indirect, investments in special purpose vehicles or SPVs prior to the implementation of these foreign exchange regulations will be required to register those investments. In addition, any PRC resident who is a direct or indirect shareholder of an SPV is required to update the previously filed registration with the local branch of SAFE, with respect to that SPV, to reflect any material change not involving its round-trip investment, capital variation, such as an increase or decrease in capital, a transfer or swap of shares, a merger, division, long-term equity or debt investment or creation of any security interest. Moreover, the PRC subsidiaries of that SPV are required to urge the PRC resident shareholders to update their registration with the local branch of SAFE when such updates are required under applicable foreign exchange regulations. If any PRC shareholder fails to make the required registration or update the previously filed registration, the PRC subsidiaries of that SPV may be prohibited from distributing their profits and the proceeds from any reduction in capital, share transfer or liquidation to their SPV parent and the SPV may also be prohibited from injecting additional capital into its PRC subsidiaries. Moreover, failure to comply with the various foreign exchange registration requirements described above could result in liability under PRC laws for evasion of applicable foreign exchange restrictions, even though here is no explicit deadline for such registration.

Two of our significant shareholders, Kevin Xiaofeng Ma and Walter Lin Wang, have completed their registrations with SAFE, and we have urged our other Chinese resident shareholders to register under Notice 75 and they are currently in the application process. However, we cannot assure you that their applications will be accepted by SAFE. Failure by such shareholders to comply with Notice 75

could subject us to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our subsidiaries' ability to make distributions or pay dividends or affect our ownership structure, which could adversely affect our business and prospects. See "Risks Relating to Regulation of Our Business — Because we may rely on dividends and other distributions on equity paid by our current and future Chinese subsidiaries for our cash requirements, restrictions under Chinese law on their ability to make such payments could materially and adversely affect our ability to grow, make investments or acquisitions that could benefit our business, pay dividends to you, and otherwise fund and conduct our businesses."

Furthermore, as these foreign exchange regulations are still relatively new and there is uncertainty concerning the reconciliation of the new regulations with other approval requirements, it is unclear how these regulations, and any future regulation concerning offshore or cross-border transactions, will be interpreted, amended and implemented by the relevant government authorities. We cannot predict how these regulations will affect our business operations or future strategy. For example, we may be subject to a more stringent review and approval process with respect to our foreign exchange activities, such as remittance of dividends and foreign currency-denominated borrowings, which may adversely affect our financial condition and results of operations. In addition, if we decide to acquire a PRC domestic company, we cannot assure you that we or the owners of such company, as the case may be, will be able to obtain the necessary approvals or complete the necessary filings and registrations required by the foreign exchange regulations. This may restrict our ability to implement our acquisition strategy and could adversely affect our business and prospects.

[Table of Contents](#)

Risks Relating to the People's Republic of China

China's economic, political and social conditions, as well as changes in any government policies, laws and regulations, could adversely affect the overall economy in China or the prospects of the industries in which we operate, which in turn could reduce our net revenues.

Substantially all of our operations are conducted in China. Accordingly, our business, financial condition, results of operations and prospects are subject, to a significant extent, to economic, political and social developments in China.

The Chinese economy differs from the economies of most developed countries in many respects, including the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. Although the Chinese economy has been transitioning from a planned economy to a more market-oriented economy since the late 1970s, the Chinese government continues to play a significant role in regulating industry development by imposing industrial policies. The Chinese government also exercises significant control over China's economic growth through the allocation of resources, controlling the incurrence and payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Changes in any of these policies, laws and regulations could adversely affect the overall economy in China or the prospects of the industries in which we operate, which could harm our business.

China's social and political conditions are also not as stable as those of the United States and other developed countries. Any sudden changes to China's political system or the occurrence of widespread social unrest could have negative effects on our business and results of operations. In addition, China has contentious relations with some of its neighbors, most notably Taiwan. A significant further deterioration in such relations could have negative effects on the Chinese economy and lead to changes in governmental policies that would be adverse to our business interests.

The Chinese legal system embodies uncertainties that could limit the legal protections available to you and us.

Unlike common law systems, the Chinese legal system is based on written statutes and decided legal cases have little precedential value. In 1979, the Chinese government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. The overall effect of legislation since then has been to significantly enhance the protections afforded to various forms of foreign investment in China. Our Chinese operating subsidiaries, ATA Testing and ATA Learning, are wholly foreign-owned enterprises, which are enterprises incorporated in China and wholly owned by foreign investors, and both are subject to laws and regulations applicable to foreign investment in China in general and laws and regulations applicable to wholly foreign-owned enterprises in particular. Our affiliated entity, ATA Online, is subject to laws and regulations governing the formation and conduct of domestic PRC companies. Relevant Chinese laws, regulations and legal requirements may change frequently, and their interpretation and enforcement involve uncertainties. For example, we may have to resort to administrative and court proceedings to enforce the legal protection that we enjoy either by law or contract. However, since Chinese administrative and court authorities have significant discretion in interpreting and implementing statutory and contractual terms, it may be more difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy than in more developed legal systems. Such uncertainties, including the inability to enforce our contracts and intellectual property rights, could materially and adversely affect our business and operations. In addition, confidentiality protections in China may not be as effective as in the United States or other countries. Accordingly, we cannot predict the effect of future developments in the Chinese legal system, particularly with regard to the computer-based testing services sectors, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof, or the preemption of local regulations by national laws. These uncertainties could limit the legal protections available to us and other foreign investors, including you.

Restrictions on currency exchange may limit our ability to utilize our revenues effectively and the ability of our Chinese subsidiaries to obtain financing.

A substantial majority of our revenues and operating expenses are denominated in Renminbi. Restrictions on currency exchange imposed by the Chinese government may limit our ability to utilize revenues generated in Renminbi to fund our business activities outside China, if any, or expenditures denominated in foreign currencies. Under current Chinese regulations, Renminbi may be freely converted into

foreign currency for payments relating to “current account transactions,” which include among other things dividend payments and payments for the import of goods and services, by complying with certain procedural requirements. Pursuant to the relevant regulations, a company applying for the remittance of dividends should provide to the bank handling the remittance: (i) proof of taxes paid, (ii) an audit report on the status of dividends, (iii) the relevant company’s foreign exchange registration certificate, (iv) a capital verification report issued by an accounting firm, and (v) an audit report on the company’s financial condition during the current year. These procedural requirements generally do not pose any risk to a wholly foreign-owned company’s ability to remit dividends to its offshore parent. However, should SAFE focus on our use of the variable interest entity structure for ATA Online during the approval or registration process, there is a risk that it may disapprove remittance of dividends or other capital account transactions in order to enforce the restrictions against foreign investment in online education business under the Guidance Catalogue of Industries for Foreign Investment. Revenues generated in the PRC can be converted into foreign currency to pay salaries of employees located outside of the PRC upon the employee completing registration procedures. Revenues generated in the PRC can also be used to pay off debt generated outside of the PRC, provided that the Company completes relevant foreign debt registration or approval requirements. Although the Renminbi has been fully convertible for current account transactions since 1996, we cannot assure you that the relevant Chinese government authorities will not limit or eliminate our ability to purchase and retain foreign currencies for current account transactions in the future.

[Table of Contents](#)

Conversion of Renminbi into foreign currencies and of foreign currencies into Renminbi for payments relating to “capital account transactions,” which include among other things investments, loans and acquisitions of land and other fixed assets overseas, generally requires the approval of SAFE and other relevant Chinese governmental authorities. Restrictions on the convertibility of the Renminbi for capital account transactions could affect the ability of our Chinese subsidiaries to make investments overseas or to obtain foreign exchange through debt or equity financing, including by means of loans or capital contributions from us.

Fluctuations in exchange rates could result in foreign currency exchange losses.

Because substantially all of our revenues and expenditures are denominated in Renminbi, fluctuations in the exchange rate between the U.S. dollar and Renminbi will affect our balance sheet and earnings per share in U.S. dollars. In addition, appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar would affect our financial results reported in U.S. dollar terms without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividend we issue that will be exchanged into U.S. dollars and earnings from and the value of any U.S. dollar-denominated investments we make in the future.

The value of the Renminbi against the U.S. dollar and other currencies is affected by, among other things, changes in China’s political and economic conditions and China’s foreign exchange policies. The People’s Bank of China regularly intervenes in the foreign exchange market to limit fluctuations in Renminbi exchange rates and achieve policy goals. Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all. In addition, our currency exchange losses may be magnified by Chinese exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

Any future outbreak of severe acute respiratory syndrome or avian flu in China, or similar adverse public health developments, may disrupt our business and operations.

Our business and operations could be materially and adversely affected by the outbreak of avian influenza, severe acute respiratory syndrome, or SARS, or other similar adverse public health development. In recent years, there have been reports on the occurrences of avian influenza in various parts of China and neighboring countries, including a few confirmed human cases. China reported the occurrence of a number of cases of H1N1 virus in China related to the global outbreak of H1N1 that began in the first half of 2009. A new avian flu strain H7N9 began appearing in China in early 2013, which has reportedly infected over 100 people and killed 23 across multiple provinces in China as of late April 2013. Any prolonged adverse public health development may result in health or other government authorities requiring the closure of our offices or the offices of our clients, or the cancellation of exams or classes to avoid students and others from congregating in closed spaces. Such occurrences would disrupt our business operations and adversely affect our results of operations. We have not adopted any written preventive measures or contingency plans to combat any future outbreak of avian flu, SARS or any other epidemic.

[Table of Contents](#)

Risks Relating to Our ADSs

Our ADS price and the ADS or stock prices of other companies with business operations primarily in China have fluctuated widely in recent years, which could result in substantial losses to investors.

The trading prices of our ADSs are volatile, and this volatility may continue. For instance, between April 1, 2012 and June 1, 2013, our ADS price as reported on Nasdaq ranged between a low of \$3.18 and a high of \$7.45. Numerous factors that are beyond our control may cause the market price of our ADSs to fluctuate significantly. In particular, the performance and fluctuation of the market prices of other technology companies with business operations mainly in China that have listed their securities in the United States may affect the volatility

in the price of and trading volumes for our ADSs. In recent years, a number of Chinese companies have listed their securities, or are in the process of preparing for listing their securities, on U.S. stock markets. Some of these companies have experienced significant volatility, including significant price declines in connection with their initial public offerings. The trading performances of these Chinese companies' securities at the time of or after their offerings may affect the overall investor sentiment towards Chinese companies listed in the United States and consequently may impact the trading performance of our ADSs. These broad market and industry factors may significantly affect the market price and volatility of our ADSs, regardless of our actual operating performance.

In addition to market and industry factors, the price and trading volume for our ADSs may be highly volatile for specific business reasons. Factors such as variations in our revenues, earnings and cash flow, announcements of new investments, cooperation arrangements or acquisitions, and fluctuations in market prices for our services could cause the market price for our ADSs to change substantially. Any of these factors may result in large and sudden changes in the volume and price at which our ADSs will trade. We cannot give any assurance that these factors will not occur in the future.

Although publicly traded, the trading market in our ADSs has been substantially less liquid than the ADSs or stock of many companies quoted on the Nasdaq Global Market, and this low trading volume may adversely affect the price of our ADSs.

Although our ADSs are traded on the Nasdaq Global Market, the trading volume of our ADSs has generally been very low. Reported average daily trading volume of our ADSs for the three-month period ended May 31, 2013 was approximately 3,914 ADSs. Limited trading volume will subject our ADSs to greater price volatility and may make it difficult for our shareholders to sell their ADSs at a price that is attractive to them.

The sale or availability for sale of substantial amounts of our ADSs could adversely affect their market price.

Sales of substantial amounts of our ADSs in the public market or the perception that these sales could occur, could adversely affect the market price of our ADSs and could materially impair our future ability to raise capital through offerings of our ADSs.

As of June 26, 2013, there were 46,169,410 common shares outstanding. In addition, there were outstanding options to purchase an aggregate of 2,747,342 common shares, including options to purchase an aggregate of 2,684,842 common shares immediately exercisable as of June 26, 2013. All of the ADSs sold in our initial public offering are freely tradable without restriction or further registration under the U.S. Securities Act of 1933, or the Securities Act, unless held by our "affiliates" as that term is defined in Rule 144 under the Securities Act. Subject to applicable restrictions and limitations under Rule 144 of the Securities Act of 1933, all of our shares outstanding as of the date of this annual report eligible for sale in the public market. In addition, the common shares subject to options for the purchase of our common shares will become eligible for sale in the public market to the extent permitted by the provisions of various vesting agreements, the lock-up agreements described below and Rules 144 and 701 under the Securities Act of 1933. If these additional shares are sold, or if it is perceived that they will be sold in the public market, the trading price of our common shares could decline.

A significant percentage of our outstanding common shares are held by a small number of our existing shareholders, and these shareholders may have significantly greater influence on us and our corporate actions by nature of the size of their shareholdings relative to our public shareholders.

Three of our existing shareholders, Kevin Xiaofeng Ma, Lijun Mai and SB Asia Investment Fund II L.P., beneficially own, collectively, approximately 55.5% of our outstanding common shares as of June 26, 2013. SB Asia Investment Fund II L.P. has one board representative on our five-director board, and beneficially owns approximately 33.0% of our outstanding common shares as of June 26, 2013. Accordingly, these shareholders have had, and may continue to have, significant influence in determining the outcome of any corporate transaction or other matter submitted to the shareholders for approval, including mergers, consolidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. In addition, without the consent of these shareholders, we could be prevented from entering into transactions that could be beneficial to us.

[Table of Contents](#)

Anti-takeover provisions in our organizational documents may discourage our acquisition by a third party, which could limit your opportunity to sell your shares at a premium.

Our amended and restated memorandum and articles of association include provisions that could limit the ability of others to acquire control of us, modify our structure or cause us to engage in change of control transactions, including, among other things, the following:

- provisions that provide for a staggered board which operates to prevent a third party from obtaining control of our board in a relatively short period of time because at least two annual shareholders' meetings, instead of one, would generally be required to effect a change in majority of the board.
- provisions that restrict the ability of our shareholders to call meetings and to propose special matters for consideration at shareholder meetings; and
- provisions that authorize our board of directors, without action by our shareholders, to issue preferred shares and to issue additional common shares, including common shares represented by ADSs.

These provisions could have the effect of depriving you of an opportunity to sell your ADSs at a premium over prevailing market prices by discouraging third parties from seeking to acquire control of us in a tender offer or similar transactions.

The voting rights of holders of ADSs must be exercised in accordance with the terms of the deposit agreement, the ADRs, and the procedures established by the depositary. The process of voting through the depositary may involve delays that limit the time available to you to consider proposed shareholders' actions and also may restrict your ability to subsequently revise your voting instructions.

A holder of ADSs may exercise its voting rights with respect to the underlying common shares only in accordance with the provisions of the deposit agreement and the ADRs. We do not recognize holders of ADSs representing our common shares as our shareholders, and instead we recognize the ADS depositary as our shareholder.

When the depositary receives from us notice of any shareholders meeting, it will distribute the information in the meeting notice and any proxy solicitation materials to you. The depositary will determine the record date for distributing these materials, and only ADS holders registered with the depositary on that record date will, subject to applicable laws, be entitled to instruct the depositary to vote the underlying common shares. The depositary will also determine and inform you of the manner for you to give your voting instructions, including instructions to give discretionary proxies to a person designated by us. Upon receipt of voting instructions of a holder of ADSs, the depositary will endeavor to vote the underlying common shares in accordance with these instructions. You may not receive sufficient notice of a shareholders' meeting for you to withdraw your common shares and cast your vote with respect to any proposed resolution, as a holder of our common shares. In addition, the depositary and its agents may not be able to send materials relating to the meeting and voting instruction forms to you, or to carry out your voting instructions, in a timely manner. We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote your shares. The additional time required for the depositary to receive from us and distribute to you meeting notices and materials, and for you to give voting instructions to the depositary with respect to the underlying common shares, will result in your having less time to consider meeting notices and materials than holders of common shares who receive such notices and materials directly from us and who vote their common shares directly. If you have given your voting instructions to the depositary and subsequently decide to change those instructions, you may not be able to do so in time for the depositary to vote in accordance with your revised instructions. The depositary and its agents will not be responsible for any failure to carry out any instructions to vote, for the manner in which any vote is cast or for the effect of any such vote.

Except in limited circumstances, the depositary for our ADSs will give us a discretionary proxy to vote our common shares underlying your ADSs if you do not vote at shareholders' meetings, which could adversely affect your interests.

Under the deposit agreement for the ADSs, the depositary will give us a discretionary proxy to vote our common shares underlying your ADSs at shareholders' meetings if you do not vote, unless we notify the depositary that:

- we do not wish to receive a discretionary proxy;
- we think there is substantial shareholder opposition to the particular question; or
- we think the subject of the particular question would have a material adverse impact on our shareholders.

[Table of Contents](#)

The effect of this discretionary proxy is that, absent the situations described above, you cannot prevent our common shares underlying your ADSs from being voted and it may make it more difficult for shareholders to influence the management of our company. Holders of our common shares are not subject to this discretionary proxy.

You may not receive distributions on our common shares or any value for them if such distribution is illegal or if any required government approval cannot be obtained in order to make such distribution available to you.

The depositary of our ADSs has agreed to pay to you the cash dividends or other distributions it or the custodian for our ADSs receives on our common shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of our common shares your ADSs represent. However, the depositary is not responsible to make a distribution available to any holders of ADSs if it decides that it is unlawful to make such distribution. For example, it would be unlawful to make a distribution to a holder of ADSs if it consisted of securities that required registration under the Securities Act but that were not properly registered or distributed pursuant to an applicable exemption from registration. The depositary is not responsible for making a distribution available to any holders of ADSs if any government approval or registration required for such distribution cannot be obtained after reasonable efforts made by the depositary. We have no obligation to take any other action to permit the distribution of our ADSs, common shares, rights or anything else to holders of our ADSs. This means that you may not receive the distributions we make on our common shares or any value for them if it is unlawful or unreasonable from a regulatory perspective for us to make them available to you. These restrictions may have a material adverse effect on the value of your ADSs.

You may be subject to limitations on transfer of your ADSs.

Your ADSs represented by ADRs are transferable on the books of the depositary. However, the depositary may close its books at any time or from time to time when it deems expedient in connection with the performance of its duties. The depositary may close its books from time to time for a number of reasons, including in connection with corporate events such as a rights offering, during which time the depositary needs to maintain an exact number of ADS holders on its books for a specified period. The depositary may also close its books in emergencies, and on weekends and public holidays. The depositary may refuse to deliver, transfer or register transfers of our ADSs generally when the books of the depositary are closed, or at any time if we or the depositary thinks it is advisable to do so because of any

requirement of law or any government or government body, or under any provision of the deposit agreement, or for any other reason.

We are a Cayman Islands company and, because judicial precedent regarding the rights of shareholders is more limited under Cayman Islands law than under U.S. federal or state laws, you may have less protection of your shareholder rights than you would under U.S. federal or state laws.

Our corporate affairs are governed by our amended and restated memorandum and articles of association, the Cayman Islands Companies Law and the common law of the Cayman Islands. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less developed body of securities laws than the United States. In addition, some jurisdictions, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law than the Cayman Islands. As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a U.S. company.

Certain judgments obtained against us by our shareholders may not be enforceable.

We are a Cayman Islands company and substantially all of our assets are located outside of the United States. Nearly all of our current operations are conducted in China. In addition, most of our directors and officers are nationals and residents of countries other than the United States. A substantial portion of the assets of these persons are located outside the United States. As a result, it may be difficult for you to effect service of process within the United States upon these persons. It may also be difficult for you to enforce in U.S. court judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our officers and directors, none of whom is resident in the United States and the substantial majority of whose assets is located outside of the United States. In addition, there is uncertainty as to whether the courts of the Cayman Islands or China would recognize or enforce judgments of U.S. courts against us or such persons predicated upon the civil liability provisions of the securities laws of the United States or any state. In addition, there is uncertainty as to whether such Cayman Islands or Chinese courts would be competent to hear original actions brought in the Cayman Islands or China against us or such persons predicated upon the securities laws of the United States or any state.

[Table of Contents](#)

Your right to participate in any future rights offerings may be limited, which may cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to you in the United States unless we register the rights and the securities to which the rights relate under the Securities Act or an exemption from the registration requirements is available. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective. Moreover, we may not be able to establish an exemption from registration under the Securities Act. Accordingly, you may be unable to participate in our rights offerings and may experience dilution in your holdings.

ITEM 4. INFORMATION ON THE COMPANY

A. History and Development of the Company

Our predecessor company, American Testing Authority, Inc., a New York company, began operations in 1999, and in that same year established ATA Testing Authority (Beijing) Limited, or ATA Testing, as a wholly owned subsidiary in China. In November 2001, our founders established ATA Testing Authority (Holdings) Limited, or ATA BVI, in the British Virgin Islands. The following year American Testing Authority, Inc. merged into ATA BVI and ATA BVI became our holding company.

In June 2003, we established a Chinese joint venture company, ATA Learning (Beijing) Inc., or ATA Learning, with Yinchuan Economic and Technological Development Zone Investment Holding Co. Ltd., or Yinchuan Holding. Initially, we held a 40% equity interest in ATA Learning. In May 2005, we acquired Yinchuan Holding's 60% equity interest and converted ATA Learning into a wholly owned subsidiary of ATA BVI.

We incorporated ATA Inc. in the Cayman Islands in September 2006 as our listing vehicle. ATA Inc. became our ultimate holding company in November 2006 when it issued shares to the existing shareholders of ATA BVI in exchange for all of the outstanding shares of ATA BVI.

In February 2009, we completed the acquisition of the entire equity interest of Beijing Jindixin Software Technology Company Limited, or Beijing JDX, and JDX Holdings Limited, or JDX BVI, which are related companies incorporated in China and the British Virgin Islands, respectively, engaged in the development and marketing of software for computer-based tests. JDX BVI was dissolved in October 2009.

For additional information on our organizational structure, see Item 4.C. "Organizational Structure."

Our principal executive offices are located at 8th Floor, Tower E, 6 Gongyuan West Street, Jian Guo Men Nei, Beijing 100005,

People's Republic of China, and our telephone number is (86-10) 6518-1122. Our web site address is <http://www.ata.net.cn>. The information on our web site does not form a part of this annual report. On February 1, 2008, we completed our initial public offering, which involved the sale by us of 4,874,012 of our ADSs, representing 9,748,024 of our common shares. Our agent for service of process in the United States in CT Corporation System, located at 111 Eight Avenue, New York, New York 10011.

B. Business overview

Overview

We believe that we are the leading provider of computer-based testing services in China, based on test delivery capacity and geographic coverage. We offer comprehensive services for the creation and delivery of computer-based tests utilizing our nation-wide test delivery platform, proprietary testing technologies and extensive experience providing testing services in China. Our computer-based testing services are used for professional licensure and certification tests in various industries, including IT services, banking, securities, teaching and insurance. Our computer-based testing services clients principally include professional associations, such as the SAC, China Banking Association and China Futures Association, and Chinese governmental agencies, including the PRC Ministry of Human Resources and Social Security.

[Table of Contents](#)

Our test center network, which we believe is the largest test center network of any commercial testing service provider in China, comprised 2,804 authorized test centers located throughout China as of March 31, 2013. Combined with our test delivery technologies, this network allows our clients to administer large-scale nationwide computer-based and paper-based tests in a consistent, secure and cost-effective manner. From our inception in 1999 through March 31, 2013, we have delivered approximately 59.2 million tests, including approximately 11.4 million free tests for business development purposes. Over the course of two days on October 13 and October 14, 2012, we delivered tests to more than 1.3 million test takers for the CPA, demonstrating our ability to administer computer-based tests across the country on a massive scale through our nationwide test delivery platform. During the fiscal year ended March 31, 2013, approximately 9.3 million tests were delivered using our computer-based testing technologies and services.

Our proprietary computer-based testing technologies include our E-testing platform for delivering computer-based tests and our content creation and management technologies. Our E-testing platform is composed of a set of self-developed tools and applications for facilitating the computer-based testing process, and is capable of handling large-scale tests and quickly and securely transmitting, processing and storing large amounts of data. Our self-developed test content creation and management technologies include our Dynamic Simulation Technology, an advanced performance-based testing technology which leading IT certification sponsors, including Microsoft, have adopted for their computer-simulated tests given around the world. We have also developed content creation technologies for the conversion of paper-based tests into computer-based formats and a new mobile testing platform to make test administration easier and cheaper.

Leveraging our testing platform, technologies and expertise, we have expanded our service offerings beyond our core computer-based testing services to include other test-focused services. We offer targeted test preparation and training solutions for certain professional licensure and certification tests in the securities and teaching industries. ATA Online has launched online training web sites in coordination with the SAC and the China Futures Association to help candidates across China attain continuing educational requirement after their professional licensure and certification tests, which are delivered through our test delivery platform. In March 2009, we launched HR Select, our self-developed online system that utilizes our proprietary software and a large inventory of test titles to assist companies in streamlining and optimizing their employee selection and assessment processes. HR Select offers tools for filtering and categorizing employee candidates, testing candidates and analyzing the test results. Since March 2009, we have been the exclusive agent for delivering the Test of English for International Communication, or TOEIC, in China.

Our total net revenues increased from RMB303.9 million in the fiscal year ended March 31, 2011 to RMB352.1 million in the fiscal year ended March 31, 2012 and RMB366.7 million (\$59.0 million) in the fiscal year ended March 31, 2013. We had net income of RMB19.8 million in the fiscal year ended March 31, 2011, RMB55.8 million in the fiscal year ended March 31, 2012 and RMB23.2 million (\$3.7 million) in the fiscal year ended March 31, 2013.

Our Test Delivery Platform and Technologies

We offer our clients a comprehensive platform and suite of technologies for the development and delivery of computer-based tests. Our E-testing platform integrates all aspects of the test delivery process for computer-based tests, from test form compilation to test scoring and results analysis. Our test delivery services are further enhanced by our nation-wide network of test centers, which allows us to deliver both computer-based and paper-based tests on a large scale in a consistent, secure and cost-effective manner. We also offer our clients advanced technologies and software applications for the creation of sophisticated computer-based tests, including advanced performance-based tests. While we still offer a choice between paper-based testing and computer-based testing for our institutional clients, currently all of our national public exams are delivered using computer-based testing, and we expect the trend towards computer-based exams to continue in the future. For example, we successfully helped the General Administration of Customs, or China Customs, to transfer from paper-based testing to computer-based testing for its unified national customs declarer certification test in 175 cities in November 2011. By combining our advanced test content creation technologies with our test delivery platform and network of test centers, we can offer our clients a comprehensive and integrated solution to enhance the effectiveness of the entire testing process, as shown in the following diagram.

[Table of Contents](#)

Our E-Testing Platform

Our E-testing platform incorporates a number of technologies and protocols designed to ensure the stable, cost-effective, secure, accurate, fast and easy-to-manage delivery of computer-based tests on a large scale. It is flexible and is easily customized for many types of test content and the specific requirements of the test sponsor. Tests delivered through our E-testing platform may be conducted at our ATA authorized test centers or at other locations at the test sponsor’s discretion. Our E-testing platform is composed of a set of tools and applications for facilitating the computer-based testing process, including a network sub-system for managing and transferring test content, test taker information and test results data in a secure and efficient manner. Our E-testing platform software applications are designed to handle large-scale testing environments and are capable of transmitting, receiving, processing and storing large amounts of information in a short time span. We currently have the capability to deliver more than 1,000,000 tests per day using our 75 servers, which can be increased to enlarge capacity. We periodically upgrade our equipment and software applications to handle increasing testing volume as required.

Our ATA Authorized Test Center Network

To help our clients reach a broad base of test takers, we have established a large network of authorized test centers across China and in Macao, which we refer to as our ATA authorized test centers. As of March 31, 2013, we had contractual relationships with 2,804 ATA authorized test centers, of which 1,929 hosted tests delivered through our testing platform within the last 24-month period and 1,506 possess the right to use our “ATA” brand name and logo. Our network of ATA authorized test centers provides the means for delivering and administering tests nationally both simultaneously and on a regularly scheduled basis under consistent and secure testing conditions.

The following map shows the geographic distribution of our ATA authorized test centers as of March 31, 2013:

[Table of Contents](#)

Extensive Network of Test Centers

We do not own any of our ATA authorized test centers but instead enter into a standard form of contract with qualified independent operators to act as ATA authorized test centers. Most of our ATA authorized test centers are owned by Chinese vocational schools, which we believe enhances the quality and dependability of the centers. Under our contracts with the test centers, we license our ATA E-testing platform technology and provide ongoing technical support and training during the contract period. We require each test center to provide sufficient facilities to properly administer computer-based tests and to follow prescribed guidelines for facility maintenance and test administration. We also conduct regular reviews of their facilities and operations. We assist our clients in liaising and coordinating testing arrangements with our ATA authorized test centers.

Our ATA authorized test centers are divided into general test centers, which offer a wide range of tests and have the right to use our “ATA” brand name and logo, and special test centers with which we enter into contracts to carry out specific tests for specific test sponsor clients. We receive license fees from our general test center operators in the form of either a single initial license fee or a combination of initial license fee and annual continuing license fees. Under either fee arrangement, our licensees can extend their licensing agreement with us indefinitely.

Our Test Content Creation and Management Technologies

We offer our clients advanced technologies and software applications for the creation of sophisticated computer-based tests, including advanced performance-based tests.

Our Dynamic Simulation Technology is a performance-based testing technology that provides the format for creating, illustrating, running and scoring tests in a virtual computer environment that accurately and realistically simulates the operating environment and functions of the software applications being tested without requiring the installation or use of those applications. Our Dynamic Simulation Technology is designed to provide maximum interactivity and allow the test taker to perform tasks in the simulated environment and operate through multi-level testing paths. The current version of Dynamic Simulation Technology, version 5.0, is an interpreter-based simulation technology, which represents our fifth generation of simulation testing technologies.

[Table of Contents](#)

Interpreter-based simulation offers high flexibility, adaptability to most applications, low disk space usage and short lead times for developing new tests once the system is in place. Based on feedback from our clients, we believe that we are the only company in the world that has developed and marketed interpreter-based simulation technology for testing and educational use. For this reason, we believe that our Dynamic Simulation Technology is the world’s leading technology for the creation and illustration of performance-based tests through simulation. Currently content of over eight languages have been delivered through this technology around the world.

We have also developed two non-simulation testing technologies: Real Environment Technology and ATA Markup Language. Our Real Environment Technology is used for creating and running performance-based tests and learning exercises that track and score within the actual operating system or software application being tested. We have also developed our ATA Markup Language for the creation and

illustration of knowledge-based test items that require the test taker to respond to specific questions in a traditional question-and-answer format. While less sophisticated than our performance-based testing technologies, ATA Markup Language remains a key technology for our large base of clients who contract with us for the conversion of paper-based tests to computer-based tests. In addition, many performance-based tests also include traditional multiple-choice questions created and run by our ATA Markup Language and related software applications.

We have developed test item authoring tool applications for our Dynamic Simulation Technology, Real Environment Technology and ATA Markup Language. We have also developed other authoring tools, such as user interface cloning and translation software, for increasing the efficiency of the test content creation and revision process. To meet individual client needs, we have developed test engine applications for integrating tests using our testing technologies on multiple testing platforms. For instance, we have developed test engine applications that allow running Dynamic Simulation Technology tests on our own test delivery platform, on Microsoft's test port and on other test platforms.

We have developed a mobile test administration platform to service our clients called the Mobile Testing Service, or MTS, which we believe significantly enhances the security and efficiency and cost-effectiveness of test administration. Our mobile platform has already been deployed for use in our administration of the Cambridge Computer-based Young Learners Exam in Hong Kong, and we expect it to garner widespread use in the future.

All of our computer-based testing technologies have been developed in-house, and none incorporates any third-party intellectual property.

In addition to incorporating our technologies into our test service offerings, we also directly generate revenue from our Dynamic Simulation Technology and related simulation authoring tools by licensing them to international IT certification sponsors, such as Microsoft, Citrix and CompTIA for the creation of test items and test preparation course exercise items delivered to students and test takers all over the world.

Our Service Offerings

Testing Development and Delivery Services

Computer-based test authoring, delivery and result analysis services. Our test delivery platform and technologies allow us to offer our clients a comprehensive set of services for the authoring, delivery and analysis of computer-based tests as well as logistical services such as test registration, scheduling and fee collection. We have assisted our clients with creating and delivering a wide range of computer-based tests, including professional association or licensure tests required by governmental agencies for positions within various governmental agencies or industry associations that test the competence of individuals who operate in certain industries that require technical expertise and which carry professional titles, such as:

- the National Unified Certified Public Accountants Exam, designed and regulated by the CICPA;
- the Certification of China Banking Professionals Exam, designed and regulated by the CBA under the supervision of the China Banking Regulatory Commission;
- the Qualifications Exam for Individuals Engaged in the Securities Industry, designed and regulated by the SAC under the supervision of the China Securities Regulatory Commission;
- the Security Fund Exam, designed and regulated by the SAC under the supervision of the China Securities Regulatory Commission;
- the National Security Guard Exam, designed and regulated by the Ministry of Public Security of the People's Republic of China;
- IT vendor tests that assess the technical skills and competence of IT professionals in relation to specific types of IT applications, computer operating systems or other IT skill sets, and that allow test takers to obtain a professional license or certification in a specific subject area, job title or career path; and
- corporate assessment services for large scale/daily recruitment and internal personnel assessment purposes.

[Table of Contents](#)

Utilizing our comprehensive and advanced item authoring system and rendering technologies, we assist our clients in developing sophisticated computer-based tests, including performance-based items. Creation of effective and user-friendly computer-based tests involves a multi-step process:

- *Test design.* Our content development consultants work together with the client to determine the test purpose, target audience, test objectives and required competency level to formulate an overall test blueprint. We then arrange for the client to work with our subject matter experts, or to engage outside subject matter experts with specific experience in the subject area, to work with us on the scope of knowledge covered by the test and to design and author specific testing items for required knowledge points.
- *Test item authoring.* Based on the test blueprint and using our advanced test engine technologies, we work together with subject

matter experts to create test items designed to determine a test taker's proficiency and speed in solving both practical and conceptual problems. The test items are designed to support immediate test scoring and results analysis. Test items generally fall into two types: traditional items and performance-based items. Once all of the test items have been created, our content development consultants and subject matter experts commence a review process to ensure the validity of each test item, clarity of language and overall quality. All of the test items are then deposited in a master test item pool.

- *Test form and item bank construction.* Once the test items are ready, we tag parameters to test items for building up test item banks, which enable test forms to be formulated. Test forms with equal level of difficulty are generated from the test item bank based on the pre-defined blueprint of the test to ensure fairness across test forms.
- *Final user acceptance beta test.* Before publication, the test undergoes a final user acceptance beta test during which volunteer test takers take the test and provide feedback. Based on the test results from the beta test, we are able to evaluate the efficacy of the test, eliminate problematic test items and otherwise fine tune the test items to ensure quality.
- *Continuous upgrades through result analysis and user feedback.* As we deliver tests in real-world environments, we monitor and analyze the quality and adequacy of the test content and implement upgrades as we develop or adopt new technologies and techniques. We also communicate with test users and collect feedback from the test sponsors and test takers to ensure that desired improvements are made in a timely manner.

Depending on the client's needs, we perform some or all of the above services to each client. For example, in some cases, clients may have already created all of the test items and may only require us to build the test using our ATA E-testing platform. Computer-based tests can also be scheduled on an on-demand basis, or as regularly scheduled tests, which must be prescheduled and taken by test takers at a designated time.

Our computer-based testing delivery services generally include the following, subject to the test sponsor's specific needs:

- installing our ATA E-testing platform on the client's computer system to enable centralized administrative tasks to be implemented for the test or, in the case of repeat clients, updating the platform as necessary, for new tests;
- providing technical support throughout the test administration process;
- updating test session information and performing test rehearsals and final testing environment inspection;
- implementing the test sessions and collecting responses from candidates; and
- processing test scores, summarizing and analyzing test scores and generating results.

[Table of Contents](#)

We also offer a number of logistical support services relating to test administration that we incorporate into the testing fee for our test delivery platform based on client's customized needs. These support services include:

- managing test taker registration and scheduling;
- managing test taker fee collection;
- preparing and conducting pre-test training of personnel at each ATA authorized test center;
- providing test data management, such as test score publishing and inquiry; and
- preparing and delivering certificates for test takers who have satisfied the test sponsor certification requirements.

We usually offer test content creation services and test delivery services as an integrated solution and collect a fixed fee per test per test taker. The fee we charge depends on the length and complexity of the test, the amount of effort it takes to transform the testing content into a computer-based test format and other factors in the test development and administration process, such as security levels and the amount of logistical services provided.

Distribution and administration of TOEIC exams in China. Since March 2009, we have become the exclusive distributor and test administrator of TOEIC exams in China, which are operated by ETS, the world's largest educational research and assessment organization. Originally designed in 1979 by ETS for governmental agencies and corporations, TOEIC measures the ability of non-native speakers of English to communicate in English in the workplace. According to ETS, the TOEIC exam is being used by over 14,000 companies, government agencies and English language learning programs in 150 countries, with around seven million TOEIC exams administered around the world last year. TOEIC has become the top professional English language assessment tool in the world, according to ETS.

TOEIC tests include large-scale tests open to the general public for a set fee as well as on-demand tests given for specific enterprises or organizations. We administered our first TOEIC exam in three cities in China in March 2009. We collect a per-test taker fee for each test delivered. TOEIC exams in China used to be only available in a paper-based format, but since August 2011, we began also delivering

computer-based TOEIC exams through our ATA authorized test center network and expect this trend towards more computer-based exams to continue in the future.

Distribution and administration of ACT exams in China. We entered into a three-year Master Agreement in October 2012 with ACT, Inc. (“ACT”) to distribute and market certain ACT test titles and assessment-related products. Under a separate addendum signed on the same day, we will administer the ACT college admission test at test centers operated by ATA and schools running the Global Assessment Certificate Program in China, and collect a per-test taker fee for each test delivered.

Distribution and administration of Cambridge tests. We entered into an exclusive ten-year Master Distribution and Services Agreement in March 2013 with The Chancellor, Masters and Scholars of the University of Cambridge (“Cambridge”), an affiliate of the University of Cambridge which has the largest dedicated research department of any UK-based language assessment organization. Under this agreement, we will develop, host, market, and distribute certain Cambridge tests and collect a per-test taker fee for each test delivered. As of March 31, 2013, we have enabled the delivery of 49 of its Computer-based Young Learners Exam (“CBLUE”) in Hong Kong with ATA testing technologies and expect to expand delivery of this and other Cambridge test titles in the future through ATA testing technologies.

Test Preparation and Training Solutions

We offer test preparation and training programs and services to test candidates preparing to take professional certification tests as well as candidates aiming to fulfill their continuing educational requirement after passing their licensure exams in these industries. Our test preparation and training solutions integrate our testing and assessment technologies with test preparation and training content targeted at professional licensure and certification tests in China.

[Table of Contents](#)

Online test preparation and training platform for the securities and banking industries. Leveraging the increased scale of ATA-delivered securities certification test, ATA Online launched an online test preparation Internet web site in coordination with the SAC to provide a flexible and scalable platform aimed at helping candidates across China to fulfill their Continuous Professional Development (CPD) requirement after passing their professional licensure and certification tests delivered by ATA. Test preparation and training customers gain access to Internet web sites that contain the latest training materials provided by the test sponsors and streaming video teaching sessions and practice tests developed by ATA. Since December 2011, the SAC has been in the process of assessing the feasibility to run its online training program internally rather than outsourcing its operation to us. In place of our previous contract under which we operated the online training program on behalf of the SAC, we entered into a contract under which we provided technical and services support during the assessment period. We are currently providing data transfer services to the SAC, upon the completion of which we will earn revenue of RMB 1.0 million. We do not expect any further revenue from providing test preparation services to the SAC subsequent to our completion of these data transfer services.

Cambridge ESOL Young Learners English online tutorials. In September 2008, we entered into a business partnership with the PRC Ministry of Education to develop and provide online tutorials to students enrolled in Cambridge ESOL’s “Cambridge Young Learners English” programs in China. The tutorials contain audio-visual study aids and practice items that we have developed in conjunction with the Institute of Online Education of Beijing Foreign Studies University. We began earning revenues from these online tutorials in September 2009.

HR Select Employee Assessment Solution

In March 2009, we launched our self-developed “HR Select” employee assessment solution. HR Select is an online system that utilizes our proprietary software and a large inventory of test titles to help employers in China maximize the efficiency and accuracy of their employee recruitment process. HR Select covers the entire employee selection process from resume filtering to talent assessment and skills testing to test results analysis.

HR Select incorporates sophisticated database technologies for retaining and categorizing key candidate data, allowing human resource managers to effectively and efficiently process and filter a large number of candidate resumes. More importantly, we believe HR Select as a platform for testing, comparing and analyzing general, industry-specific and job title-specific capabilities and skill-sets makes it a unique offering in the market. Employers using HR Select can choose to adopt any of a multitude of evaluation parameters, including:

- General work skills, including among others foreign language skills, software application skills, management skills, reading comprehension ability and data processing skills;
- Position-specific skills, including customized tests for IT, finance, management, customer service, administrative and sales positions; and
- Compatibility traits, which look at non-skills elements that indicate a candidate’s likelihood of success, such as personal values, self-image, self-motivation and other personality traits.

HR Select leverages our computer-based testing technologies and expertise to allow employers to evaluate candidates on each of these parameters and to analyze and categorize the results to make effective recruitment decisions. We have also leveraged our particular expertise in certain industries where we have been delivering computer-based tests and educational services, including the IT and finance industries, to provide targeted services to employer clients. HR Select currently offers tailored evaluation tests for 600 positions with over 260 evaluation modules. For example, TOEIC and Saville, which is a career aptitude test, are available via the HR Select service to assess a candidate’s business English skill and job aptitude, respectively. Employers may adopt ready-made tests available in the HR Select system, or use their

own self-developed tests. If they use their own tests, they can choose to keep the test confidential or permit other HR Select clients to view the tests. By allowing test content to be shared, we believe HR Select can facilitate the standardization of recruitment criteria within industries. HR Select incorporates our computer-based testing technologies to allow clients to deliver the evaluation tests online in a secure, accurate and easy-to-manage manner. HR Select can be administered at ATA authorized test centers or via our customized online platform.

Our current HR Select clients principally include large domestic and foreign-invested companies in highly skill-intensive industries such as insurance and banking. By the end of the fiscal year ended March 31, 2011, the four largest Chinese state-owned banks have all become customers of our computer-based testing services that incorporate our HR Select solution. We expect to market HR Select to the large and growing small- and medium-enterprise market in China where recruitment resources are limited and where the consequences of poor hiring decisions are greater. Pricing starts at a volume-limited annual subscription, with additional fees charged depending on the volume, specific test titles utilized and whether ATA authorized test centers are used.

[Table of Contents](#)

To complement our HR Select offerings, we signed an exclusive ten-year partnership agreement with Saville Consulting, a global human resources assessment firm whose products are available in over 80 countries, in August 2011 to deliver Saville's unique and proprietary psychometric measurement instruments and specialized aptitude tests through our testing platform. Saville's psychometric assessment has enhanced our HR Select product portfolio and moved us one step closer to our goal of being a premium provider of international, brand name test content.

Career-Oriented Educational Services

Our career-oriented educational services include single course programs, degree major course programs and pre-occupational training programs focusing on preparing students with skills for particular job titles and to pass IT and other vocational certification tests. Each single course program we offer is typically centered on a specific type of computer software application or other technology that requires significant training and practice to master and for which certification is offered. Our degree major course programs are designed to help graduates prepare for particular types of jobs and career paths. These programs are essentially combinations of multiple single course programs designed to help students acquire a cluster of skill sets. In general, the entire degree major course program can be completed within two to three years and comprises all courses necessary for the student's college major. Our pre-occupational training programs provide students with a simulated internship environment replicating what these students would experience in an actual internship and that are designed to prepare students for actual job positions. A typical pre-occupational training program will last for two to three months.

Data Storage and Security

One of the most important aspects of our computer-based testing services is ensuring the integrity and security of the test-taking process. To accomplish this, we use multiple technologies and methods to ensure the security of test content, test results and other sensitive data used or obtained in relation to our services.

We have developed and implemented the following technologies and measures to protect security throughout all stages of test development and delivery:

Preparation and Storage of Test Items

To reduce the risks associated with potential unauthorized disclosure or misuse of test questions by ATA personnel during the process of creating test item banks, we divide test item authoring and management tasks among multiple persons and limit each person's access to the test item content through the use of access permissions. Each test item author is only responsible for creating a limited amount of test item content and is permitted access only to that content for which that person is responsible. As a result, no one has full access to the contents beyond his or her scope of work. Test item bank managers receive limited permissions and are not given access to view the content of individual test items. Moreover, our test item authoring and test item bank management tools record and track all access and modifications to test items or the test item pool to detect any breaches to the security protocols. Once the test item banks are created, the content is encrypted and stored on our secure central servers or the client's servers. Our servers are located in a central machine room operated by one of the most well-established server hosting service providers in China. These servers are protected by firewalls and stored using NetApp™ equipment, which permits real-time back-up. We encrypt all test item banks using our self-developed encryption algorithm, which prevent decryption or reverse engineering through the use of electronic fingerprinting, anti-tracking and trapping technologies.

Creation of Test Forms and Transmission of Test Materials to the Test Site

Our software applications automatically compile individual test forms from the test item bank according to the test blueprint and pre-arranged parameters. During this process, no access or viewing of the content of individual test items is permitted and all steps in the process are digitally recorded. The encrypted test forms are delivered to the test site's server either on hard disc or through a secure network, generally one day before the day of the test. The relevant information on each test taker is separately transferred in encrypted format to the test site via the Internet. A hardware dongle containing an encrypted time stamp is used to ensure that the test begins and ends on time. A hardware dongle is a hardware device that must be inserted into the USB port of the test site's central computer to decrypt and operate the test content. We design our own hardware dongles, which incorporate ATA-owned integrated circuit technology, and outsource its production to multiple factories in China. A decryption algorithm used along with the hardware dongle to complete decryption of test materials and commence the test.

Conduct of the Test

We train all test center personnel on protocols and supervision techniques to be used during test time. Test center administrators confirm test takers' identities through photographs, fingerprints and other biometric data. We also issue to each test taker upon registration a password that must be inputted on the test day to start the test. Once the test session has begun, software installed as part of each test tracks all actions and operations taken during the test and records them on the test site central server in real time. The testing software prevents test takers from accessing any network during test time. When a test taker opens up a question, it is decrypted and displayed. To protect against cheating, we have invested in surveillance equipment and the order in which test answer choices appear is randomly generated with each answer choice encoded as a unique number and letter chain. Immediately upon the test taker's completion of each test item, the recorded data is re-encoded and re-encrypted.

Transmission, Reading and Storage of Test Results

In most instances, tests are scored on the test site server immediately following conclusion of the test and subsequently uploaded to our central servers. All transferred data is encrypted and data code integrity is verified using MD5 and Hash technologies. Following scoring, we store all test content and results on our firewall-protected central servers.

Intellectual Property

Intellectual property protections, including copyrights, trademarks, patents, and trade secrets are important to our success. We rely on copyright, trademark and patent law, trade secret protection and confidentiality agreements with our employees, clients, business partners and others to protect our intellectual property rights. All of our senior management and engineering employees are required to sign agreements acknowledging that all inventions, trade secrets, works of authorship, innovations and other processes generated by them that relate to our business are our property, and to assign to us any ownership rights in those works. Despite our efforts, it may be possible for third parties to obtain and use our intellectual property without authorization.

We have registered 132 software copyrights relevant to our product and service offerings with the Copyright Protection Center of China.

As of March 31, 2013, we have also registered 207 domain names relating to our web sites, including www.ata.net.cn, the primary URL for our web site, with the Internet Corporation for Assigned Names and Numbers and the China Internet Network Information Center, a domain name registration service provider in China.

We have also sought patent protection relating to our testing technology. On February 22, 2013, we submitted two applications with China's State Intellectual Property Office seeking dual invention patent protection and utility model protection for our testing transmission technology. We expect to obtain approval within approximately 18 months for the invention patent and within approximately six months for the utility model patent from the date of the application. Once approved, we are entitled to a protection period of 20 years for the invention patent and 10 years for the utility model patent starting from the date of application. In addition, our testing technologies also enjoy protection in China as trade secrets under China's Anti-Unfair Competition Law.

Clients

The quality and flexibility of our product and service offerings has attracted a broad base of clients. Our clients principally include Chinese governmental agencies, professional associations, well-known IT vendors and Chinese educational institutions as well as individual test preparation services consumers. The SAC, CBA and CICPA accounted for 23.0%, 16.5% and 14.8%, respectively, of our total net revenues for the fiscal year ended March 31, 2013. No other client accounted for more than 10% of our total net revenues for the fiscal year ended March 31, 2013.

As of March 31, 2013, we had 512 contracts with test sponsors for our computer-based testing services. For the fiscal year ended March 31, 2013, our five largest computer-based testing services clients based on revenue were:

- the SAC, which has been designated by the China Securities Regulatory Commission as the sole administrator of securities industry qualification tests in China;
- the CBA, which has been designated by the China Banking Regulatory Commission as the sole administrator of banking industry qualification tests in China;
- the CICPA, which has been designated by Ministry of Finance of the People's Republic of China as the sole administrator of CPA qualification tests in China;
- the Professional Skills Qualification Center of the PRC Ministry of Human Resources and Social Security; and
- Agricultural Bank of China.

These five clients represented an aggregate of 65.0% of our total net revenues for the fiscal year ended March 31, 2013.

Sales and Business Development

Our sales and business development department, primarily composed of members of our senior management and professional sales team, is responsible for identifying and developing new markets and client opportunities for our product and service offerings. For our computer-based testing services, we target key governmental agencies, professional associations, enterprises and other potential clients to help them develop standardized certification, qualification or assessment policies. Once we have identified a potential client, we generally submit an initial proposal outlining the services we can provide based on our analysis of their test-related needs. We may develop and conduct trial tests tailored to the client's needs based on the terms of a memorandum of understanding signed with the client. We generally enter into a final contract with the client only after successful completion of the trial tests. During this process, we also actively seek opportunities to cross-sell and up-sell our services, including test preparation services and ancillary testing services to the client. The following diagram illustrates the key stages in our testing services business development process.

Marketing

To generate demand and market awareness, we engage in a variety of marketing activities to promote our product and service offerings. We host and invite potential clients, such as key governmental agencies and governing bodies, to industry conferences on topics such as the development of computer-based testing technologies. We also attend conferences and trade shows to demonstrate and promote our technologies and product and service offerings. We conduct marketing for our career-oriented educational services through promotional activities in cooperation with local governmental departments and educational institutions and through our local sales agents. Our on-campus marketing activities include promoting the IT vendors' certification tests together with our course programs and other career-oriented educational services, while linking both to our "ATA" brand name, through prominently placed marketing materials like posters and other advertising means. We promote wider recognition of our "ATA" brand by placing our logo prominently outside ATA authorized test centers and in test and course program materials. We are also developing joint marketing efforts with certain independent operators of our ATA authorized test centers.

Competition

In the computer-based testing services market, we compete primarily on the basis of technology, price, management experience and established infrastructure. We believe that our overall testing services and technologies, along with our nationwide test center network, provide us with a competitive advantage. We believe that we are currently the market leader in computer-based testing services in China due to the combination of our experience in and familiarity with the China computer-based testing services market, our advanced technology, our large nationwide network of test centers, our established relationships with key test sponsors and governmental agencies and our competitive cost levels.

We believe that we have the largest test center network of any commercial computer-based testing service provider in China. We had 2,804 authorized test centers in China, including centers in every province in China, as of March 31, 2013. To our knowledge, based on interactions with clients and others in the market, there are no other commercial computer-based testing service providers in China with a test center network as large as ours. Our vast network of test centers allows our clients to administer large-scale nationwide computer-based tests in a consistent, secure and cost-effective manner. During the fiscal year ended March 31, 2013, approximately 9.3 million tests were delivered using our computer-based testing technologies and services, and our capacity for test delivery, which can be easily expanded if necessary, is already more than 1,000,000 tests per day.

[Table of Contents](#)

For our HR Select employee assessment solution, while there are other companies providing services to corporate human resources departments, we are differentiated by our comprehensive service and focus on offering more professional testing services with proprietary testing technologies.

While we anticipate new market entrants and increased efforts by existing international players to expand their presence in China, we believe that relatively high entry barriers, such as the time and costs associated with establishing a large-scale test center network, will make it difficult for new entrants or international competitors to quickly gain market share from us in China. We believe that potential domestic entrants lack the technology and commercial relationships that we possess. International competitors will likely face challenges in establishing effective relationships with key Chinese government and industry test sponsors or local educational institutions.

Seasonality

We have experienced seasonality and expect in the future to continue to experience seasonality in net revenues and accounts receivable related to our test delivery services, with the quarters ending June 30 and December 31 typically having higher net revenues from testing services and the quarters ending September 30 and March 31 typically having lower net revenues from testing services. This is primarily because the tests from which we derive substantial revenues are mostly delivered in the quarters ending June 30 and December 31.

Regulation

This section sets forth a summary of the most significant laws, regulations, policies and requirements that affect our business activities in China, the industries in which we operate, and our shareholders' right to receive dividends and other distributions from us.

Regulation of the Software Industry

In China, holders of computer software copyrights enjoy protection under the Copyright Law of the People's Republic of China, or the Copyright Law. Under the Copyright Law, China's State Council and the State Copyright Administration have also promulgated various regulations relating to the protection of software copyrights in China. Under these regulations, computer software that is independently developed and exists in a physical form will be protected, and software copyright owners may license or transfer their software copyrights to others. Registration of software copyrights and exclusive licensing and transfer contracts with the Copyright Protection Center of China (previously, the State Copyright Administration) or its local branches are encouraged. Such registration is not mandatory under Chinese law, but can enhance the protections available to the registering parties. For example, the registration certificate serves an evidentiary function enabling the registering parties to prove they have protectable rights. We have registered 132 software copyrights with the Copyright Protection Center of China.

China's Ministry of Industry and Information Technology (and its predecessors), or MIIT, has promulgated regulations to regulate the production, sale, import or export of software products in China. Under these regulations, all domestically produced software products to be operated or sold in China must be duly registered and filed with the provincial branches of MIIT. We have complied with the registration and filing requirements necessary to sell our software products in China. These registrations generally remain in effect for five years and are subject to renewal.

Regulation of Vocational Education

Chinese laws and regulations impose restrictions on foreign investment in educational institutions in China. However, Chinese laws and regulations do not impose restrictions on foreign investment in companies providing course and test content or related products and services to educational institutions. In addition, the Chinese government has issued a series of circulars and regulations promoting the development of vocational education, including "The Decision to Enhance the Promotion of the Reform and Development of Vocational Education" and "The Decision to Enhance the Development of Vocational Education" published by the State Council on September 24, 2002 and October 28, 2005, respectively. These circulars and regulations require all levels of governments in China to intensify their support for vocational education and to gradually increase the financial resources that local and provincial governments allocate to vocational education.

[Table of Contents](#)

Restrictions on Telecommunications Industry

The telecommunications industry, including computer information and internet access services, is highly regulated by the Chinese government. Regulations issued or implemented by the State Council, MIIT and other relevant government authorities cover virtually every aspect of telecommunications network operations, including entry into the telecommunications industry, the scope of permissible business activities, interconnection and transmission line arrangements, tariff policy and foreign investment.

Since March 1998, the National People's Congress of the PRC has directed MIIT to assume responsibility for, among other things:

- formulating and enforcing telecommunications industry policy, standards and regulations;
- granting licenses to provide telecommunications and Internet services;
- formulating tariff and service charge policies for telecommunications and Internet services;
- supervising the operations of telecommunications and Internet service providers; and
- maintaining fair and orderly market competition among operators.

In addition to the regulations promulgated by the Chinese central government, some local governments have also promulgated local rules applicable to Internet companies operating within their respective jurisdictions.

Foreign Ownership Restrictions on Internet Content Provision Businesses

In September 2000, the State Council promulgated the Telecommunications Regulations. The Telecommunications Regulations categorize all telecommunications businesses in China as either infrastructure telecommunications businesses or value-added telecommunications businesses. In February 2003, MIIT amended the original classification of telecommunications business with Internet content provision services being classified as value-added telecommunications businesses. The Telecommunications Regulations also set forth extensive guidelines with respect to different aspects of telecommunications operations in China.

In December 2001, in order to comply with China's commitments with respect to its entry into the World Trade Organization, the State Council promulgated the Administrative Rules on Foreign-Invested Telecommunications Enterprises, which was amended in September 2008. The Administrative Rules on Foreign-Invested Telecommunications Enterprises set forth detailed requirements with respect to capitalization, investor qualifications and application procedures in connection with the establishment of a foreign invested

telecommunications enterprise. Pursuant to the Administrative Rules on Foreign-Invested Telecommunications Enterprises, the ultimate capital contribution ratio of the foreign investor or investors in a foreign-funded telecommunications enterprise that provides value-added telecommunications services shall not exceed 50%. In addition, pursuant to the Foreign Investment Industrial Guidance Catalogue, the permitted foreign investment ratio of value-added telecommunications services is no more than 50%.

However, for a foreign investor to acquire any equity interest in a value-added telecommunication business in China, it must satisfy a number of stringent performance and operational experience requirements, including demonstrating a track record and experience in operating value-added telecommunication business overseas. Moreover, foreign investors that meet these requirements must obtain approvals from MIIT and the Ministry of Commerce or their authorized local counterparts, which retain considerable discretion in granting approvals.

On July 26, 2006, MIIT publicly released the Notice on Strengthening the Administration of Foreign Investment in Operating Value-added Telecom Business, dated July 13, 2006, or the MIIT Notice, which reiterates certain provisions under the 2002 Administrative Rules on Foreign-Invested Telecommunications Enterprises. According to the MIIT Notice, if any foreign investor intends to invest in a Chinese telecommunications business, a foreign-invested telecommunications enterprise shall be established and such enterprise shall apply for the relevant telecommunications business licenses. Under the MIIT Notice, domestic telecommunications enterprises are prohibited from renting, transferring or selling a telecommunications license to foreign investors in any form.

As a result of current Chinese laws and regulations that impose substantial restrictions on foreign investment in the Internet businesses in China, we conduct our online test preparation business in China through a series of contractual arrangements entered into among us, ATA Learning, and our newly formed affiliated PRC entity, ATA Online (Beijing) Education Technology Limited, or ATA Online, which is a domestic Chinese company incorporated in the PRC and owned by Kevin Xiaofeng Ma, our chairman and chief executive officer, and Walter Lin Wang, our director, both of whom are PRC citizens. See Item 4.C. "Organizational Structure." ATA Online has obtained the licenses and approvals that are required to operate the online test preparation business.

[Table of Contents](#)

Our contractual arrangements with ATA Online include a technical support agreement and a strategic consulting service agreement. In addition, ATA Learning has entered into an equity pledge agreement with each of the shareholders of ATA Online pursuant to which each of the shareholders has pledged all of his or her interest in ATA Online to ATA Learning as security for the performance of ATA Online's obligations under the technical support agreement and the strategic consulting service agreement. Under PRC law, a pledge of equity interest can only be valid after such pledge is registered with the relevant local branch of the State Administration of Industry and Commerce. Only such registration secures our interest in the equity as collateral. The equity pledges under the equity pledge agreement were registered with the relevant local authority, Haidian Branch of Beijing Administration for Industry and Commerce, on April 25, 2012. Pursuant to a call option and cooperation agreement with ATA Online and its shareholders, ATA BVI or any third party designated by ATA BVI has the right to acquire, in whole or in part, the respective equity interests in ATA Online of its shareholders or ATA Online's assets when permitted by applicable PRC laws and regulations. Our contractual arrangements also include powers of attorney with each of the shareholders of ATA Online, pursuant to which they each have assigned their rights as ATA Online's shareholders, including but not limited to voting rights and rights to appoint directors and executive management of ATA Online, to ATA Learning. However, we do not have any direct ownership interests or direct voting rights in ATA Online.

In the opinion of Jincheng Tongda & Neal Law Firm, our PRC legal counsel:

- the ownership structures of ATA Online and our wholly owned subsidiaries in China are in compliance with existing published Chinese laws and regulations;
- our contractual arrangements among our wholly owned subsidiaries in China and ATA Online and its shareholders, are valid and binding, will not result in any material violation of published Chinese laws or regulations currently in effect, and are enforceable in accordance with their terms and conditions; and
- the business operations of our company, all of our Chinese subsidiaries and ATA Online, as described in this annual report, are in compliance with existing published Chinese laws and regulations in all material aspects.

However, there are substantial uncertainties regarding the interpretation and application of current or future Chinese laws and regulations, including the laws and regulations governing the enforcement and performance of our contractual arrangements in the event of imposition of statutory liens, bankruptcy and criminal proceedings. Accordingly, we cannot assure you that the Chinese regulatory authorities will not ultimately take a contrary view. If the Chinese government finds that the agreements that establish the structure of our operations in China do not comply with Chinese government restrictions on foreign investment in our industry, we could be subject to severe penalties.

Internet Content Provider Licensure Requirements

The provision of online test preparation services and content on Internet web sites is subject to Chinese laws and regulations relating to the telecommunications industry and the Internet, and regulated by various government authorities, including MIIT and the State Administration of Industry and Commerce, or SAIC. The principal regulations governing the telecommunications industry and the Internet include:

- The Telecommunications Regulations (2000);

- The Administrative Measures for Telecommunications Business Operating Licenses (2001); and
- The Internet Information Services Administrative Measures (2000).

Under these regulations, Internet content provision services are classified as value-added telecommunications businesses, and a commercial operator must obtain a Telecommunications and Information Services Operating License, or ICP license, from the appropriate telecommunications authority in order to carry out commercial Internet content provision operations in China. In addition, the regulations also provide that operators involved in Internet content provision that operate in sensitive and strategic sectors, including news, publishing, education, health care, medicine and medical devices, must obtain additional approvals from the relevant authorities in charge of those sectors.

[Table of Contents](#)

Certain local governments have promulgated local rules applicable to Internet companies operating within their respective jurisdictions. In Beijing, the Beijing Administration of Industry and Commerce has promulgated a number of Internet-related rules. On October 31, 2004, a rule was enacted requiring owners of commercial web sites located within Beijing to file their commercial web sites with the Beijing Administration of Industry and Commerce.

ATA Online holds an ICP license issued by the Beijing Telecommunications Administration Bureau, a local branch of the MIIT, which allows ATA Online to provide Internet content distribution services. This license is essential to the operation of ATA Online's online test preparation services business.

The MIIT Notice requires that a value-added telecommunications business operator (or its shareholders) should own any domain names and trademarks used by it to engage in the value-added telecommunications business, and have premises and facilities appropriate for such business. To comply with the MIIT Notice, we have transferred to ATA Online the domain names owned by our subsidiaries that are used principally in connection with our online business activities.

Regulation of Internet Content

The Chinese government has promulgated measures relating to Internet content through a number of ministries and agencies, including the MIIT, the Ministry of Culture and the State Press and Publications Administration. These measures specifically prohibit Internet activities that result in the publication of any content that is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of China, or compromise State security or secrets. If an ICP license holder violates these measures, the Chinese government may revoke its ICP license and shut down its web sites.

On December 29, 2011, the MIIT promulgated Certain Rules on Regulating the Order of the Internet Information Service Market ("Internet Market Order Rules"), which became effective on March 15, 2012. The Internet Market Order Rules aim to regulate the order of the Internet information service market, protect the legitimate rights and interests of Internet information service providers and users, and promote the healthy development of the Internet industry. Pursuant to the Internet Market Order Rules, an Internet information service provider shall offer services under the principles of equality, voluntariness, fairness and integrity, and shall not commit acts infringing the legitimate rights and interests of other service providers such as maliciously interfering in services offered by other Internet information service providers at user terminals, or maliciously interfering in the downloading, installation, operation and upgrading of software and other products related to Internet information services, or refusing, postponing or ceasing to provide users with Internet information services or products without any proper reason. An Internet information service provider may be subject to administrative penalties, including warnings and fines and other legal liabilities, for violations of the Internet Market Order Rules. On December 28, 2012, the Standing Committee of Congress of the PRC issued the Decision on Strengthen Internet Information Protection, reiterating that an Internet information service provider shall explicitly specify the purpose, method, and scope of collecting user's individual information and shall obtain user's consent prior to such collection. An Internet service provider is also prohibited from sending unsolicited commercial information to users. Non-compliance of these provisions may result in civil, administrative or criminal penalties.

Regulation of Online and Distance Education

Pursuant to the Administrative Regulations on Educational Web sites and Online and Distance Education Schools issued by the Ministry of Education in 2000, educational web sites and online education schools may provide education services in relation to higher education, elementary education, pre-school education, teaching education, occupational education, adult education, other education and public educational information services. "Educational web sites" refers to organizations providing education or education-related information services to web site visitors by means of a database or online education platform connected via the Internet or an educational television station through an Internet service provider, or ISP. "Online education schools" refer to education web sites providing academic education services or training services with the issuance of various certificates.

Setting up educational web sites and online education schools is subject to approval from relevant education authorities, depending on the specific types of education provided. Any educational web site and online education school shall, upon receipt of approval, indicate on its web site such approval information as well as the approval date and file number.

According to the Administrative License Law promulgated by the National People's Congress on August 27, 2003 and effective as of July 1, 2004, only laws promulgated by the National People's Congress and regulations and decisions promulgated by the State Council may set down administrative license requirements. On June 29, 2004, the State Council promulgated the Decision on Setting Down Administrative Licenses for the Administrative Examination and Approval Items Really Necessary to be Retained, in which the administrative license for "online education schools" was retained, while the administrative license for "educational web sites" was not retained. ATA Online is not required to obtain a license as an online education school because ATA Online does not intend to offer through its web site academic education services or training services that result in the issuance of a degree or other certification.

Regulation of Broadcasting Audio-Visual Programs through the Internet or Other Information Network

The State Administration of Radio, Film and Television, or SARFT, promulgated the Rules for Administration of Broadcasting of Audio-Visual Programs through the Internet and Other Information Networks, or the Broadcasting Rules, in 2004, which became effective on October 11, 2004. The Broadcasting Rules apply to the activities of broadcasting, integrating, transmitting and downloading of audio-visual programs with computers, televisions or mobile phones as the main terminals and through various types of information networks. Pursuant to the Broadcasting Rules, a Permit for Broadcasting Audio-Visual Programs via Information Network is required to engage in these Internet broadcasting activities. On April 13, 2005, the State Council announced a policy on private investments in businesses in China relating to cultural matters that prohibits private investments in businesses relating to the dissemination of audio-visual programs through information networks. On December 20, 2007, SARFT and MIIT jointly promulgated the Administrative Provisions on Internet Audio-Visual Program Service, or the Audio-Visual Service Provisions, which became effective on January 31, 2008. Pursuant to the Audio-Visual Service Provisions, a Permit for Disseminating Audio-Visual Programs via Information Network issued by the competent radio, film and television authority, or completion of the relevant filing formalities with such authority, is required to engage in the Internet audio-visual program service. One of the criteria that any entity applying to engage in the Internet audio-visual program service must meet is that such entity should be a wholly state-owned entity or state-controlled entity, which should have the legal status of legal person, and there is no record indicating that such entity has violated laws or regulations within three years prior to its application. According to the clarification by SARFT and MIIT in their Answers to Questions of Press regarding the Administrative Provisions on Internet Audio-Visual Program Service, entities that have been incorporated to engage in the Internet audio-visual program service in compliance with the applicable laws or regulations prior to the promulgation of the Audio-Visual Service Provisions and have no record of violating laws or regulations can re-register and continue their businesses. As these regulations are relatively new, there are significant uncertainties relating to their interpretation and implementation, including the definition of "audio-visual programs" as specified in these regulations. We cannot assure you that ATA Online will be able to obtain a Permit for Broadcasting Audio-Visual Programs via Information Network if it is determined that one is required to operate the online test preparation business.

Regulation of Information Security

Internet content in China is also regulated and restricted by the PRC government to protect State security. The National People's Congress, China's national legislative body, has enacted a law that may subject to criminal punishment in China any effort to: (1) gain improper entry into a computer or system of strategic importance; (2) disseminate politically disruptive information; (3) leak State secrets; (4) spread false commercial information; or (5) infringe intellectual property rights.

The Ministry of Public Security has promulgated measures that prohibit use of the Internet in ways that, among other things, result in a leakage of State secrets or a spread of socially destabilizing content. The Ministry of Public Security has supervision and inspection rights in this regard, and we may be subject to the jurisdiction of the local security bureaus. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its web sites.

Regulation of Domain Names and Web Site Names

PRC law requires owners of Internet domain names to register their domain names with qualified domain name registration agencies approved by MIIT and obtain a registration certificate from such registration agencies. A registered domain name owner has an exclusive use right over its domain name. Unregistered domain names may not receive proper legal protections and may be misappropriated by unauthorized third parties. As of March 31, 2013, we have registered 207 domain names relating to our web sites, including www.ata.net.cn, the primary URL for our web site, with the Internet Corporation for Assigned Names and Numbers and the China Internet Network Information Center, a domain name registration service provider in China.

[Table of Contents](#)

PRC law requires entities operating commercial web sites to register their web site names with SAIC or its local offices and obtain a commercial web site name registration certificate. If any entity operates a commercial web site without obtaining such certificate, it may be charged a fine or suffer other penalties by the SAIC or its local offices. Our web sites used in connection with our testing and education services are considered non-commercial web sites as we do not provide products and services through those web sites, and therefore the names of those web sites are not required to be registered with SAIC. ATA Online has registered the web site name used in connection with the online test preparation business with Beijing municipal SAIC.

Regulation of Privacy Protection

PRC law does not prohibit Internet content providers from collecting and analyzing personal information from their users. PRC law prohibits Internet content providers from disclosing to third parties any information transmitted by users through their networks unless otherwise permitted by law. If an Internet content provider violates these regulations, MIIT or its local offices may impose penalties and the Internet content provider may be liable for damages caused to its users.

Regulation of Foreign Exchange

China's government imposes restrictions on the convertibility of the Renminbi and on the collection and use of foreign currency by Chinese entities. Under current regulations, the Renminbi is convertible for current account transactions, which include dividend distributions, interest payments, and the import and export of goods and services. Conversion of Renminbi into foreign currency and foreign currency into Renminbi for capital account transactions, such as direct investment, portfolio investment and loans, however, is still generally subject to the prior approval of the PRC State Administration of Foreign Exchange, or SAFE.

Under current Chinese regulations, foreign-invested enterprises such as our Chinese subsidiaries are required to apply to SAFE for a Foreign Exchange Registration Certificate for Foreign-Invested Enterprise. With such a foreign exchange registration certificate (which is subject to review and renewal by SAFE on an annual basis), a foreign-invested enterprise may open foreign exchange bank accounts at banks authorized to conduct foreign exchange business by SAFE and may buy, sell and remit foreign exchange through such banks, subject to documentation and approval requirements. Foreign-invested enterprises are required to open and maintain separate foreign exchange accounts for capital account transactions and current account transactions. In addition, there are restrictions on the amount of foreign currency that foreign-invested enterprises may retain in such accounts.

Further, SAFE promulgated a circular (known as Circular 142) in August 2008 with respect to the administration of conversion of foreign exchange capital contributions of a foreign invested enterprise. The circular clarifies that Renminbi converted from foreign exchange capital contributions can only be used for the activities within the approved business scope of such foreign invested enterprise and cannot be used for domestic equity investments unless otherwise permitted. In addition, SAFE strengthened its oversight of the flow and use of the registered capital of a foreign-invested enterprise converted from foreign currencies and settled in Renminbi. The use of such Renminbi capital may not be changed without SAFE approval, and it may not in any case be used to repay Renminbi loans if the proceeds of such loans have not been used for purposes within the foreign-invested enterprise's approved business scope. Violations of Circular 142 may result in severe penalties, including substantial fines as set forth in the PRC Foreign Exchange Administrative Regulations.

According to Article 26 of the Regulations on the Foreign Exchange System of the People's Republic of China, if the Company's PRC subsidiaries liquidate, the Renminbi distributable to its foreign shareholders after the liquidation and payment of relevant taxes can be freely converted into foreign currency and remitted abroad. Therefore, there are no legal impediments to remitting the proceeds from a liquidation of our PRC subsidiaries outside of China to investors who are not PRC nationals.

Regulation of Foreign Exchange in Certain Onshore and Offshore Transactions

In October 2005, SAFE issued the Notice on Issues Relating to the Administration of Foreign Exchange in Fund-Raising and Return Investment Activities of Domestic Residents Conducted via Offshore Special Purpose Companies, or Notice 75, which became effective as of November 1, 2005. Notice 75 states that Chinese residents must register with the relevant local SAFE branch in connection with their establishment or control of an offshore entity established for the purpose of overseas equity financing involving a round-trip investment whereby the offshore entity acquires or controls onshore assets or equity interests held by the Chinese residents. Notice 75 applies to our shareholders who are Chinese residents and also applies to our offshore acquisitions.

[Table of Contents](#)

To further clarify and simplify the implementation of Notice 75, SAFE has issued various rules, including Circular 19, which was issued on May 20, 2011 and took effect on July 1, 2011. Circular 19 established more specific and stringent supervision on the registration process required by Notice 75. For example, Circular 19 imposes obligations on onshore subsidiaries of an offshore entity to make true and accurate statements to the local SAFE authorities concerning any shareholder or beneficial owner of the offshore entity who is a PRC citizen or resident. Untrue statements by the onshore subsidiaries may lead to potential liability for the subsidiaries. Under these foreign exchange regulations, PRC residents who make, or have previously made direct or indirect, investments in special purpose vehicles or SPVs prior to the implementation of these foreign exchange regulations will be required to register those investments. In addition, any PRC resident who is a direct or indirect shareholder of an SPV is required to update the previously filed registration with the local branch of SAFE, with respect to that SPV, to reflect any material change not involving its round-trip investment, capital variation, such as an increase or decrease in capital, a transfer or swap of shares, a merger, division, long-term equity or debt investment or creation of any security interest. Moreover, the PRC subsidiaries of that SPV are required to urge the PRC resident shareholders to update their registration with the local branch of SAFE when such updates are required under applicable foreign exchange regulations. If any PRC shareholder fails to make the required registration or update the previously filed registration, the PRC subsidiaries of that SPV may be prohibited from distributing their profits and the proceeds from any reduction in capital, share transfer or liquidation to their SPV parent and the SPV may also be prohibited from injecting additional capital into its PRC subsidiaries. Moreover, failure to comply with the various foreign exchange registration requirements described above could result in liability under PRC laws for evasion of applicable foreign exchange restrictions, even though here is no explicit deadline for such registration.

Two of our significant shareholders, Kevin Xiaofeng Ma and Walter Lin Wang, have completed their registrations with SAFE, and we have urged our other Chinese resident shareholders to register under Notice 75 and they are preparing for such application. However, we cannot assure you that the application will be accepted by SAFE.

Failure by such shareholders to comply with Notice 75 could subject us to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our subsidiaries' ability to make distributions or pay dividends or affect our ownership structure, which could adversely affect our business and prospects.

Regulation of Overseas Listings

On August 8, 2006, six PRC regulatory agencies, including the Chinese Securities Regulatory Commission, or CSRC, promulgated the Provisions Regarding Mergers and Acquisitions of Domestic Enterprise by Foreign Investors, or the M&A Rule, which became effective on September 8, 2006 without retroactive effect. The M&A Rule, among other things, requires that an offshore company controlled by PRC companies or individuals that has acquired a PRC domestic company for the purpose of listing the PRC domestic company's equity interest on an overseas stock exchange must obtain the approval of the CSRC prior to the listing and trading of such offshore company's securities on an overseas stock exchange. On September 21, 2006, the CSRC, pursuant to the M&A Rule, published on its official web site procedures specifying documents and materials required to be submitted to it by offshore companies seeking CSRC approval of their overseas listings.

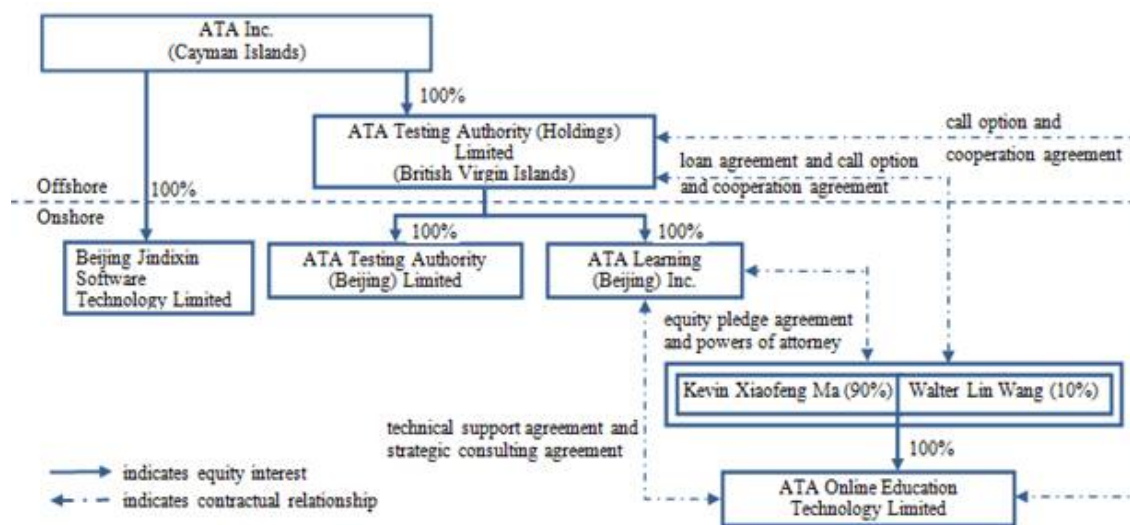

We believe CSRC approval was not required for our initial public offering in February 2008 because the CSRC approval required under the M&A Rule only applies to an offshore company that has acquired a domestic PRC company for the purpose of listing the domestic PRC company's equity interest on an overseas stock exchange, while (i) we obtained our equity interest in each of our PRC subsidiaries by means of direct investment other than by acquisition of the equity or assets of a PRC domestic company and (ii) our contractual arrangements with ATA Online do not constitute the acquisition of ATA Online. See Item 3.D. "Key Information — Risk Factors — Risks Relating to Regulation of Our Business — If the China Securities Regulatory Commission, or CSRC, or another PRC regulatory agency determines that CSRC approval was required in connection with our initial public offering, we may become subject to penalties."

C. Organizational Structure

Corporate Structure and Arrangements with Our Affiliated PRC Entity

The following diagram illustrates our corporate structure. Except for ATA BVI, which is incorporated in the British Virgin Islands, all of our subsidiaries and our affiliated PRC entity are incorporated in the PRC. For a detailed description of the Company's significant subsidiaries, see Item 4.A "History and Development of the Company."

[Table of Contents](#)

To comply with PRC laws and regulations restricting foreign ownership in distributors of Internet content, our online test preparation business in China is conducted through a series of contractual arrangements entered into among ATA BVI, ATA Learning and ATA Online (Beijing) Education Technology Limited, or ATA Online, a PRC entity incorporated in the PRC and owned by Kevin Xiaofeng Ma, our co-founder, chairman and chief executive officer and Walter Lin Wang, our co-founder and director, in the percentages described in the diagram above. ATA Online holds the license required to operate the online portion of our test preparation and training solutions business. We do not have any direct ownership interest or direct shareholding rights in ATA Online. For a detailed description of these contractual arrangements, see Item 7.B. "Major Shareholders and Related Party Transactions — Related Party Transactions." As a result of these contractual arrangements, under U.S. GAAP, we are considered the primary beneficiary of ATA Online. Accordingly, we consolidate ATA Online's results in our consolidated financial statements.

Our subsidiaries or ATA Online enter into commercial contracts with third party customers and clients based upon a judgment we make as to which entity is the appropriate entity for the provision of the type of service being offered. We primarily sell our testing services and the non-online portion of our test preparation and training solutions business through ATA Testing, our education services through ATA Learning and our online test preparation services through ATA Online.

For risks associated with our contractual arrangements with ATA Online and its shareholders, see Item 3.D. "Key Information — Risk Factors — Risks Relating to Regulation of Our Business — Substantial uncertainties and restrictions exist with respect to the application and implementation of Chinese laws and regulations relating to Internet content distribution. If the Chinese government finds that the structure for our online test preparation services and other services we provide through the Internet do not comply with Chinese laws and regulations, we could be subject to penalties and may not be able to continue those businesses." and "— Our contractual arrangements with ATA Online and its shareholders do not provide us with ownership interest in ATA Online. If ATA Online or its shareholders fail to

perform their respective obligations under these contractual arrangements, we may have to legally enforce such arrangements and our business, financial condition and results of operations may be materially and adversely affected if these arrangements cannot be enforced.”

D. Property, Plant and Equipment

Our principal executive offices are located in approximately 3,232 square meters of office space used by us at Tower E, 6 Gongyuan West Street, Jian Guo Men Nei, Beijing 100005, China, among which 2,170 square meters of office space are owned by us and 1,062 square meters of office space are leased by us. We also occupy approximately 3,101 square meters of total leased office space in our subsidiaries and branches located in Shanghai, Chengdu and Guangdong. We believe that our existing facilities are adequate for our current requirements and that additional space can be obtained on commercially reasonable terms to meet our future requirements.

ITEM 4A. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

A. Operating Results

Overview

Our Business

We believe that we are the leading provider of computer-based testing services in China, based on test delivery capacity and geographic coverage. We offer comprehensive services for the creation and delivery of computer-based tests utilizing our nation-wide test delivery platform, proprietary testing technologies and extensive experience providing testing services in China. Our total net revenues increased from RMB303.9 million in the fiscal year ended March 31, 2011 to RMB352.1 million in the fiscal year ended March 31, 2012 and RMB366.7 million (\$59.0 million) in the fiscal year ended March 31, 2013. We had net income of RMB19.8 million in the fiscal year ended March 31, 2011, RMB55.8 million in the fiscal year ended March 31, 2012 and RMB23.2 million (\$3.7 million) in the fiscal year ended March 31, 2013.

We started our business in 1999 focusing on providing computer-based testing services to test sponsors. Our testing services revenues have grown primarily as a result of increases in the number of testing services clients and the number of test takers who take tests created and delivered using our testing technologies. Revenues from testing services accounted for 80.0%, 82.6% and 91.6% of our total net revenues in the fiscal years ended March 31, 2011, 2012 and 2013, respectively. We expect our testing services revenues to continue to be the largest source of our total net revenues. In March 2009, we launched HR Select, our self-developed online system that utilizes our proprietary software and a large inventory of test titles to assist companies in streamlining and optimizing their employee selection and assessment processes. HR Select offers tools for filtering and categorizing employee candidates, testing candidates and analyzing the test results. Since March 2009, we have been the exclusive agent for delivering the Test of English for International Communication, or TOEIC, in China. Revenues from HR Select and distribution and administration of TOEIC exams are included in testing services revenues. The following graph shows the growth in the number of tests delivered using our testing technologies for the twelve months ended March 31, 2009, 2010, 2011, 2012 and 2013.

⁽¹⁾ Includes Microsoft royalty tests overseas, tests delivered through our test delivery platform and tests using our Dynamic Simulation Technology. Also includes free tests delivered for business development purposes. The number of tests delivered excluding the free

tests in the fiscal years ended March 31, 2009, 2010, 2011, 2012 and 2013 was 5,063,379, 5,760,147, 6,907,158, 8,026,639 and 8,744,859 respectively.

[Table of Contents](#)

We also offer targeted test preparation and training solutions for certain professional licensure and certification tests in the securities industries. ATA Online has launched online test preparation and training Internet web sites in coordination with the SAC to help candidates across China fulfill their continuing educational requirement after passing their professional licensure and certification tests, which are delivered through our test delivery platform. Revenues from our test preparation and training solutions accounted for 5.1%, 7.7% and 3.1% of our total revenue in the fiscal years ended March 31, 2011, 2012 and 2013, respectively.

We operate our business and generate our net revenues primarily through our wholly owned subsidiaries in China, ATA Testing and ATA Learning. Due to PRC laws and regulations restricting foreign ownership in distributors of Internet content, we operate our online businesses, including our test preparation and training business and the online portion of our HR Select employee assessment solution program, and provide our computer-based testing services for the National Security Guard exam and China Customs exam through ATA Online, which we effectively control and enjoy the economic benefits through a series of contractual arrangements entered into among ATA BVI, ATA Learning, ATA Online and ATA Online's shareholders. We do not have any direct ownership interest or direct shareholding rights in ATA Online. ATA Online primarily holds assets related to the delivery of our online test preparation and training services, such as the Internet provider license, accounts receivable, prepaid expenses, and equipment. ATA Online had total assets of RMB28.3 million (\$4.6 million) as of March 31, 2013. ATA Online generated net revenues of RMB25.0 million (\$4.0 million) and a gross loss of RMB0.1 million (\$0.0 million) for the fiscal year ended March 31, 2013. Its total operating expenses were RMB12.5 million (\$2.0 million) for the fiscal year ended March 31, 2013. In addition, ATA Online had approximately RMB13.2 million (\$2.1 million) in net cash used in operating activities, RMB1.1 million (\$0.2 million) in net cash used in investing activities and RMB nil in net cash used in financing activities for the fiscal year ended March 31, 2013.

As a result of these contractual arrangements, under U.S. GAAP, we are considered the primary beneficiary of ATA Online. Accordingly, we consolidate ATA Online's results in our consolidated financial statements. However, these contractual arrangements may not be as effective as direct equity ownership in providing us with control over ATA Online.

We believe, based on the legal opinion obtained from our PRC legal counsel, the above contractual arrangements are legally binding and enforceable and do not violate current PRC laws and regulations. However, there are uncertainties regarding the interpretation and application of existing and future PRC laws and regulations. Accordingly, we cannot be assured that PRC regulatory authorities will not ultimately take a contrary view to its opinion. If our current ownership structure and the contractual arrangements are found to be in violation of any existing or future PRC laws and regulations, the PRC government could:

- revoke our business and operating licenses;
- levy fines on us;
- confiscate any of our income that they deem to be obtained through illegal operations;
- shut down a portion or all of our servers or block a portion or all of our web site;
- discontinue or restrict our operations in the PRC;
- impose conditions or requirements with which we may not be able to comply;
- require us to restructure our corporate and contractual structure; and
- take other regulatory or enforcement actions that could be harmful to our business.

If the imposition of any of these government actions, or any inability to enforce the contractual arrangements in the event ATA Online or its shareholders breached their obligations under the contractual arrangements, causes us to lose the ability to direct the activities of ATA Online or receive substantially all the economic benefits and residual returns from ATA Online and we are not able to restructure our ownership structure and operations in a satisfactory manner, we would no longer be able to consolidate the financial results of ATA Online in our consolidated financial statements. In such a case, our total assets, total liability, equity, net sales, net income and cash flows would be materially less than the reported amount in our consolidated financial statements.

[Table of Contents](#)

Factors Affecting Our Results of Operations

The key factors affecting our results of operations are:

- growth in China's professional services sector resulting in increasing demand for qualified and certified talent in China and in the finance industry in particular;
- overall economic growth and rising income levels in China contributing to increased spending on education, testing and test preparation;
- government and industry initiatives to standardize and license professionals in industries such as securities, futures, banking, law and accounting;
- growth in the use of computer-based tests and performance-based tests and willingness of test sponsors to outsource test content development and delivery for sophisticated computer-based tests as well as online test preparation and training programs;
- the increasing importance of identifying qualified talent contributing to increasing demand for testing and certification programs that can confirm the qualifications of the applicant or job seeker; and
- our ability to continue to introduce new services and the market success of our recently introduced services, including our HR Select service launched in March 2009, distribution and administration of TOEIC exams in China beginning in March 2009, and distribution and administration of computer-based CBYLE exam beginning in March 2013.

Although we anticipate the above factors will continue to increase demand for our products and services in China, a slowing or reversal of any of the above factors could cause our revenue growth to slow or stop, or to not grow as fast as we might expect.

In addition, our results of operations have been, and may continue to be, significantly affected by the following factors:

- share-based compensation;
- the impact of PRC tax policies, including certain preferential tax rates and tax holidays;
- sales and marketing efforts for our newer services, including our HR Select service and TOEIC business; and
- the relative proportion of our net revenues derived from higher-gross margin and lower-gross margin service offerings.

Net Revenues

We derive revenues from sale of computer-based testing services, test preparation and training solutions, and other products and services. Our net revenues are presented net of PRC business taxes. The following table sets forth a breakdown of our total net revenues for the periods.

	For the fiscal year ended March 31,					
	2011		2012		2013	
	RMB	% of net revenues	RMB	% of net revenues	RMB	US\$ % of net revenues
	(in thousands, except or percentages)					
Net Revenues						
Testing services	243,103	80.0%	290,881	82.6%	335,791	54,066 91.6%
Test preparation and training solutions	15,427	5.1%	26,996	7.7%	11,343	1,826 3.1%
Other	45,374	14.9%	34,208	9.7%	19,541	3,146 5.3%
Total net revenues	303,904	100.0%	352,085	100.0%	366,675	59,038 100.0%

[Table of Contents](#)

Testing Services

We derive testing services revenues primarily from fees charged to test sponsors, including governmental agencies and other sponsors of licensure and certification tests, for our test delivery services. We also offer testing services to private enterprises as part of our HR Select employee assessment solution and we are the exclusive distributor and test administrator of TOEIC exams in China.

We offer our clients a comprehensive set of services for the compilation, delivery and analysis of computer-based tests using our E-testing platform, as well as logistical services such as test registration and fee collection. We generate revenues from our test delivery services through fees charged to test sponsors based on the total number of test takers taking a requested test. Our clients typically pay us within two to six months after delivery of the test. We recognize revenue for test delivery services upon completion of the relevant test.

We have experienced seasonality and expect in the future to continue to experience seasonality in net revenues and accounts receivable related to our test delivery services, with the quarters ending June 30 and December 31 typically having higher net revenues from testing services and the quarters ending September 30 and March 31 typically having lower net revenues from testing services. This is primarily because the tests from which we derive substantial revenues are mostly delivered in the quarters ending June 30 and December 31.

Significant Factors Affecting Testing Services

The most significant factor directly affecting our revenues from fees charged for our testing services are the number of test takers. The number of test takers for a test is driven by our ability to secure contracts with test sponsors for the creation and delivery of computer-based test titles popular with test takers. The volume of tests we offer is determined by the willingness of test sponsors to use our services. Growth in the number of enterprises adopting our HR Select service and the prevalence of the TOEIC exam in China also impact our testing services revenues. Our revenues from fees charged for our testing services are also affected by the price we can charge per test, which generally remains fairly stable once we are engaged by a test sponsor to help deliver a particular test.

Demand and pricing for a test is affected by whether a certain profession, career or job position for which the certification, licensure or qualification test is being given is considered desirable by potential test takers. Some industries may experience fluctuations in the number of people attempting to become qualified to participate in the industry, which will depend on the overall health of the relevant industry, changes in average salary levels in the relevant industry, the popularity of certain types of careers and employers, governmental policies that impact the relevant industry, or other factors. For example, we believe our net revenues from tests delivered for the SAC have been negatively affected by the downturn in the PRC stock market in recent years, which has reduced demand for qualified securities professionals.

In addition, obtaining contracts from test sponsors for new test titles and for upgrade of existing test titles often requires considerable time and resources. Many of our clients administer tests to a large number of people on a regular basis, and maintaining consistency and stability from year to year in the test delivery format is important to them. The decision process involved in adopting a new type of test or a new test delivery format can be difficult and complex. These factors often result in significant delays in our ability to secure contracts, and make it difficult to predict our revenues from fees from test sponsors in any given year. On the other hand, for test sponsors that administer many tests on a regular basis, our ability to secure an initial contract and to effectively meet their test delivery requirements under the contract can help us obtain future test title contracts from that test sponsor. This enables us to increase and diversify our revenues and to hinder competitors from obtaining contracts with that test sponsor.

Test Preparation and Training Solutions

We derive test preparation and training solutions revenues from the provision of online test preparation and training services.

ATA Online provides online test preparation and training for professional licensure and certification tests delivered through our testing platform for the SAC and China Futures Association. Revenues from online test preparation and training services are generated by selling online training to end users directly or through distributors on a consignment basis. The online training entitles the end users access to online test preparation and training services during a specified service period, which normally ranges between 90 to 180 days from the activation. Revenue of online membership is recognized on a straight-line basis ratably over the service period commencing at the point of time the online training is activated. If the online training sold to the end users are not activated before the expiration date, related online service revenue is recognized on the expiration date. In November 2011, we entered into a new contract with SAC to deliver online training platform development and maintenance service. Fees from online training platform development and maintenance service are recognized, when collectability is reasonably assured, on a straight-line basis over the contractual period.

[Table of Contents](#)

Significant Factors Affecting Test Preparation and Training Solutions

A number of factors affect our revenues from test preparation and training solutions. Demand for test preparation and training solutions for a particular test depends on the relative level of importance or difficulty of the test, with greater demand for test preparation and training solutions for more important and more difficult tests. Therefore, our ability to secure test delivery services contracts for more important and more difficult tests may affect our test preparation and training solutions business. As we generally offer test preparation and training solutions for tests that are delivered through our test delivery platform, our ability to grow our test preparation and training solutions business is also affected by the willingness of our test sponsor clients to permit us to provide test preparation and training solutions for their tests. Some test sponsor clients may not permit us to provide test preparation and training solutions in relation to tests for which we provide test delivery and other services due to a perceived conflict of interest. In addition, because we generally do not develop the learning content used in our test preparation and training solutions, our ability to license test preparation learning content and materials from the relevant test sponsor or third party content provider is critical to the expansion of the number of tests for which we offer test preparation and training solutions.

Since December 2011, the SAC has been in the process of assessing the feasibility to run its online training program internally rather than outsourcing its operation to us. In place of our previous contract under which we operated the online training program on behalf of the SAC, we entered into a contract through March 2013 under which we provided technical and services support during the assessment period. We received RMB7.7 million (\$1.3 million) in revenues from test preparation services to the SAC in the fiscal year ended March 31, 2013 compared to RMB21.1 million in the fiscal year ended March 31, 2012. We are currently providing data transfer services to the SAC, upon the completion of which we will earn revenue of RMB1.0 million. We do not expect any further revenue from providing test preparation services to the SAC subsequent to our completion of these data transfer services.

Other Revenues

We derive other revenues from test-based educational services, test content creation services, issuance of certificates delivered to passing candidates, licensing fees paid to us by operators of our ATA authorized test centers, and other fees and services.

Test-based educational services. Our career-oriented educational services include single course programs, degree major course programs and pre-occupational training programs focusing on preparing students to pass IT and other vocational certification tests. These course programs package the testing and certification component of our testing services with licensed content and incorporate our advanced performance-based testing technologies to encourage hands-on real-world interactive learning experiences. We receive fees for these programs from educational institutions and generally charge a pre-agreed fee per student over the service period. For our single course programs, we recognize revenue on a straight-line basis over the service period or the contractual period, whichever is longer. For our degree major course programs, revenues from the final year of the degree major course program are recognized over a ten-month period (generally September through June) while revenues from the first through the next-to-last years of the program are recognized over a 12-month period (generally September through August). We recognize revenue from licensing our pre-occupational training programs over the service delivery period on a straight-line basis.

Test content creation services. Our test content creation services include the installation of our technology on client testing platforms, the conversion of paper-based test items into computer-based tests items, and other related services. We generate revenues from our test content creation services through service fees charged to governmental agencies, such as China Customs, IT vendors and other sponsors of licensure, certification and qualification tests. We recognize revenue from our test content creation services upon the acceptance of the services by the client.

Certificate delivery. Many of our testing services clients, including well-known test sponsors, charge passing candidates a separate fee to receive a certificate for a test passed. We deliver these certificates to these candidates upon request. We charge a per-certificate price for the certificates and recognize revenue from certificate issuances upon delivery of the certificate.

Licensing fees from ATA authorized test centers. We have established our nationwide network of ATA authorized test centers by contracting with qualified independent operators that act as ATA authorized test centers for us. Under our contracts with test center operators, we license our ATA name and ATA E-testing platform technology and provide ongoing technical support, upgrades and training during the contract period in exchange for license fees. We receive license fees from our test center operators in the form of either a single initial license fee or a combination of initial license fee and annual continuing license fees.

[Table of Contents](#)

Test administration software products. We offer our test administration software products to our clients. We deliver these software products, which are developed by us with all underlying intellectual property owned by us, to clients upon requests. We charge a per-software copy price for the software and recognize revenue upon delivery of the software.

Other fees and services. From time to time and as requested by our clients, we may provide teacher training services, IT consulting and system integration services, commission charges and other testing-related services to our clients. We recognize revenue upon completion of the services, which usually occurs within a short period of time. We may also receive payments for additional copies of training materials and test peripherals, for which we recognize revenue upon receiving cash.

Cost of Revenues

Our cost of revenues consists primarily of test monitoring costs, payroll compensation, royalty fees, cost of inventories sold, technical support and other related costs, all of which are directly attributable to the provision of our testing services, test preparation and training solutions and our other services. The following table shows our cost of revenues and gross profit for the periods indicated:

	For the fiscal year ended March 31,						
	2011		2012		2013		
	RMB	%	RMB	%	RMB US\$	%	
	(in thousands, except for percentages)						
Net Revenues	303,904	100.0%	352,085	100.0%	366,675	59,038	100.0%
Cost of Revenues	149,216	49.1%	158,818	45.1%	188,832	30,404	51.5%
Gross Profit	154,688	50.9%	193,267	54.9%	177,843	28,634	48.5%

Test Monitoring Costs

Test monitoring costs consist of fees paid to test centers, including a fixed fee per test taker, which varies for different tests, for hire of test proctors, rental of testing facilities and a fee for the peripheral items used for the provision of our testing services, such as USB flash drives used for security control keys, computer cameras used during testing for communication and identification, compact discs used to store and deliver our testing software, and signage used to identify and brand our ATA authorized test centers.

Payroll Compensation

Payroll compensation consists of base salary and related welfare benefits paid to staff in our services implementation and customer support departments.

Royalty Fees

Royalty fees primarily consist of fees paid to IT vendors for the use of their proprietary content in our course programs and our computer-based tests, fees paid to ETS for the rights to be the exclusive country master distributor in mainland China for TOEIC, and license

fees paid to Saville Consulting for its psychometric assessment tests used in our HR Select service.

For fees paid to IT vendors, we pay substantially all of these royalty fees under an enrollment model, whereby royalty fees are determined based on the number of students who enroll in the course.

Cost of Inventory

Cost of inventory is comprised of cost of the printed learning material and test paper that are pre-printed by third parties and that we record as inventory and the cost of inventory write-down due to obsolescence. In the case of learning material, when a school contracts with us for degree major and single course programs, we deliver the related compact discs and textbooks and other course materials prior to the start of the course programs. These learning materials will be recognized as costs upon delivery. In the case of test paper, cost is recognized when the test papers are used in delivering the paper-based exam. Cost of inventory is recognized on a first-in-first-out basis.

Table of Contents

Factors Affecting Gross Margin

Our gross margin is primarily affected by changes in gross margins from our testing services, which in turn are significantly affected by our revenue per test and test related costs, including the fees we pay for test monitoring to test centers.

Operating Expenses

Our operating expenses consist of general and administrative expenses, sales and marketing expenses, research and development expenses, and provision for doubtful accounts.

General and Administrative Expenses

Our general and administrative expenses consist primarily of salaries and benefits, travel, administration and share-based compensation expenses for our administrative, management and finance personnel, as well as other expenses including professional fees, office expenses and rental costs.

Sales and Marketing Expenses

Our sales and marketing expenses consist primarily of salaries and benefits, travel, and share-based compensation expenses for our sales and marketing personnel, as well as other expenses including sales agency fees, conference hosting expenses, advertising and promotional expenses, entertainment expenses and other sales and marketing expenses.

Research and Development Expenses

Our research and development expenses consist primarily of costs of equipment used in our research and development activities, salaries and benefits for our research and development personnel, cost of outsourcing services and other costs relating to the design, development, testing and enhancement of our products and services.

Provision for Doubtful Accounts

The provision for doubtful accounts represents our best estimate of the amount of probable credit losses resulting from our customers or non-customer business partners' inability to make required payments. We consider age of doubtful receivable, historical collection experience, and business partners' individual facts.

Taxation

Cayman Islands & British Virgin Islands

Under the current laws of the Cayman Islands and the British Virgin Islands, the Company, and ATA BVI are not subject to income tax. In addition, upon any payments of dividends by the Company or ATA BVI, no Cayman Islands or British Virgin Islands withholding tax is imposed.

People's Republic of China

Our subsidiaries and our variable interest entity, or VIE, operating in the PRC are subject to PRC taxes as described below:

Enterprise income tax. Effective from January 1, 2008, the New EIT Law imposes a tax rate of 25% on all enterprises, including foreign-invested enterprises, and terminates many of the tax exemptions, reductions and preferential treatments available under previous tax laws and regulations. Under the New EIT Law, qualified "high-and-new technology enterprises eligible for key support from the State" ("HNTE") are entitled to a preferential tax rate of 15% and subject to an annual review during the valid period of their HNTE certificates. In December 2008, ATA Testing was recognized as a HNTE and obtained a HNTE certificate, which entitled ATA Testing to a preferential tax rate of 15% for calendar years from 2008 to 2010. ATA Testing successfully renewed its HNTE certificate for another three years starting from 2011, and therefore it is entitled to a preferential tax rate of 15% retroactively from January 1, 2011 to December 31, 2013. In

December 2009, each of ATA Learning, ATA Online and Beijing JDX received approval from the tax authority that it qualified as an HNTE for three years, entitling them to a preferential income tax rate of 15% for calendar years 2009 to 2011. In July, May and July of 2012, ATA Learning, ATA Online and Beijing JDX successfully renewed their HNTE certificates, respectively, for another three years from 2012 and therefore are entitled to a preferential tax rate of 15% for calendar years 2012 to 2014. In the event ATA Testing, ATA Learning, ATA Online and Beijing JDX are unable to renew their HNTE certificates, they will be subject to the standard statutory enterprise income tax rate of 25%. See “Item 3. Key Information—D. Risk Factors—Risks Relating to Regulation of Our Business—The discontinuation of any of the preferential tax treatments currently enjoyed by our subsidiaries in the PRC could materially increase our tax obligations.”

[Table of Contents](#)

In addition, under the New EIT Law, an enterprise established under the laws of a foreign country or region whose “de facto management body” is located within the PRC territory is considered a resident enterprise and will generally be subject to the enterprise income tax at the rate of 25% on its global income. According to the Implementation Rules to the New EIT Law, “de facto management body” refers to a managing body that exercises, in substance, overall management and control over the production and business, personnel, accounting and assets of an enterprise. We have preliminarily determined that our overseas entities are not PRC resident enterprises for PRC income tax purposes. However, if we and our overseas entity were considered PRC resident enterprises, we would be subject to the enterprise income tax at the rate of 25% on our global income. See “Item 3. Key Information—D. Risk Factors—Risks Relating to Regulation of Our Business—Under the New EIT Law, we may be classified as a “resident enterprise” of China. Such classification will likely result in unfavorable tax consequences to us and U.S. holders of our ADSs or ordinary shares,” and “Item 10. Additional Information — E. Taxation — People’s Republic of China Taxation.”

In addition, the New EIT Law revokes the exemption of withholding tax on dividends paid by a PRC enterprise to its foreign investors under the old tax law and its Implementation Rules provide that a withholding tax of 10% (or other applicable withholding tax rates based on tax treaties between the PRC and other jurisdictions) will generally be applicable to dividends payable to foreign investors. To the extent we and our overseas entity are not considered as PRC resident enterprises, the dividends that our PRC subsidiary pay to us will be subject to this withholding tax. See “Item 3. Key Information—D. Risk Factors—Risks Relating to Regulation of Our Business—Under the New EIT Law, we may be classified as a “resident enterprise” of China. Such classification will likely result in unfavorable tax consequences to us and U.S. holders of our ADSs or ordinary shares.” The undistributed earnings generated before January 1, 2008 shall be exempt from withholding tax when such earnings are distributed to the foreign investor in the year 2008 or thereafter. As of March 31, 2013, we have not provided for income taxes on accumulated earnings of RMB142.5 million (\$22.9 million) generated by our PRC consolidated entities since January 1, 2008 as we plan to indefinitely reinvest these earnings in the PRC.

Under applicable Chinese tax laws, foreign-invested enterprises and domestic Chinese companies may carry forward tax losses up to five years. In view of cumulated losses noted by certain of our PRC subsidiaries and affiliated entity, as of March 31, 2013, we provided full valuation allowance for their deferred income tax assets after consideration of the schedule reversal of existing deferred income tax liabilities.

Value-added tax, or VAT, refunds. Pursuant to Notice on Printing and Distribution of Several Policies to Further Stimulate the Development of Software and Integrated Circuit Industries promulgated by the State Council on January 28, 2011, Beijing JDX is currently entitled to a VAT refund for the portion of VAT paid in excess of the effective VAT burden of 3% after it pays its VAT at the statutory rate of 17% for sales of certain software products.

Business tax and VAT pilot program. ATA Testing, ATA Learning, ATA Online and Beijing JDX were subject to business tax at a rate of 5% for their gross revenues generated from service and license fees. However, this business tax was replaced by VAT starting from September 1, 2012 for these four entities when a pilot program of VAT in lieu of business tax was rolled out in certain provinces and cities in the PRC including Beijing, at a rate of 6% for such revenues. In addition, pursuant to a circular on the VAT pilot program, ATA Testing is currently exempted from VAT for certain services it provided to customers outside of China until December 31, 2013.

Critical Accounting Policies

We prepare our consolidated financial statements in conformity with U.S. GAAP, which requires us to make judgments, estimates and assumptions that affect the reported amounts of our assets and liabilities, disclosure of contingent assets and liabilities on the date of each set of consolidated financial statements and the reported amounts of revenues and expenses during each financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates as a result of changes in our estimates or changes in the facts or circumstances underlying our estimates and assumptions.

[Table of Contents](#)

An accounting policy is considered to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time such estimate is made, and if different accounting estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the consolidated financial statements. Some of our accounting policies require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our consolidated financial statements as their application places the most significant demands on our management’s judgment. When reviewing our consolidated financial statements, you should take into account:

- our critical accounting policies discussed below;
- the related judgments made by us and other uncertainties affecting the application of these policies;
- the sensitivity of our reported results to changes in prevailing facts and circumstances and our related estimates and assumptions; and
- the risks and uncertainties described under Item 3.D. “Key Information — Risk Factors.”

See note 2 to our audited consolidated financial statements for additional information regarding our significant accounting policies.

Basis of Consolidation

Our consolidated financial statements included elsewhere in this annual report include the financial statements of ATA Inc., its subsidiaries and VIE. All significant transactions and balances among ATA Inc., its subsidiaries and VIE have been eliminated upon consolidation.

ATA Inc. and its subsidiaries have no legal ownership interest in ATA Online. The legal registered capital interests of ATA Online are held by Mr. Kevin Xiaofeng Ma, the Company’s co-founder, chairman and chief executive officer and Mr. Walter Lin Wang, the Company’s co-founder and director, both of whom are also the beneficial owners of the ATA Inc. Through a series of contractual agreements, including loan agreements, a call option and cooperation agreement, an equity pledge agreement, a technical support agreement, a strategic consulting service agreement and powers of attorney (collectively, the “VIE Agreements”) which were entered among ATA BVI, ATA Learning, ATA Online and ATA Online’s shareholders, we have a controlling financial interest in ATA Online because we have (i) the power to direct activities of ATA Online that most significantly impact the economic performance of ATA Online; and (ii) the obligation to absorb the expected losses and the right to receive expected residual return of ATA Online that could potentially be significant to ATA Online.

Accordingly, the financial statements of ATA Online are consolidated in our consolidated financial statements. All of the equity (net assets) and net income or losses of ATA Online are attributed to us; therefore, non-controlling interest in ATA Online is not presented in our consolidated financial statements.

Bad Debt Allowance

We perform ongoing credit evaluations of our customers’ financial conditions and generally do not require collateral on accounts receivable.

The activity in the allowance for doubtful accounts for accounts receivable for the years ended March 31, 2011, 2012 and 2013 is as follows:

	For the fiscal year ended March 31,			
	2011	2012	2013	
	RMB	RMB	RMB	US\$
Beginning allowance for doubtful accounts	29,934,512	27,938,198	30,100,005	4,846,397
Additions charged to bad debt expense	2,235,627	2,350,990	9,140,062	1,471,640
Write-off of accounts receivable	(4,231,941)	(189,183)	(4,234,998)	(681,876)
Ending allowance for doubtful accounts	27,938,198	30,100,005	35,005,069	5,636,161

[Table of Contents](#)

Income Taxes

We assess the likelihood that our net deferred income tax assets will be realized. To the extent that we believe that it is more likely than not that some portion or the entire amount of deferred income tax assets will not be realized, we establish a valuation allowance.

In assessing the realizability of deferred income tax assets, we consider whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible or tax loss carried forward are utilized. We consider the scheduled reversal of deferred income tax liability, projected future taxable income and tax planning strategies in making this assessment.

As of March 31, 2013, we believe it is more likely than not that we will realize the deferred income tax assets, net of the valuation allowance of RMB0.9 million (\$0.1 million). The amount of the deferred income tax assets considered realizable as of March 31, 2013 could be reduced in the near term if estimates of future taxable income are reduced.

For each of the year ended March 31, 2011, 2012 and 2013, we had no unrecognized tax benefits relating to uncertain tax positions. Also, we do not expect that the amount of unrecognized tax benefits will significantly increase within the next twelve months.

According to the PRC Tax Administration and Collection Law, the statute of limitations is three years if the underpayment of taxes is

due to computational errors made by the taxpayer or the withholding agent. The statute of limitations is extended to five years under special circumstances where the underpayment of taxes is more than RMB100,000. In the case of transfer pricing issues, the statute of limitations is ten years. There is no statute of limitations in the case of tax evasion. The income tax return of each of the Company's PRC consolidated entities is subject to examination by the relevant tax authorities for the calendar tax years beginning in 2008.

Share-based payment

The Group measures the cost of employee share options or similar equity instruments based on the grant date fair value of the award and recognizes that cost over the period during which an employee is required to provide services in exchange for the award, which generally is the vesting period. When no future services are required to be performed by the employee in exchange for an award of equity instruments, and if such award does not contain a performance or market condition, the cost of the award is expensed on the grant date. When there is a modification of the terms and conditions of an award of equity instruments, the Company measures the pre-modification and post-modification fair value of the equity instruments as of the modification date and recognizes the incremental value as compensation cost over the remaining service period.

When there is a change in the grantee status from an employee to a non-employee, if grantee retains the awards on a change in status and continues to provide substantive services to the Group, the change in status results in a new measurement date for the unvested awards with compensation costs measured as if the awards were newly issued to the grantee on the date of the change in status. If grantee retains the awards on a change in status and is not required to provide substantive services to the grantor subsequent to that change in status, the change in status is, in substance, an acceleration of the vesting of the arrangement.

Results of Operations

The following table sets forth a summary, for the periods indicated, of our consolidated results of operations and each item expressed as a percentage of our total net revenues. Our historical results presented below are not necessarily indicative of the results that may be expected for any future period.

53

Fiscal Year Ended March 31, 2013 Compared to Fiscal Year Ended March 31, 2012

Net Revenues

Our total net revenues increased by RMB14.6 million, or 4.1%, to RMB366.7 million (\$59.0 million) in the fiscal year ended March 31, 2013 from RMB352.1 million in the fiscal year ended March 31, 2012, as a result of increases in net revenues from our testing services.

Testing services. Testing services net revenues increased by RMB44.9 million, or 15.4% to RMB335.8 million (\$54.1 million) in the fiscal year ended March 31, 2013 from RMB290.9 million in the fiscal year ended March 31, 2012, primarily due to the addition of exams for the CICPA and an increase in the volume of exams for the CBA. Our testing services for exams for the CICPA generated RMB54.3 million (\$8.7 million) of net revenues in the fiscal year ended March 31, 2013. Our net revenues from testing services provided to the CBA increased from RMB35.0 million in the fiscal year ended March 31, 2012 to RMB60.6 million (\$9.8 million) in the fiscal year ended March 31, 2013. However, our net revenues from testing services provided to the SAC and the China Futures Association (“CFA”) decreased by RMB33.8 million (\$5.4 million) and RMB3.3 million (\$0.5 million), respectively, in the fiscal year ended March 31, 2013 due to a year-over-year decrease in exam volumes attributable to reduced demand for qualified securities professionals due to a downturn in the financial industry in China related to the poor performance of the PRC stock market. The total number of billable tests delivered increased to 8,744,859 in the fiscal year ended March 31, 2013 from 8,026,639 in the fiscal year ended March 31, 2012. Our net revenues from TOEIC and HR Select remained steady at RMB88.4 million (\$14.2 million) in the fiscal year ended March 31, 2013 as compared to RMB88.0 million in the fiscal year ended March 31, 2012.

Test preparation and training solutions. Our revenues from test preparation and training solutions decreased by RMB15.7 million, or 58.0%, to RMB11.3 million (\$1.8 million) in the fiscal year ended March 31, 2013 from RMB27.0 million in the fiscal year ended March 31, 2012, primarily as a result of a 63.2% reduction in revenues from online training courses for the SAC due to a change in our contract with SAC under which revenue was recognized from a per training hour basis prior to December 2011 to a fixed annual fee from December 2011 and a 77.5% reduction in revenues from online services for the CFA attributable to reduced demand for qualified securities professionals in China.

Other revenues. Other revenues decreased by RMB14.7 million, or 42.9%, to RMB19.5 million (\$3.1 million) in the fiscal year ended March 31, 2013 from RMB34.2 million in the fiscal year ended March 31, 2012, primarily due to a 46.3% decrease to RMB6.8 million (\$1.1 million) for test-based education services and a 89.9% decrease to RMB1.1 million (\$0.2 million) in certificate delivery as we continue to make a gradual exit from these businesses.

Gross Profit

Our gross profit decreased by RMB15.5 million to RMB177.8 million (\$28.6 million) in the fiscal year ended March 31, 2013 from RMB193.3 million in the fiscal year ended March 31, 2012. Our gross margin decreased to 48.5% in the fiscal year ended March 31, 2013 from 54.9% in the fiscal year ended March 31, 2012. The decrease in our gross margin was primarily due to a year-over-year decrease in SAC exam volumes, which resulted in lower contributions as percentage of revenue, the decrease in revenues from online test preparation and training services for the SAC, and implementation expenses to ensure smooth delivery of exams for the CICPA.

Operating Expenses

Our operating expenses increased by RMB22.0 million, or 17.1%, to RMB150.8 million (\$24.3 million) in the fiscal year ended March 31, 2013 from RMB128.8 million in the fiscal year ended March 31, 2012, due to increased spending in the general and administrative matters, research and development and sales and marketing.

General and administrative expenses. Our general and administrative expenses increased by RMB8.7 million, or 14.2%, to RMB70.4 million (\$11.3 million) in the fiscal year ended March 31, 2013 from RMB61.7 million in the fiscal year ended March 31, 2012, primarily due to expenses relating to our efforts to streamline operations, including RMB5.5 million relating to headcount reduction.

Sales and marketing expenses. Our sales and marketing expenses increased by RMB3.1 million, or 6.6%, to RMB49.4 million (\$8.0 million) in the fiscal year ended March 31, 2013 from RMB46.3 million in the fiscal year ended March 31, 2012. Sales and marketing expenses as a percentage of our total net revenues increased to 13.5% in the fiscal year ended March 31, 2013 from 13.2% in the fiscal year ended March 31, 2012. This increase was primarily related to a RMB5.3 million increase in salary and welfare expenditures as a result of our continued efforts to grow our HR Select and TOEIC testing services, which was offset by a decrease of RMB2.9 million in travel and meeting expenditures driven by a localization of our sales force.

Research and development expenses. Our research and development expenses increased by RMB3.4 million, or 18.7%, to RMB21.8 million (\$3.5 million) in the fiscal year ended March 31, 2013 from RMB18.4 million in the fiscal year ended March 31, 2012, mainly due to an increase in salary and welfare expenditures for research and development staff.

Provision for doubtful accounts. Bad debt expenses increased by RMB6.7 million, or 288.8%, to RMB9.1 million (\$1.5 million) in the fiscal year ended March 31, 2013 from RMB2.4 million in the fiscal year ended March 31, 2012, primarily due to an increase of RMB5.5 million (\$0.9 million) provision made for the PRC Ministry of Human Resources and Social Security test and a RMB2.1 million

(\$0.3 million) provision made for receivables from the CBA.

Interest Income

Our interest income increased to RMB3.1 million (\$0.5 million) in the fiscal year ended March 31, 2013 from RMB2.1 million in the fiscal year ended March 31, 2012, primarily due to an increase in interest rates for our current deposits in PRC banks.

Foreign Currency Exchange Gains, Net

We recorded a net foreign currency exchange gain of RMB0.1 million (\$0.0 million) in the fiscal year ended March 31, 2013, compared with a net gain of RMB3.6 million in the fiscal year ended March 31, 2012. Our net foreign currency exchange gain in each of these fiscal years primarily reflected the effects of appreciation of the Renminbi against the U.S. dollar in relation to the remeasurement of our RMB denominated bank deposits held by ATA Inc., whose functional currency is in the U.S. dollar.

Income Tax Expense

We had income tax expense of RMB7.0 million (\$1.1 million) in the fiscal year ended March 31, 2013, compared to RMB14.3 million in the fiscal year ended March 31, 2012. The decrease in our income tax expense was primarily due to our lower operating income.

Net Income

As a result of the above factors, our net income decreased to RMB23.2 million (\$3.7 million) in the fiscal year ended March 31, 2013 from net income of RMB55.8 million in the fiscal year ended March 31, 2012.

Our basic earnings per common share and diluted earnings per common share decreased to RMB0.50 (\$0.08) and RMB0.50 (\$0.08) in the fiscal year ended March 31, 2013 from RMB1.22 and RMB1.19 in the fiscal year ended March 31, 2012.

Fiscal Year Ended March 31, 2012 Compared to Fiscal Year Ended March 31, 2011

Net Revenues

Our total net revenues increased by RMB48.2 million, or 15.9%, to RMB352.1 million in the fiscal year ended March 31, 2012 from RMB303.9 million in the fiscal year ended March 31, 2011, as a result of increases in net revenues from our testing services and test preparation and training solutions segments.

Testing services. Testing services net revenues increased by RMB47.8 million, or 19.7% to RMB290.9 million in the fiscal year ended March 31, 2012 from RMB243.1 million in the fiscal year ended March 31, 2011, primarily due to an increase in the volume and price of exams for the SAC, the addition of the China Customs exam, and a 61.3% increase in revenues from the HR Select and TOEIC business lines. The total number of billable tests delivered increased to 8,026,639 in the fiscal year ended March 31, 2012 from 6,907,158 in the fiscal year ended March 31, 2011. Our net revenues from testing services provided to the SAC grew to RMB110.3 million in the fiscal year ended March 31, 2012 from RMB103.5 million in the fiscal year ended March 31, 2011. Our net revenues from TOEIC and HR Select grew to RMB88.0 million in the fiscal year ended March 31, 2012 from RMB54.5 million in the fiscal year ended March 31, 2011.

Test preparation and training solutions. Our revenues from test preparation and training solutions increased by RMB11.6 million, or 75.0%, to RMB27.0 million in the fiscal year ended March 31, 2012 from RMB15.4 million in the fiscal year ended March 31, 2011, primarily as a result of higher revenues in the online training courses for the SAC.

[Table of Contents](#)

Other revenues. Other revenues decreased by RMB11.2 million, or 24.6%, to RMB34.2 million in the fiscal year ended March 31, 2012 from RMB45.4 million in the fiscal year ended March 31, 2011, primarily due to a 51.0% decrease to RMB12.6 million for test-based education services as we continue to make a gradual exit from this business.

Gross Profit

Our gross profit rose by RMB38.6 million to RMB193.3 million in the fiscal year ended March 31, 2012 from RMB154.7 million in the fiscal year ended March 31, 2011. Our gross margin increased to 54.9% in the fiscal year ended March 31, 2012 from 50.9% in the fiscal year ended March 31, 2011. The increase in our gross margin was primarily due to the significant growth in revenues from online test preparation and training services and the unit price increase for SAC exams.

Operating Expenses

Our operating expenses decreased by RMB5.0 million, or 3.7%, to RMB128.8 million in the fiscal year ended March 31, 2012 from RMB133.8 million in the fiscal year ended March 31, 2011, primarily due to decreased spending in research and development and sales and marketing.

General and administrative expenses. Our general and administrative expenses increased by RMB7.3 million, or 13.3%, to RMB61.7 million in the fiscal year ended March 31, 2012 from RMB54.4 million in the fiscal year ended March 31, 2011 primarily due to an increase

of RMB7.9 million in share-based compensation.

Sales and marketing expenses. Our sales and marketing expenses decreased by RMB8.0 million, or 14.8%, to RMB46.3 million in the fiscal year ended March 31, 2012 from RMB54.4 million in the fiscal year ended March 31, 2011. Sales and marketing expenses as a percentage of our total net revenues decreased to 13.2% in the fiscal year ended March 31, 2012 from 17.9% in the fiscal year ended March 31, 2011. This decrease was primarily related to a RMB6.6 million decrease in marketing expenditures and a RMB1.5 million decrease in salaries and compensation. However, we expect that our sales and marketing expenses will increase in the near term as we believe it is a worthwhile investment of our current profits for the future.

Research and development expenses. Our research and development expenses decreased to RMB18.4 million in the fiscal year ended March 31, 2012 from RMB22.8 million in the fiscal year ended March 31, 2011.

Provision for doubtful accounts. Bad debt expenses increased slightly by RMB0.1 million, or 5.2%, to RMB2.4 million in the fiscal year ended March 31, 2012 from RMB2.2 million in the fiscal year ended March 31, 2011.

Interest Income

Our interest income increased to RMB2.1 million in the fiscal year ended March 31, 2012 from RMB1.0 million in the fiscal year ended March 31, 2011. Our interest income was higher in the fiscal year ended March 31, 2012 because of higher interest rates.

Foreign Currency Exchange Gains, Net

We recorded a net foreign currency exchange gain of RMB3.6 million in the fiscal year ended March 31, 2012, compared with a net gain of RMB1.1 million in the fiscal year ended March 31, 2011, primarily due to the increase of the effects of appreciation of Renminbi against the U.S. dollar in relation to the remeasurement of our RMB denominated bank deposits held by ATA Inc., whose functional currency is the U.S. dollar.

Income Tax Expense

Our income tax expense increased to RMB14.3 million in the fiscal year ended March 31, 2012 from RMB3.3 million in the fiscal year ended March 31, 2011 primarily due to higher operating income generated by ATA Testing and ATA Online.

Net Income

As a result of the above factors, our net income increased to RMB55.8 million in the fiscal year ended March 31, 2012 from a net income of RMB19.8 million in the fiscal year ended March 31, 2011.

Our basic earnings per common share and diluted earnings per common share increased to RMB1.22 and RMB1.19 in the fiscal year ended March 31, 2012 from RMB0.44 and RMB0.44 in the fiscal year ended March 31, 2011.

[Table of Contents](#)

B. Liquidity and Capital Resources

We have financed our working capital and capital expenditure requirements primarily through cash provided by operating activities and the proceeds from our 2008 initial public offering.

As of March 31, 2013, we had RMB290.0 million (\$46.7 million) in cash. Our cash was primarily deposited with reputable banks in China and Hong Kong. We intend to finance our future additional working capital and capital expenditure needs principally from cash provided by operating activities.

We believe that our current cash and expected future cash flows from operating activities, particularly from testing services and test preparation and training solutions, is sufficient to meet our present working capital requirements. Our current expansion plans do not require significant capital commitments. We do not expect our short-term and long-term cash requirements to be materially different. Nevertheless, we may require additional sources of liquidity in the event of changes in business conditions or other future developments. Factors affecting our sources of liquidity include our sales performance and changes in working capital. Any changes in the significant factors affecting our revenues from testing services, test-based educational services and test preparation and training solutions may cause material fluctuations in our cash generated from operations. See “— Net Revenues” for a description of these significant factors. Changes in working capital, including any significant shortening or lengthening of our accounts receivable cycle or client prepayment cycles, may also cause fluctuations in our cash generated from operations. If our sources of liquidity are insufficient to satisfy our cash requirements, we may seek to sell additional equity or debt securities to meet our cash needs. The sale of convertible debt securities or additional equity securities could result in dilution to our shareholders. The incurrence of indebtedness would result in debt service obligations and could result in operating and financial covenants that would restrict our operations. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all.

The following table summarizes our net cash flows with respect to operating activities, investing activities and financing activities in the fiscal years ended March 31, 2011, 2012 and 2013:

	2011	2012	2013	
	RMB	RMB	RMB	US\$
	(In thousands)			
Net cash provided by operating activities	62,098	59,353	67,778	10,913
Net cash used in investing activities	(3,875)	(5,347)	(7,967)	(1,283)
Net cash used in financing activities	—	(61,967)	(26,574)	(4,279)
Effect of foreign exchange rate changes on cash	(4,039)	(2,929)	(375)	(60)
Net increase (decrease) in cash	54,184	(10,890)	32,862	5,291
Cash at beginning of year	213,874	268,058	257,168	41,407
Cash at end of year	268,058	257,168	290,030	46,698

Operating Activities

Net cash provided by operating activities was RMB67.8 million (\$10.9 million) in the fiscal year ended March 31, 2013, mainly attributable to cash collection from revenues of RMB372.1 million, partially offset by cash paid for test monitoring costs and royalty fees of RMB141.1 million and cash paid for payroll and other operating expenses of RMB163.2 million.

Net cash provided by operating activities was RMB59.4 million in the fiscal year ended March 31, 2012, mainly attributable to cash collection from revenues of RMB322.6 million, partially offset by cash paid for test monitoring costs and royalty fees of RMB102.7 million, cash paid for payroll and other operating expenses of RMB143.5 million, and cash paid for income taxes of RMB17.0 million.

Net cash provided by operating activities was RMB62.1 million in the fiscal year ended March 31, 2011, mainly attributable to RMB329.9 million cash collection from revenues, partially offset by test monitoring costs and royalty fees of RMB 101.5 million, cash paid for payroll and other operating expenses of RMB159.6 million and cash paid for income taxes of RMB 6.7 million.

Investing Activities

Net cash used in investing activities in the fiscal year ended March 31, 2013 of RMB8.0 million (\$1.3 million) was primarily attributable to capital expenditures for the construction of the Chengdu test center and purchase of IT infrastructure and security equipment for a data center in Beijing.

[Table of Contents](#)

Net cash used in investing activities in the fiscal year ended March 31, 2012 of RMB5.3 million was primarily attributable to capital expenditures for the purchase of computers and electronic equipment.

Net cash used in investing activities in the fiscal year ended March 31, 2011 of RMB3.9 million was primarily attributable to capital expenditures for the purchase of computers and electronic equipment.

Financing Activities

Net cash used in financing activities in the fiscal years ended March 31, 2012 and 2013 was primarily attributable to payment of dividends. On August 7, 2012, the Company announced that its Board of Directors declared a special cash dividend of \$0.087 per common share, or \$0.174 per ADS. The total amount of cash distributed in the dividend was \$4.0 million, which was paid from cash held by ATA Inc. The dividend was paid to all shareholders of record as of the close of business on August 20, 2012. On June 1, 2011, the Company announced that its Board of Directors declared a special cash dividend of \$0.215 per common share, or \$0.43 per ADS. The total amount of cash distributed in the dividend was \$9.8 million, which was paid from the cash held by ATA Inc. The dividend was paid to all shareholders of record as of the close of business on June 30, 2011. For a discussion of the limitations on the ability of our operating subsidiaries to pay dividends to us, see Item 8.A, “Financial Information — Dividend Policy.”

Capital Expenditures

The following table sets forth our historical capital expenditures for the periods indicated. Actual future capital expenditures may differ from the amounts indicated below.

	For the fiscal year ended March 31,			
	2011	2012	2013	
	RMB	RMB	RMB	US\$
	(In thousands)			
Total capital expenditures	3,875	5,368	7,967	1,283

Historically, our capital expenditures have been made primarily for the purchase of office space, software, computer equipment and servers.

Foreign Currency Exchange

ATA Inc. and ATA BVI’s functional currency is the U.S. dollar. As of March 31, 2013, we had RMB290.0 million (\$46.7 million) in cash, including RMB16.7 million (\$2.7 million) RMB-denominated bank deposits in Hong Kong held by ATA Inc. The functional currency of our PRC subsidiaries and variable interest entity is Renminbi. The non-Renminbi portion of our revenues primarily consists of

U.S. dollar-denominated licensing fees and royalty payments, while the non-Renminbi portion of our expenditures primarily consists of professional fees and royalty payments, either denominated in U.S. dollars or Hong Kong dollars. Fluctuations in exchange rates, primarily those involving the U.S. dollar against the Renminbi, may affect our costs and operating margins and our reported operating results. Under the current foreign exchange system in China, our operations in China may not be able to hedge effectively against currency risk, including any possible future Renminbi devaluation. See Item 3.D. “Key Information — Risk Factors — Risks Relating to the People’s Republic of China — Fluctuations in exchange rates could result in foreign currency exchange losses.”

Recent Accounting Pronouncements

In June 2011, the FASB issued Accounting Standards Update (“ASU”) 2011-05, *Presentation of Comprehensive Income* (“ASU 2011-05”), which amended accounting guidance related to presentation of comprehensive income. The standards update is intended to help financial statement users better understand the causes of an entity’s change in financial position and results of operation. The amendment eliminates the option to present components of other comprehensive income as part of the statement of changes in equity. The amendment requires that all non-owner changes in equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance also requires that reclassification adjustments for items that are reclassified from other comprehensive income to net income be presented on the face of the financial statement where the components of net income and other comprehensive income are presented. In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05* (“ASU 2011-12”), which defers only those changes in ASU 2011-05 that relate to the presentation of reclassification adjustments out of accumulated other comprehensive income. ASU 2011-05 and ASU 2011-12 are effective for reporting periods beginning after December 15, 2011. The Company adopted the new guidance on April 1, 2012.

[Table of Contents](#)

In February 2013, the FASB issued ASU 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income* (“ASU 2013-02”). The standard requires that companies present either in a single note or parenthetically on the face of the financial statements, the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source (e.g., the release due to cash flow hedges from interest rate contracts) and the income statement line items affected by the reclassification (e.g., interest income or interest expense). If a component is not required to be reclassified to net income in its entirety (e.g., the net periodic pension cost), companies would instead cross reference to the related footnote for additional information (e.g., the pension footnote). ASU 2013-02 is effective for interim and annual reporting periods beginning after December 15, 2012. The Company will adopt the provisions of the new guidance on April 1, 2013. The adoption will not have a material impact on its consolidated financial statements or related disclosures.

C. Research and Development, Patents and Licenses, Etc.

Research and development is important to our continued success. Our research and development initiatives are designed to improve our existing testing technologies and to develop new and innovative technologies. We conduct our research and development activities primarily in-house but may also from time to time outsource certain research and development activities. We have an experienced team of engineers with expertise in the fields of computing, software, system design, and test design and conversion. Our research and development team consisted 103 people as of March 31, 2013. We will continue to look selectively for experienced software engineers and other technology talent to further increase our technological capabilities. While we focus on development of technologies that can be commercialized and integrated into our service offerings in the short term, we also invest in the research and development of testing technologies for the medium and long term in preparation for the next generation and cutting-edge products and services. In addition, we are developing upgrades of our key technologies, including our Dynamic Simulation technology, our ETX platform, our HR Select interface and our MTS platform. Our total expenses for research and development were RMB22.8 million, RMB18.4 million and RMB21.8 million (\$3.5 million) in the fiscal years ended March 31, 2011, 2012 and 2013, respectively.

D. Trend Information

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from April 1, 2010 to March 31, 2013 that are reasonably likely to have a material adverse effect on our revenues, income, profitability, liquidity or capital resources, or that caused the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

E. Off-Balance Sheet Arrangements

We do not currently have, and do not expect in the future to have, any off-balance sheet arrangements or commitments. In our ongoing business, we do not plan to enter into transactions involving, or otherwise form relationships with, unconsolidated entities or financial partnerships established for the purpose of facilitating off-balance sheet arrangements or commitments.

F. Tabular Disclosure of Contractual Obligations

Contractual Obligations and Commercial Commitments

The following table sets forth our contractual obligations as of fiscal year ended March 31, 2013:

Payment Due

	Total	Within 1 Year	1-3 Years	3-5 Years	More than 5 Years
	(In thousands of RMB)				
Operating Lease Obligations	10,193	5,860	4,333	—	—

Our operating lease obligations have comprised of our office lease obligations for our offices in China. These office leases expire at different times over the period from the date of this annual report through February 2016, and will become subject to renewal. We will evaluate the need to renew each office lease on a case-by-case basis prior to its expiration.

[Table of Contents](#)

Indebtedness

We currently do not have any outstanding debt, debt securities, contingent liabilities, mortgages, or liens.

G. Safe Harbor

This release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995. See “Introduction—Forward-Looking Statements.”

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

A. Directors and Senior Management

The following table sets forth certain information relating to our directors and executive officers as of the date of this annual report. The business address of each of our directors and executive officers is 8th Floor, Tower E, 6 Gongyuan West Street, Jian Guo Men Nei, Beijing 100005, China.

Name	Age	Position
Kevin Xiaofeng Ma	49	Chairman of the Board of Directors, Chief Executive Officer
Benson Tsang	48	Chief Financial Officer, Principal Financial and Accounting Officer
Walter Lin Wang	51	Director
Andrew Yan	55	Director
Hope Ni	41	Director
Alec Tsui	64	Director
Jianmin Ding	47	Senior Vice President
Alex Tong	50	Vice President of Business Development and Investor Relations
Shuqiu Zhao	41	Vice President
Amy Tung	41	Vice President

Kevin Xiaofeng Ma is co-founder, chairman of the board and chief executive officer of our company. Prior to co-founding our company, Mr. Ma co-founded Dynamic Technology Corporation and served as its chief executive officer from 1996 to 1998. From 1990 to 1996, Mr. Ma served as a general manager in the Hainan High-Tech Industry International Cooperation Center. Previously, Mr. Ma gained experience as a vice president at the Beijing MDI High-Tech Center, as a director of Beijing Zhongjia Integrated Intelligent System Engineering, and as a reporter for China Radio International. Mr. Ma is a member of the board of directors of a number of private enterprises with operations in China, which do not compete with our business. Mr. Ma graduated from Nanjing University with a bachelor’s degree in economics.

Benson Tsang became our chief financial officer and financial and principal accounting officer in March 2010. Mr. Tsang has more than 21 years of experience in accounting, financial management, and the capital markets. He has held senior financial and management positions in multinational corporations and international accounting firms, and has financial and accounting experience with companies listed on the New York Stock Exchange, The Stock Exchange of Hong Kong, and the Singapore Exchange. Mr. Tsang served as Chief Financial Officer of WuXiPharmatech (Cayman) Inc. (NYSE: WX) from July 2006 to February 2009. Prior to that, Mr. Tsang held senior financial and management positions in private and public companies, including PCCW Ltd. and Global Tech Holdings Ltd. He served with PricewaterhouseCoopers and Deloitte Touche Tohmatsu from 1988 to 1996, and between March 2009 and March 2010, Mr. Tsang provided consulting services through his own firm, the Benita Consulting Company. Mr. Tsang is a member of the Canadian Institute of Chartered Accountants and the Hong Kong Institute of Certified Public Accountants. He received a bachelor’s degree in commerce and an MBA degree from McMaster University in Canada.

Walter Lin Wang is a co-founder and director of our company. Prior to co-founding our company, Mr. Wang practiced independent IT consulting. Mr. Wang also worked as an engineer at the PRC Ministry of Railways. Mr. Wang holds a bachelor’s degree in computer science from Southwest Jiaotong University and a master’s degree in computer science from University of Central Florida. He resigned as our president in December 2012 and will continue to work as a consultant to us assisting primarily with the HR Select and TOEIC business.

Andrew Yan is a Director of our company, and is an independent director pursuant to Nasdaq Stock Market Rule 5605(a)(2). He is the founding managing partner of SAIF Partners IV, III and SB Asia Investment Fund II L.P., and president and executive managing director of Softbank Asia Infrastructure Fund. Before joining Softbank Asia Infrastructure Fund in 2001, Mr. Yan was a managing director and the head of the Hong Kong office of Emerging Markets Partnership from 1994 to 2001. From 1989 to 1994, he worked in the World Bank, the Hudson Institute and US Sprint Co. as an economist, research fellow and director for Asia, respectively, in Washington, DC. From 1982 to 1984, he was the chief engineer at the Jianghuai Airplane Corp. Mr. Yan was a recipient of China's National "Thousand Talents Program" in 2012 and a member of its Selection Committee. He is a founding director of China Venture and Private Equity Association and a director of Peking University Endowment Investment Committee. He was voted by the China Venture Capital Association as "The Venture Investor of the Year" in both 2004 and 2007. He was also selected as one of the "Fifty Finest Private Equity Investors in the World" by the Private Equity International in 2007; "No. 1 Venture Capitalist of the Year" by Forbes (China) in 2008 and 2009. He was named the "Venture Capital Professional of the Year" by Asia Venture Capital Journal in 2009. He is currently an independent non-executive director of China Petroleum & Chemical Corporation, Mengniu Dairy Company Limited, China Resources Land Limited and Fosun International Limited and a non-executive director of Guodian Technology & Environment Group Corporation Limited, Digital China Holdings Limited, MOBI Development Co., Ltd., eSun Holdings Limited and China Huiyuan Juice Group Limited. He is also an independent director of Giant Interactive Group Inc. and director of Acorn International Inc., and Eternal Asia Supply Chain Co., Ltd. (all 12 companies are listed in the Hong Kong Stock Exchange, NYSE, NASDAQ, London, Shanghai or Shenzhen Stock Exchanges). He also holds directorship in several SAIF portfolio companies. Mr. Yan received a master's degree from Princeton University as well as a bachelor's degree in engineering from the Nanjing Aeronautic Institute in the PRC.

Hope Ni has been an independent director of ATA, Inc.. Ms. Ni is currently the chairman of Inspire Capital. She currently also serves on the boards of KongZhong Corporation (NASDAQ: KONG), JA Solar Holdings Co (NASDAQ: JASO), ATA, Inc. and Digital China Holdings Ltd. (Stock code: 00861.HK). From 2004 to 2007, Ms. Ni was the chief financial officer and director of COGO Group Inc. (NASDAQ: COGO), during which, COGO Group increased market capitalization approximately seven times. In 2008, Ms. Ni served as the vice chairman of COGO Group Inc. Prior to that, Ms. Ni spent six years as a practicing attorney at Skadden, Arps, Slate, Meagher & Flom LLP in New York and Hong Kong. Earlier in her career, Ms. Ni worked at Merrill Lynch's investment banking division in New York. Ms. Ni received her J.D. degree from University of Pennsylvania Law School and her B.S. degree in applied economics and business management from Cornell University.

Alec Tsui is an independent director on our board. Mr. Tsui is currently an independent non-executive director of a number of companies listed in Hong Kong, Shanghai, Philippines and in on the Nasdaq Global Market, including, China Chengtong Development Group Limited., COSCO International Holdings Limited, China Power International Development Limited, Pacific Online Limited, China Oilfield Services Limited, Summit Ascent Holdings Limited, Melco Crown Entertainment Limited and Melco Crown (Philippines) Resorts Corporation. He was the chairman of the Hong Kong Securities Institute from 2001 to 2004. He was an advisor and a council member of the Shenzhen Stock Exchange from 2001 to 2002. He joined the Hong Kong Stock Exchange in 1994 as an executive director of the finance and operations services division and became its chief executive in 1997. Prior to that Mr. Tsui served at the Securities and Futures Commission of Hong Kong from 1989 to 1993. Mr. Tsui graduated from the University of Tennessee with a B.S. degree and a master's degree in industrial engineering. He completed a program for senior managers in government at the John F. Kennedy School of Government of Harvard University.

Jianmin Ding is our senior vice president in charge of marketing and business development. Mr. Ding has been with ATA since 2001. Prior to joining us, Mr. Ding was the chairman and CEO of Shanghai Linping Property Ltd. Mr. Ding graduated from Nanjing University with a bachelor's degree in economics.

Alex Tong is our vice president in charge of business development and investor relations. Prior to joining us in September 2005, Mr. Tong worked as a general manager for the Asia Pacific region at the Royal Institution of Chartered Surveyors from 2003 to 2005. Prior to that, Mr. Tong worked for Thomson Prometric in the position of executive director from 1999 to 2003 and as the managing director at Pearson NCS Hong Kong Ltd. from 1997 to 1999. Mr. Tong graduated from University of Nottingham with a bachelor's degree in education and a master's degree of philosophy in education and from the Chinese University of Hong Kong with an executive MBA.

Shuqiu Zhao is our vice president in charge of marketing and business development of our company. Mr. Zhao also oversees our test delivery services and has been with ATA since 2000. Prior to joining us, Mr. Zhao worked as the general manager of the computer education center of the Shanghai Pudong New Area. Mr. Zhao graduated from Harbin Institute of Technology with a bachelor's degree in technology.

[Table of Contents](#)

Amy Tung is a vice president in our company. Prior to joining us in August 2006, she worked as controller in Bayer Healthcare Limited from 2005 to 2006, as senior financial analyst in BEA Systems (Hong Kong) Limited from 2004 to 2005 and as finance manager in Bureau Veritas Consumer Products Services (Hong Kong) Limited from 2002 to 2004. Ms. Tung graduated from the Chinese University of Hong Kong with a master's degree in business administration and Columbia University with a master's degree in financial engineering. Ms. Tung is also a member of the Association of Chartered Certified Accountants and the Institute of Chartered Secretaries and Administrators.

B. Compensation

For the fiscal year ended March 31, 2013, we and our subsidiaries paid aggregate cash compensation of approximately RMB7.6 million (\$1.2 million) to our directors and executive officers as a group, and no restricted share was granted to directors and selected executive officers. We do not pay or set aside any amounts for pension, retirement or other benefits for our officers and directors.

Share Incentives

We adopted a share incentive plan, or the 2005 Plan, in April 2005. We adopted our 2008 Employee Share Incentive Plan, or the 2008 Plan, in January 2008. Our share incentive plans are intended to promote our success and to increase shareholder value by providing an additional means to attract, motivate, retain and reward selected directors, officers, employees and other eligible persons. An aggregate of 3,310,300 common shares are reserved for issuance under the 2005 Plan. Subject to any amendment of our 2008 Plan by our directors, the maximum aggregate number of common shares that may be issued pursuant to all awards under the 2008 Plan is 336,307 shares, plus, unless the board of directors determines a lesser amount, an annual increase on January 1 of each calendar year beginning in 2009 equal to the lesser of (x) one percent (1%) of the number of shares issued and outstanding on December 31 of the immediately preceding calendar year, and (y) 336,307 shares. As of March 31, 2013, 2,017,842 shares were authorized for issuance under the 2008 Plan.

We have granted share options and restricted shares under the 2005 Plan and 2008 Plan to selected directors, officers, employees and individual consultants and advisors. As of June 26, 2013, we have granted a total of 2,747,342 share options that are outstanding under such plans, of which 2,684,842 have vested. The contractual term of these options is ten years. As of June 26, 2013, we have also granted 885,000 restricted shares that are unvested and outstanding and 826,366 restricted shares that have vested.

Options and restricted shares granted under our share incentive plans generally do not vest unless the grantee remains under our employment or in service with us on the given vesting date.

Generally, if the grantee's employment or service with us is terminated for cause, all such grantee's options under our share incentive plans, vested and unvested, immediately terminate and become unexercisable. On the other hand, if the grantee's employment or service with us is terminated for any reason other than for cause, all such grantee's vested options terminate and become unexercisable ninety days following the grantee's last day of employment or service with us. In circumstances where there is a death or total disability of the grantee, generally all unvested options immediately terminate and become unexercisable while vested options terminate and become unexercisable twelve months after the last date of employment or service with us.

Our board of directors may amend, alter, suspend, or terminate our share incentive plans at any time, provided, however, that our board of directors must first seek the approval of the participants of our share incentive plans if such amendment, alteration, suspension or termination would adversely affect the rights of participants under any option granted prior to that date. Without further action by our board of directors, the 2005 Plan will terminate in 2015 and the 2008 Plan will terminate in 2018.

The table below sets forth the share option and restricted share grants made to our current directors and executive officers pursuant to our share incentive plans:

[Table of Contents](#)

Share options

Name	Number of Common Shares to be Issued Upon Exercise of Options	Exercise Price per Common Share	Date of Grant	Vesting Start Date	Date of Expiration
Andrew Yan	330,400	\$ 2.263	April 12, 2005	May 1, 2005	April 11, 2015
Hope Ni	50,000	\$ 4.75	January 28, 2008	January 28, 2008	January 27, 2018
Alec Tsui	50,000	\$ 4.75	January 28, 2008	January 28, 2008	January 27, 2018
Benson Tsang	300,000	\$ 2.115	March 29, 2010	March 29, 2010	March 28, 2020

Hope Ni	60,000	February 16, 2012	February 17, 2012
Alec Tsui	60,000	February 16, 2012	February 17, 2012

C. Board Practices

Duties of Directors

Under Cayman Islands Law, our directors have a statutory duty of loyalty to act honestly in good faith with a view to our best interests. Our directors also have a duty to exercise the care, diligence and skills that a reasonably prudent person would exercise in comparable circumstances. In fulfilling their duty of care to us, our directors must ensure compliance with our amended and restated memorandum and articles of association. A shareholder has the right to seek damages if a duty owed by our directors is breached.

The functions and powers of our board of directors include, among others:

- convening shareholders' annual general meetings and reporting its work to shareholders at such meetings;
- issuing authorized but unissued shares;
- declaring dividends and distributions;
- exercising the borrowing powers of our company and mortgaging the property of our company;
- approving the transfer of shares of our company, including the registering of such shares in our share register; and
- exercising any other powers conferred by the shareholders' meetings or under our amended and restated memorandum and articles of association.

[Table of Contents](#)

Terms of Directors

We have a board of five directors divided into class A, class B and class C directors. As of the date of this annual report, the class A directors are Kevin Xiaofeng Ma and Walter Lin Wang, the class B director is Andrew Yan, and the class C directors are Hope Ni and Alec Tsui. Each class of directors will stand for election every year at our annual general meeting of shareholders on a rotating basis. Our class B director was re-elected at our 2012 annual general meeting, and our class C directors will stand for re-election at our 2013 annual general meeting. Our chief executive officer, which currently is Kevin Xiaofeng Ma, shall not, while holding office, be subject to retirement or be taken into account in determining the number of directors to retire in any year. Neither we nor our subsidiaries have any directors' service contracts providing for benefits upon termination of employment.

Board Practices

Our board of directors has established an audit committee, a compensation committee and a nominations committee.

Audit Committee

Our audit committee consists of Hope Ni and Alec Tsui. Hope Ni is the chairman of our audit committee. Our board of directors has determined that Hope Ni and Alec Tsui are "independent directors" within the meaning of Nasdaq Stock Market Rule 5605(a)(2) and meet the criteria for independence set forth in Rule 10A-3(b) of the Exchange Act. Hope Ni meets the criteria of an audit committee financial expert as set forth under the applicable rules of the SEC. The third seat on our audit committee is vacant in reliance on Nasdaq Stock Market Rule 5615(a)(3), which permits a foreign private issuer like us to follow "home country practices" in relation to the composition of its audit committee. In this regard we have elected to adopt the practices of our home country, the Cayman Islands, which does not require us to have a three member audit committee or to fill all three seats on the audit committee at this time.

Our audit committee is responsible for, among other things:

- appointing the independent auditor;
- pre-approving all auditing and non-auditing services permitted to be performed by the independent auditor;
- annually reviewing the independent auditor's report describing the auditing firm's internal quality-control procedures, any material issues raised by the most recent internal quality-control review, or peer review, of the independent auditor and all relationships between the independent auditor and our company;
- setting clear hiring policies for employees and former employees of the independent auditor;
- reviewing with the independent auditor any audit problems or difficulties and management's responses;
- reviewing and approving all related party transactions on an ongoing basis;
- reviewing and discussing the annual audited financial statements with management and the independent auditor;
- reviewing and discussing with management and the independent auditor major issues regarding accounting principles and financial statement presentations;
- reviewing reports prepared by management or the independent auditor relating to significant financial reporting issues and judgments;

- discussing earnings press releases with management, as well as financial information and earnings guidance provided to analysts and rating agencies;
- reviewing with management and the independent auditor the effect of regulatory and accounting initiatives, as well as off-balance sheet structures, on our financial statements;
- discussing policies with respect to risk assessment and risk management with management, internal auditors and the independent auditor;
- timely reviewing reports from the independent auditor regarding all critical accounting policies and practices to be used by our company, all alternative treatments of financial information within U.S. GAAP that have been discussed with management and all other material written communications between the independent auditor and management;
- establishing procedures for the receipt, retention and treatment of complaints received from our employees regarding accounting, internal accounting controls, or auditing matters, and the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters;
- annually reviewing and reassessing the adequacy of our audit committee charter;
- such other matters that are specifically delegated to our audit committee by our board of directors from time to time;
- meeting separately, periodically, with management, internal auditors and the independent auditor; and
- reporting regularly to the full board of directors.

[Table of Contents](#)

Compensation Committee

Our compensation committee consists of Andrew Yan, Hope Ni and Alec Tsui. Andrew Yan is the chairman of our compensation committee. Our board of directors has determined that all of our compensation committee members are “independent directors” within the meaning of Nasdaq Stock Market Rule 5605(a)(2).

Our compensation committee is responsible for:

- reviewing and approving our overall compensation policies;
- reviewing and approving corporate goals and objectives relevant to the compensation of our chief executive officer, evaluating our chief executive officer’s performance in light of those goals and objectives, reporting the results of such evaluation to the board of directors, and determining our chief executive officer’s compensation level based on this evaluation;
- determining the compensation level of our other executive officers;
- making recommendations to the board of directors with respect to our incentive-compensation plan and equity-based compensation plans;
- administering our equity-based compensation plans in accordance with the terms thereof; and
- such other matters that are specifically delegated to the compensation committee by our board of directors from time to time.

Nominations Committee

Our nominations committee consists of Kevin Xiaofeng Ma, Andrew Yan and Alec Tsui. Kevin Xiaofeng Ma is the chairman of the nominations committee. Although Nasdaq Stock Market Rules generally require all members of the nominations committee of a listed company to be “independent directors” within the meaning of Nasdaq Stock Market Rule 5605(a)(2), Nasdaq Stock Market Rule 5615(a)(3) permits a foreign private issuer like us to follow “home country practices” in relation to composition of its nominations committee. In this regard, we have elected to adopt the practices of our home country, the Cayman Islands, which does not require that any of the members of a company’s nominations committee be independent directors.

Our nominations committee is responsible for, among other things:

- seeking and evaluating qualified individuals to become new directors as needed;
- reviewing and making recommendations to the board of directors regarding the independence and suitability of each board member for continued service; and
- evaluating the nature, structure and composition of other board committees.

[Table of Contents](#)

Corporate Governance

Our board of directors has adopted a code of ethics, which is applicable to our senior executive and financial officers. In addition, our board of directors has adopted a code of conduct, which is applicable to all of our directors, officers, employees and advisors. Our code of ethics and our code of conduct are publicly available on our web site, <http://www.ata.net.cn>. In addition, our board of directors has adopted a set of corporate governance guidelines. The guidelines reflect certain guiding principles with respect to our board's structure, procedures and committees. The guidelines are not intended to change or interpret any law, or our amended and restated memorandum and articles of association.

Interested Transactions

A director may vote with respect to any contract or transaction in which he or she is interested, provided that the nature of the interest of any director in such contract or transaction is disclosed by him or her at or prior to its consideration and any vote in that matter.

D. Employees

We had 488, 541 and 500 employees as of March 31, 2011, 2012 and 2013, respectively. As of March 31, 2013, we had 134 employees in sales and marketing, 103 in research and development, 182 in client service and support and 81 in general and administrative functions.

In April 2005, we adopted a share incentive plan, or the 2005 Plan. In January 2008, we adopted our 2008 Employee Share Incentive Plan, or the 2008 Plan. We use our share incentive plans as an additional means to further attract, motivate, retain and reward selected directors, officers, employees and third-party consultants and advisors. For more information, see Item 6.B. "Directors, Senior Management and Employees — Share Incentives — Share Option Plan." We believe these initiatives have contributed to our ability to attract and retain talent.

As required by Chinese laws and regulations, we participate in various employee benefit plans that are organized by municipal and provincial governments, including housing, pension, medical and unemployment benefit plans. We make monthly payments to these plans in respect of each employee based on the employee's compensation. We believe that we maintain a good working relationship with our employees and we have not experienced any significant labor disputes. Our employees have not entered into any collective bargaining agreements.

According to our contracts with our employees, our employees are generally prohibited from engaging in any activities that compete with our business during the period of their employment and for two years after termination of their employment with us. Furthermore, all employees are prohibited, for a period of two years following termination, from soliciting other employees to leave us and, for a period of five years following termination, from soliciting our existing clients. However, we may have difficulty enforcing these non-competition and non-solicitation terms in China because the Chinese legal system, especially with respect to the enforcement of such terms, is still developing.

E. Share Ownership

The following table sets forth information with respect to the beneficial ownership, within the meaning of Section 13(d)(3) of the Exchange Act, of our common shares as of June 26, 2013 by:

- each person known to us to own beneficially more than 5% of our common shares, and
- each of our directors and executive officers

[Table of Contents](#)

	Common shares beneficially owned	
	Number ⁽¹⁾	Number ⁽²⁾

Government of Singapore Investment Corporation Pte Ltd ⁽⁷⁾	3,050,076	6.6%

* Beneficially owns less than 1% of our common shares.

- (1) The number of common shares beneficially owned by each of the listed persons includes common shares that such person has the right to acquire within 60 days after June 26, 2013.
- (2) Percentage of beneficial ownership for each of the persons listed above is determined by dividing (i) the number of common shares beneficially owned by such person by (ii) the total number of common shares outstanding, plus the number of common shares such person has the right to acquire within 60 days after June 26, 2013. The total number of our common shares outstanding as of June 26, 2013 is 46,169,410.
- (3) Includes i) 200,000 common shares held by Kevin Xiaofeng Ma and (ii) 4,998,988 common shares and 223,000 American Depositary Shares (representing 446,000 common shares) held by Able Knight Development Limited, which is a British Virgin Islands company ultimately wholly owned by HSBC International Trustee Limited as trustee of an irrevocable trust constituted under the laws of the Cayman Islands with Kevin Xiaofeng Ma as the settlor and certain family members of Kevin Xiaofeng Ma as the beneficiaries. Kevin Xiaofeng Ma is the sole director of Able Knight Development Limited. The business address of Able Knight Development Limited is Portcullis TrustNet Chambers, P.O. Box 3444, Road Town, Tortola, British Virgin Islands.
- (4) Based on Schedule 13D filed jointly by SB Asia Investment Fund II L.P., SAIF II GP L.P., SAIF Partners II L.P. and SAIF II GP Capital Ltd. on April 26, 2013. Includes 12,707,436 common shares and 1,219,886 ADSs, representing 2,439,772 common shares held by SB Asia Investment Fund II L.P., a Cayman Islands limited partnership. SAIF II GP Capital Ltd. is the sole general partner of SAIF Partners II L.P., which is the sole general partner of SAIF II GP L.P., which is in turn the sole general partner of SB Asia Investment Fund II L.P., which is the record owner of the common shares.
- (5) Based on a Schedule 13G filed by HSBC International Trustee Limited on January 22, 2013. Includes 7,935,924 common shares and 2,873,408 American Depositary Shares (representing 5,746,816 common shares) beneficially held by HSBC International Trustee Limited solely in its capacity as trustee of various trusts. The registered address of HSBC International Trustee Limited is 21 Collyer Quay, #09-01 HSBC Building, Singapore 049320.
- (6) Based on a Schedule 13G filed jointly by Lijun Mai, Mutual Step Holdings Limited, Magnificent Trio Company Limited, Wealth Trust, Art Kind Technology Limited, New Knight Holdings Limited, Sunrise Trust, Art Grace Development Limited, Unique Icon Limited and Value Trust on February 17, 2009. Includes 1,645,000 common shares held by Mutual Step Holdings Limited, 1,600,000 common shares held by Art Kind Technology Limited and 1,600,000 common shares held by Art Grace Development Limited. Each of Mutual Step Holdings Limited, Art Kind Technology Limited and Art Grace Development Limited is a British Virgin Islands company ultimately wholly owned by HSBC International Trustee Limited as trustee of an irrevocable trust constituted under the laws of Cayman Islands with Lijun Mai or certain family members of Lijun Mai as the settlor and beneficiaries. Lijun Mai is the sole director of Mutual Step Holdings Limited. The business address of each of Mutual Step Holdings Limited, Art Kind Technology Limited and Art Grace Development Limited is Portcullis TrustNet Chambers, P.O. Box 3444, Road Town, Tortola, British Virgin Islands.
- (7) Based on a Schedule 13G filed by the Government of Singapore Investment Corporation Pte Ltd on February 6, 2013. According to the Schedule 13G, the Government of Singapore Investment Corporation Pte Ltd shares power to vote and power to dispose of 2,260,534 common shares and the Monetary Authority of Singapore shares the power to vote and the power to dispose of 789,542 common shares.

[Table of Contents](#)

None of our shareholders have different voting rights from other shareholders. To our knowledge, we are not owned or controlled, directly or indirectly, by another corporation, by any foreign government or by any other natural or legal persons, severally or jointly. None of our shareholders has different voting rights from other shareholders. We are not aware of any arrangement that may, at a subsequent date, result in a change of control of our company. See Item 6.B. “Compensation — Share Incentives” for information on options granted to our current directors and executive officers. To our knowledge, as of June 26, 2013, none of our common shares were held by holders of record in the United States. However, 24,691,050 common shares were registered in the name of a nominee of Citibank, N.A., the depositary of our ADSs. It is likely that a large number of beneficial owners of our ADSs reside in the United States.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

A. Major Shareholders

Please refer to Item 6.E, “Directors, Senior Management and Employees — Share Ownership.”

B. Related Party Transactions

Agreements among ATA BVI, ATA Learning and ATA Online

Due to PRC regulatory restrictions on foreign ownership of Internet content businesses in China, we operate the online portion of our test preparation and training solutions business through ATA Online (Beijing) Education Technology Limited, or ATA Online, which is a domestic Chinese company incorporated in the PRC in September 2006 and owned by Kevin Xiaofeng Ma, our co-founder, chairman and chief executive officer and Walter Lin Wang, our co-founder and director, both of whom are PRC citizens. ATA BVI and ATA Learning (Beijing) Inc., or ATA Learning, one of our wholly owned subsidiaries, have entered into a series of contractual arrangements with ATA Online, including an exclusive technical support agreement, a strategic consulting service agreement and a call option and cooperation agreement. These contractual arrangements also include an equity pledge agreement entered into with each of the shareholders of ATA Online. As a result of these contractual arrangements, under U.S. GAAP, we are considered the primary beneficiary of ATA Online. Accordingly, we consolidate ATA Online's results in our consolidated financial statements. See "Item 4.C. "Information on the Company — Organizational Structure — Corporate Structure and Arrangements with Our Affiliated PRC Entity."

The following is a summary of the material provisions of these agreements. For more complete information you should read these agreements in their entirety. Directions on how to obtain copies of these agreements are provided in this annual report under Item 10.H. "Additional Information — Documents on Display."

Technical support agreement, dated October 27, 2006. Under this agreement, ATA Learning provides ATA Online with exclusive technical support services for the maintenance of ATA Online's servers, networks and other equipment, software and systems. In return, ATA Online pays a quarterly service fee to ATA Learning. The service fee is mutually agreed by both parties, and is determined based on certain objective criteria such as the actual services required by ATA Online and the actual labor costs, as determined by the number of days and personnel involved, incurred by ATA Learning for providing the services during the relevant period. In addition, ATA Online reimburses ATA Learning for out of pocket costs ATA Learning incurs in connection with providing the services. The term of this agreement is ten years, automatically renewable for successive one year terms unless ATA Learning notifies ATA Online of its intention not to renew 30 days before the relevant term expires. ATA Online may not terminate this agreement during its term.

68

[Table of Contents](#)

Strategic consulting service agreement, dated October 27, 2006. Under this agreement, ATA Learning provides ATA Online with strategic consulting and related services for ATA Online's business, including (1) valuation of new products; (2) industry investigation and survey; (3) marketing and promotion strategies; and (4) other services related to ATA Online's online test preparation services business. The fees for these services must be confirmed by ATA Learning and will be calculated monthly but paid quarterly based on actual time spent providing the services. In addition, ATA Learning has the right to adjust the fees payable by ATA Online in accordance with its performance. The term of this agreement is 20 years, automatically renewable for successive one year terms unless ATA Learning notifies ATA Online of its intention not to renew 30 days before the relevant term expires. If either party fails to comply with this agreement, it shall indemnify all losses incurred by the other party.

Each party may terminate this agreement if the other party fails to perform its obligations under this agreement or the representations, warranties or covenants of the other party are materially inaccurate or misleading.

Equity pledge agreement, dated October 27, 2006, as amended and restated on February 12, 2007, and as amended on July 7, 2009. To secure the payment obligations of ATA Online under the exclusive technical support agreement and the strategic consulting service agreement described above and provide additional covenants, ATA Online's shareholders have pledged to ATA Learning their entire equity ownership interests in ATA Online. Upon the occurrence of certain events of default specified in this agreement, ATA Learning may bring a suit against ATA Online in a local PRC court to confirm the debt amount and enforce the pledge by foreclosing on the pledged equity interest. Upon foreclosure, the pledged assets would be sold off by the court in a public auction and the proceeds used to satisfy ATA Online's outstanding liabilities under the equity pledge agreement. ATA Learning or its designee can also take part in the auction to bid for the pledged assets itself. As we would not obtain the actual shares of ATA Online upon enforcement of the pledges, the purpose of the equity pledges is not to obtain the equity interest of ATA Online in case of breach of the exclusive technical support agreement and the strategic consulting service agreement, but instead to act as collateral for ATA Online's performance under those agreements. Under the equity pledge agreement, the pledgor may not transfer the pledged equity interest without the pledgee's prior written consent.

Under PRC law, a pledge of equity interest can only be valid after such pledge is registered with the relevant local branch of the State Administration of Industry and Commerce. Only such registration secures our interest in the equity as collateral. The equity pledges under the equity pledge agreement were registered with the relevant local authority, Haidian Branch of Beijing Administration for Industry and Commerce, on April 25, 2012. The equity pledge was registered in an amount of RMB32.0 million, with the amounts secured by Mr. Xiaofeng Ma's and Mr. Lin Wang's equity pledges equaling RMB28.8 million and RMB3.2 million, respectively.

The term of the pledge agreement is the same as the term of the strategic consulting service agreement. The equity pledge agreement will also be binding upon successors of the pledgor and transferees of the pledged equity interest. This agreement may be terminated upon the completion of ATA Online's contractual liabilities under the exclusive technical support agreement and the strategic consulting service agreement as described above. In February 2007, at the direction of the company, Jianguo Wang transferred all of his equity interest in ATA Online to Walter Lin Wang, and the October 2006 agreement was amended and restated to take this transfer into account. In July 2009, the agreement was further amended to incorporate the new investments in the registered capital of ATA Online made by the shareholders of ATA Online as subject to the pledges.

Loans to the Shareholders of ATA Online, dated October 27, 2006, as amended on February 12, 2007 and on July 7, 2009. ATA

BVI entered into loan agreements with each of Kevin Xiaofeng Ma, Walter Lin Wang and Jianguo Wang, the shareholders of ATA Online to extend each of Kevin Xiaofeng Ma, Walter Lin Wang and Jianguo Wang an interest free loan in the amount of RMB0.9 million, RMB50,000 and RMB50,000, respectively, for the sole purpose of investing in ATA Online as ATA Online's registered capital. The initial term of these loans in each case is ten years, which may be extended upon the parties' agreement. Kevin Xiaofeng Ma, Walter Lin Wang and Jianguo Wang can only repay the loans by transferring all of their interest in ATA Online to ATA BVI or to a third party designated by ATA BVI. When Kevin Xiaofeng Ma, Walter Lin Wang and Jianguo Wang transfer their interest in ATA Online to ATA BVI or its designee, if the actual transfer price is higher than the principal amount of the loans, the amount exceeding the principal amount of the loans will be deemed as interest accrued on such loans and repaid by Kevin Xiaofeng Ma, Walter Lin Wang and Jianguo Wang to ATA BVI. ATA BVI also has the right to, but has no obligation to, purchase, or designate a third party to purchase, all or part of their interest in ATA Online at a price equal to the amount of the loans. In February 2007, Jianguo Wang repaid the loan by transferring all of his interest in ATA Online to Walter Lin Wang. As a result, ATA BVI terminated the loan agreement with Jianguo Wang and amended the agreement with Walter Lin Wang to increase the principal of the loan to RMB0.1 million. In July 2009, each of the loan agreements with Kevin Xiaofeng Ma and Walter Lin Wang was further amended by an addendum that ATA BVI would extend an additional loan to each of Kevin Xiaofeng Ma and Walter Lin Wang in the amount of RMB8.1 million and RMB0.9 million, respectively, for the sole purpose of increasing the registered capital of ATA Online.

[Table of Contents](#)

Call option and cooperation agreement, dated October 27, 2006, as amended and restated on February 12, 2007, and as amended on July 7, 2009. Through the call option and cooperation agreement entered into between ATA BVI and ATA Online and its shareholders, ATA BVI or any third party designated by ATA BVI has the right to acquire, in whole or in part, the respective equity interests in ATA Online of its shareholders or ATA Online's assets when permitted by applicable Chinese laws and regulations. The proceeds from the exercise of the call option will be applied to repay the loans under the loan agreement described above. Further, without ATA BVI's prior written consent, ATA Online and its shareholders are prohibited from selling, assigning, mortgaging or otherwise disposing, or creating any encumbrance on, any of ATA Online's assets or operation or any legal or beneficial interests with respect to its revenues, entering into any transaction which may materially affect ATA Online's assets, liability, operations, equity or other legal rights, or distributing any dividend to its shareholders. This agreement has an indefinite term and can only be terminated with the unanimous consent of all parties, except that ATA BVI may terminate this agreement with 30 days prior notice to the other parties. In February 2007, Jianguo Wang transferred all of his equity interest in ATA Online to Walter Lin Wang, and the October 2006 agreement was amended and restated to take this transfer into account. In July 2009, the agreement was further amended to incorporate the new investments in the registered capital of ATA Online made by the shareholders of ATA Online as subject to the call option.

Power of Attorney, dated March 27, 2013 and April 3, 2013. Under these agreements, Walter Lin Wang and Kevin Xiaofeng Ma, each irrevocably and exclusively appoints and constitutes ATA Learning or its designee as his attorney-in-fact to exercise on his behalf any and all rights that he has as the shareholder of ATA Online. The power of attorney for Kevin Xiaofeng Ma and Walter Lin Wang will remain in force as long as the call option and cooperation agreement and the equity pledge agreement are valid.

Shareholders Agreement

In connection with the Shareholders Agreement that we entered into with the shareholders of our Cayman Islands holding company in November 2006, our preferred shareholders are entitled to certain registration rights, including demand registration rights, piggyback registration rights, and Form F-3 or Form S-3 registration rights. Prior to the expiration of these registration rights on March 31, 2013, we entered into a Registration Rights Extension Agreement with SB Asia Investment Fund II L.P. on March 5, 2013, extending its prior registration rights until March 31, 2017.

C. Interests of Experts and Counsel

Not applicable.

ITEM 8. FINANCIAL INFORMATION

A. Consolidated statements and other financial information.

Our consolidated financial statements are included at the end of this annual report.

Legal Proceedings

We are not currently involved in any litigation, arbitration or administrative proceedings that could have a material adverse effect on our financial condition or results of operations. From time to time, we may be subject to various claims and legal actions arising in the ordinary course of business.

Dividend Policy

On August 7, 2012, the Company announced that its Board of Directors declared a special cash dividend of \$0.087 per common share, or \$0.174 per ADS. The total amount of cash distributed in the dividend was \$4.0 million, which was paid from the cash held by ATA Inc. The dividend was paid to all shareholders of record as of the close of business on August 20, 2012.

On June 1, 2011, the Company announced that its Board of Directors has declared a special cash dividend of \$0.215 per common

share, or US\$0.43 per ADS. The total amount of cash distributed in the dividend was \$9.8 million, which will be paid from the cash held by ATA Inc. The dividend was paid to all shareholders of record as of the close of business on June 30, 2011.

Any future determination to pay dividends will be made at the discretion of our board of directors and will be based upon our future operations and earnings, capital requirements and surplus, general financial condition, shareholders' interests, contractual restrictions and other factors our board of directors may deem relevant.

[Table of Contents](#)

Holders of our ADSs will be entitled to receive dividends, if any, subject to the terms of the deposit agreement, to the same extent as the holders of our common shares. Cash dividends will be paid to the depositary in U.S. dollars, which will distribute them to the holders of ADSs according to the terms of the deposit agreement. Other distributions, if any, will be paid by the depositary to the holders of ADSs in any means it deems legal, fair and practical.

Under China's New EIT Law and its Implementation Rules, both of which became effective on January 1, 2008, dividends from our PRC subsidiaries to us may be subject to a 10% withholding tax if such dividends are derived from profits generated after January 1, 2008. If we are deemed to be a PRC resident enterprise, the withholding tax may be exempted, but we will be subject to a 25% tax on our worldwide income, and our non-PRC enterprise investors may be subject to PRC income tax withholding at a rate of 10%. See "Item 3. Key Information — D. Risk Factors — Risks Relating to Regulation of Our Business — Under the New EIT Law, we may be classified as a 'resident enterprise' of China. Such classification will likely result in unfavorable tax consequences to us and U.S. holders of our ADSs or ordinary shares," and "Item 10. Additional Information — E. Taxation — People's Republic of China Taxation."

B. Significant Changes

Except as disclosed elsewhere in this annual report, we have not experienced any significant changes since the date of our audited financial statements included in this report.

ITEM 9. THE OFFER AND LISTING

A. Offering and Listing Details.

Price Range of Our ADSs

Our ADSs are listed for trading on the Nasdaq Global Market under the symbol "ATAI." The following table sets forth the monthly high and low trading prices of our ADSs on the Nasdaq Global Market for the periods indicated:

	<u>High</u>	<u>Low</u>
Yearly Highs and Lows:		
Fiscal year ended March 31, 2010	\$ 12.20	\$ 2.92
Fiscal year ended March 31, 2011	\$ 8.65	\$ 2.72
Fiscal year ended March 31, 2012	\$ 13.09	\$ 5.49
Fiscal year ended March 31, 2013	\$ 7.45	\$ 3.18
Quarterly Highs and Lows:		
Quarter ended June 30, 2011	\$ 13.09	\$ 6.80
Quarter ended September 30, 2011	\$ 11.81	\$ 8.00
Quarter ended December 31, 2011	\$ 10.30	\$ 7.31
Quarter ended March 31, 2012	\$ 7.60	\$ 5.49
Quarter ended June 30, 2012	\$ 7.45	\$ 3.18
Quarter ended September 30, 2012	\$ 5.45	\$ 3.65
Quarter ended December 31, 2012	\$ 6.97	\$ 3.72
Quarter ended March 31, 2013	\$ 6.08	\$ 3.90
Monthly Highs and Lows:		
December 2012	\$ 6.97	\$ 3.72
January 2013	\$ 6.08	\$ 5.45
February 2013	\$ 5.71	\$ 4.03
March 2013	\$ 4.10	\$ 3.90
April 2013	\$ 4.11	\$ 3.95
May 2013	\$ 4.55	\$ 3.96
June 2013 (through June 25, 2013)	\$ 4.50	\$ 4.15

[Table of Contents](#)

On June 25, 2013, the closing sale price of our ADSs as reported on the Nasdaq Global Market was US\$4.21 per ADS.

B. Plan of Distribution

C. Markets

See Item 9.A above.

D. Selling Shareholders

Not applicable.

E. Dilution

Not applicable.

F. Expenses of the Issue

Not applicable.

ITEM 10. ADDITIONAL INFORMATION

A. Share capital

Not applicable.

B. Memorandum and Articles of Association

We incorporate by reference into this annual report the description of our third amended and restated memorandum and articles of association contained in “Description of Share Capital” of our F-1 registration statement (File No. 333-148512) originally filed with the Securities and Exchange Commission on January 8, 2008, as amended.

C. Material Contracts

We have not entered into any material contracts other than in the ordinary course of business and other than those described in Item 4, “Information on the Company,” Item 5, “Operating and Financial Review and Prospects,” Item 7, “Major Shareholders and Related Party Transactions” or elsewhere in this annual report on Form 20-F.

D. Exchange Controls

Regulation of Foreign Exchange

China’s government imposes restrictions on the convertibility of the Renminbi and on the collection and use of foreign currency by Chinese entities. Under current regulations, the Renminbi is convertible for current account transactions, which include dividend distributions, interest payments, and the import and export of goods and services. Conversion of Renminbi into foreign currency and foreign currency into Renminbi for capital account transactions, such as direct investment, portfolio investment and loans, however, is still generally subject to the prior approval of the PRC State Administration of Foreign Exchange, or SAFE.

Under current Chinese regulations, Foreign-Invested Enterprises such as our Chinese subsidiaries are required to apply to SAFE for a Foreign Exchange Registration Certificate for Foreign-Invested Enterprise. With such a foreign exchange registration certificate (which is subject to review and renewal by SAFE on an annual basis), a foreign-invested enterprise may open foreign exchange bank accounts at banks authorized to conduct foreign exchange business by SAFE and may buy, sell and remit foreign exchange through such banks, subject to documentation and approval requirements. Foreign-invested enterprises are required to open and maintain separate foreign exchange accounts for capital account transactions and current account transactions. In addition, there are restrictions on the amount of foreign currency that foreign-invested enterprises may retain in such accounts.

[Table of Contents](#)

The value of the Renminbi against the U.S. dollar and other currencies is affected by, among other things, changes in China’s political and economic conditions and China’s foreign exchange policies. The People’s Bank of China regularly intervenes in the foreign exchange market to limit fluctuations in Renminbi exchange rates and achieve policy goals.

Dividend Distributions

We have adopted a holding company structure, and our holding companies may rely on dividends and other distributions on equity paid by our current and future Chinese subsidiaries for their cash requirements, including the funds necessary to service any debt we may incur or financing we may need for operations other than through our Chinese subsidiaries. Chinese legal restrictions permit payments of

dividends by our Chinese subsidiaries only out of their accumulated after-tax profits, if any, determined in accordance with Chinese accounting standards and regulations. Our Chinese subsidiaries are also required under Chinese laws and regulations to allocate at least 10% of their after-tax profits determined in accordance with PRC GAAP to statutory reserves until such reserves reach 50% of the company's registered capital. Allocations to these statutory reserves and funds can only be used for specific purposes and are not transferable to us in the form of loans, advances or cash dividends. As of March 31, 2013, our Chinese subsidiaries allocated RMB14.9 million (\$2.4 million) to the general reserve fund, which is restricted for distribution to the Company. Any limitations on the ability of our Chinese subsidiaries to transfer funds to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends and otherwise fund and conduct our business.

E. Taxation

The following is a general summary of the material Cayman Islands, U.S. federal and People's Republic of China income tax consequences relevant to an investment in our ADSs and common shares. The discussion is not intended to be, nor should it be construed as, legal or tax advice to any particular prospective purchaser or current holders of our ADSs. The discussion is based on laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change or different interpretations, possibly with retroactive effect. The discussion does not address United States state or local tax laws, or tax laws of jurisdictions other than the Cayman Islands and the United States. You should consult your own tax advisors with respect to the consequences of acquisition, ownership and disposition of our ADSs and common shares.

Cayman Islands Taxation

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciations and there is no taxation in the nature of inheritance tax or estate duty or withholding tax applicable to us or to any holder of ADSs or common shares. There are no other taxes likely to be material to us levied by the Government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or after execution brought within the jurisdiction of the Cayman Islands. No stamp duty is payable in the Cayman Islands on transfers of shares of Cayman Islands companies except those which hold interests in land in the Cayman Islands. The Cayman Islands is not party to any double tax treaties. There are no exchange control regulations or currency restrictions in the Cayman Islands.

Pursuant to Section 6 of the Tax Concessions Law (1999 Revision) of the Cayman Islands, we have obtained an undertaking from the Governor-in-Cabinet:

- that no law which is enacted in the Cayman Islands imposing any tax to be levied on profits or income or gains or appreciations shall apply to the Company or its operations; and
- that the aforesaid tax or any tax in the nature of estate duty or inheritance tax shall not be payable on the shares, debentures or other obligations of the Company.

The undertaking for us is for a period of twenty years from October 3, 2006.

[Table of Contents](#)

People's Republic of China Taxation

In 2007 China passed a new Enterprise Income Tax Law, or the New EIT Law, and its Implementing Rules, both of which became effective on January 1, 2008. The New EIT Law created a new "resident enterprise" classification, which, if applied to us, would impose a 10% withholding tax on our non-PRC enterprise shareholders and potentially 20% to our non-PRC individual shareholders on dividends we pay to them if such dividends are derived from profits generated after January 1, 2008 and with respect to gains derived by our non-PRC shareholders from disposition of our shares or ADSs, if such dividends or gains are determined to have been derived from sources within China. See "Item 3. Key Information — D. Risk Factors — Risks Relating to Regulation of Our Business — Under the New EIT Law, we may be classified as a "resident enterprise" of China. Such classification will likely result in unfavorable tax consequences to us and U.S. holders of our ADSs or ordinary shares."

If we are not deemed as a resident enterprise, then dividends payable to our non-PRC shareholders and gains from disposition of our shares of ADSs by our non-PRC shareholders will not be subject to PRC withholding income tax.

United States Federal Income Taxation

This discussion describes the material U.S. federal income tax consequences to U.S. Holders (as defined below) of the purchase, ownership and disposition of our ADSs or ordinary shares. This discussion does not address any aspect of U.S. federal gift or estate tax, or the state, local or non-U.S. tax consequences of an investment in our ADSs and ordinary shares. This discussion applies to you only if you beneficially own our ADSs or ordinary shares as capital assets for U.S. federal income tax purposes. This discussion does not apply to U.S. Holders who are members of a class of holders subject to special rules, such as:

- dealers in securities or currencies;
- traders in securities that elect to use a mark-to-market method of accounting for securities holdings;

- banks or certain financial institutions;
- insurance companies;
- tax-exempt organizations;
- partnerships or other entities treated as partnerships or other pass-through entities for U.S. federal income tax purposes or persons holding ADSs or ordinary shares through any such entities;
- regulated investments companies or real estate investment trusts;
- persons that hold ADSs or ordinary shares as part of a hedge, straddle, constructive sale, conversion transaction or other integrated investment;
- persons whose functional currency for tax purposes is not the U.S. dollar;
- persons liable for alternative minimum tax; or
- persons who actually or constructively own 10% or more of the total combined voting power of all classes of our shares (including ADSs and ordinary shares) entitled to vote.

This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, which we refer to in this discussion as the Code, its legislative history, existing and proposed regulations promulgated thereunder, published rulings and court decisions, all as of the date hereof. These laws are subject to change, possibly on a retroactive basis. In addition, this discussion relies on our assumptions regarding the value of our ADSs and ordinary shares and the nature of our business over time. Finally, this discussion is based in part upon the representation of the depository and the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms.

[Table of Contents](#)

Prospective purchasers are urged to consult their own tax advisor concerning the particular U.S. federal income tax consequences to them of the purchase, ownership and disposition of our ADSs and ordinary shares, as well as the consequences to them arising under the laws of any other taxing jurisdiction.

For purposes of the U.S. federal income tax discussion below, you are a “U.S. Holder” if you beneficially own ADSs or ordinary shares as capital assets within the meaning of Section 1221 of the Code and are:

- a citizen or resident of the United States for U.S. federal income tax purposes;
- a corporation, or other entity taxable as a corporation, that was created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust if (a) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in effect to be treated as a U.S. person.

For U.S. federal income tax purposes, income earned through a U.S. or non-U.S. partnership or other flow-through entity is attributed to its owners. Accordingly, if a partnership or other flow-through entity holds ADSs or ordinary shares, the tax treatment of the holder will depend on the status of the partner or other owner and the activities of the partnership or other flow-through entity.

The U.S. Treasury has expressed concerns that intermediaries in the chain of ownership between the holder of an ADS and the issuer of the security underlying the ADS may be taking actions that are inconsistent with the claiming of foreign tax credits for U.S. holders of ADSs. Such actions would also be inconsistent with the claiming of the reduced rate of tax, as described below, applicable to dividends received by certain non-corporate holders. Accordingly, the availability of the reduced tax rate for dividends received by certain non-corporate holders could be affected by actions taken by intermediaries in the chain of ownership between the holder of an ADS and our company.

Dividends on ADSs or Ordinary Shares

Subject to the “Passive Foreign Investment Company” discussion below, if we make distributions and you are a U.S. Holder, the gross amount of any distributions with respect to your ADSs or ordinary shares (including the amount of any taxes withheld therefrom) will be includible in your gross income on the day you actually or constructively receive such income as dividend income if the distributions are made from our current or accumulated earnings and profits, calculated according to U.S. federal income tax principles. With respect to non-corporate U.S. holders, certain dividends received from a qualified foreign corporation may be subject to a reduced capital gains rate of taxation. A non-U.S. corporation (other than passive foreign investment corporation) is treated as a qualified foreign corporation with respect

to dividends from that corporation on shares (or ADSs backed by such shares) that are readily tradable on an established securities market in the United States. U.S. Treasury Department guidance indicates that our ADSs, which are listed on the Nasdaq Global Market, but not our ordinary shares, will be readily tradable on an established securities market in the United States. You should consult your own tax advisor as to the rate of tax that will apply to you with respect to dividend distributions, if any, that you receive from us.

Subject to the “Passive Foreign Investment Company” discussion below, to the extent, if any, that the amount of any distribution by us on ADSs or ordinary shares exceeds our current and accumulated earnings and profits as determined under U.S. federal income tax principles, it will be treated first as a tax-free return of the U.S. Holder’s adjusted tax basis in the ADSs or ordinary shares and thereafter as capital gain. However, we do not intend to calculate our earnings and profits according to U.S. federal income tax principles. Accordingly, distributions on our ADSs or ordinary shares, if any, will generally be reported to you as dividend distributions for U.S. tax purposes. Corporations will not be entitled to claim a dividends-received deduction with respect to distributions made by us. Dividends may constitute foreign source passive income for purposes of the U.S. foreign tax credit rules. You should consult your own tax advisors as to your ability, and the various limitations on your ability, to claim foreign tax credits in connection with the receipt of dividends.

Sales and Other Dispositions of ADSs or Ordinary Shares

Subject to the “Passive Foreign Investment Company” discussion below, when you sell or otherwise dispose of ADSs or ordinary shares, you will recognize capital gain or loss in an amount equal to the difference between the amount realized on the sale or other disposition and your adjusted tax basis in the ADSs or ordinary shares. Any such gain or losses that you recognize will be treated as U.S. source income for foreign tax credit purposes. Your adjusted tax basis will equal the amount you paid for the ADSs or ordinary shares. Any gain or loss you recognize will be long-term capital gain or loss if your holding period in our ADSs or ordinary shares is more than one year at the time of disposition. If you are a non-corporate U.S. Holder, including an individual, any such long-term capital gain will be taxed at preferential rates. Your ability to deduct capital losses will be subject to various limitations.

[Table of Contents](#)

Passive Foreign Investment Company

We believe that we were not a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for our taxable year ended March 31, 2013, and we do not expect to be a PFIC in any future taxable year. However, PFIC status is tested each year and depends on the composition of our assets and income and the value of our assets from time to time. Since we currently hold, and expect to continue to hold, a substantial amount of cash and other passive assets and, since the value of our assets is to be determined in large part by reference to the market prices of our ADSs and ordinary shares, which is likely to fluctuate over time, there can be no assurance that we will not be a PFIC for any taxable year.

We will be classified as a PFIC in any taxable year if either: (a) the average quarterly value of our gross assets that produce passive income or are held for the production of passive income is at least 50% of the average quarterly value of our total gross assets or (b) 75% or more of our gross income for the taxable year is passive income (such as certain dividends, interest or royalties). For purposes of the first test: (a) any cash and cash invested in short-term, interest bearing, debt instruments, or bank deposits that are readily convertible into cash will count as producing passive income or held for the production of passive income, and (b) the total value of our assets is calculated based on our market capitalization.

We will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, at least 25% (by value) of the stock.

If we were a PFIC for any taxable year during which you held ADSs or ordinary shares, certain adverse U.S. federal income tax rules would apply. You would be subject to additional taxes and interest charges on certain “excess distributions” we make and on any gain realized on the disposition or deemed disposition of your ADSs or ordinary shares, regardless of whether we continue to be a PFIC in the year in which you receive an “excess distribution” or dispose of or are deemed to dispose of your ADSs or ordinary shares. Distributions in respect of your ADSs or ordinary shares during a taxable year would constitute “excess distributions” if, in the aggregate, they exceed 125% of the average amount of distributions with respect to your ADSs or ordinary shares over the three preceding taxable years or, if shorter, the portion of your holding period before such taxable year.

To compute the tax on “excess distributions” or any gain, (a) the “excess distribution” or the gain would be allocated ratably to each day in your holding period, (b) the amount allocated to the current year and any tax year prior to the first taxable year in which we were a PFIC would be taxed as ordinary income in the current year, (c) the amount allocated to other taxable years would be taxable at the highest applicable marginal rate in effect for that year, and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year. In addition, if we were a PFIC, no distribution that you receive from us would qualify for taxation at the preferential rate discussed in the “—Dividends on ADSs or Ordinary Shares” section above.

Under certain attribution rules, if we are a PFIC, you will be deemed to own your proportionate share of lower-tier PFICs, and will be subject to U.S. federal income tax on (a) a distribution on the shares of a lower-tier PFIC and (b) a disposition of shares of a lower-tier PFIC, both as if you directly held the shares of such lower-tier PFIC.

Each U.S. Holder of a PFIC is required to file an annual report containing such information as the U.S. Treasury may require and may be required to file Internal Revenue Service Form 8621 regarding distributions received on the ADSs or ordinary shares and any gain realized on the disposition of the ADSs or ordinary shares. You should consult with your own tax advisor regarding reporting requirements with regard to your ADSs and ordinary shares.

If we were a PFIC in any year, you would generally be able to avoid the “excess distribution” rules described above by making a timely so-called “mark-to-market” election with respect to your ADSs provided our ADSs are “marketable.” Our ADSs will be “marketable” as long as they remain regularly traded on a national securities exchange, such as the Nasdaq Global Market. If you made this election in a timely fashion, you would recognize as ordinary income or ordinary loss the difference between the fair market value of the ADSs as of the close of your taxable year over your adjusted basis in such ADSs. Any ordinary income resulting from this election would be taxed at ordinary income rates and would not be eligible for the reduced rate of tax applicable to qualified dividend income. Any ordinary losses would be limited to the extent of the net amount of previously included income as a result of the mark-to-market election, if any. Your basis in the ADSs would be adjusted to reflect any such income or loss. You should consult your own tax advisor regarding potential advantages and disadvantages to you of making a “mark-to-market” election with respect to your ADSs. The mark-to-market election will not be available for any lower tier PFIC that is deemed owned pursuant to the attribution rules discussed above. We do not intend to provide you with the information you would need to make or maintain a “Qualified Electing Fund” election and therefore, you will not be able to make or maintain such an election with respect to your ADSs or ordinary shares.

[Table of Contents](#)

U.S. Information Reporting and Backup Withholding Rules

Dividend payments with respect to the ADSs or ordinary shares and the proceeds received on the sale or other disposition of ADSs or ordinary shares may be subject to information reporting to the IRS and to backup. Backup withholding will not apply, however, if you (a) are a corporation or come within certain other exempt categories and, when required, can demonstrate that fact or (b) provide a taxpayer identification number, certify as to no loss of exemption from backup withholding and otherwise comply with the applicable backup withholding rules. To establish your status as an exempt person, you will be required to provide certification on IRS Form W-9. Backup withholding is not an additional tax. The amount of any backup withholding will generally be allowed as a refund or a credit against your U.S. federal income tax liability, provided that you furnish the required information to the IRS. Certain individuals holding the ADSs or ordinary shares other than in an account at a U.S. financial institution may be subject to additional information reporting requirements.

PROSPECTIVE PURCHASERS OF OUR ADSS AND ORDINARY SHARES SHOULD CONSULT THEIR OWN TAX ADVISOR REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES RESULTING FROM PURCHASING, HOLDING OR DISPOSING OF OUR ADSS AND ORDINARY SHARES, INCLUDING THE APPLICABILITY AND EFFECT OF THE TAX LAWS OF ANY STATE, LOCAL OR NON-US JURISDICTION AND INCLUDING ESTATE, GIFT AND INHERITANCE LAWS.

H. Documents on Display

We previously filed with the Securities and Exchange Commission our registration statement on Form F-1 as amended.

We have filed this annual report on Form 20-F with the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended. Statements made in this annual report as to the contents of any document referred to are not necessarily complete. With respect to each such document filed as an exhibit to this annual report, reference is made to the exhibit for a more complete description of the matter involved, and each such statement shall be deemed qualified in its entirety by such reference.

We are subject to the informational requirements of the Exchange Act and file reports and other information with the Securities and Exchange Commission. Reports and other information which the Company filed with the Securities and Exchange Commission, including this annual report on Form 20-F, may be inspected and copied at the public reference room of the Securities and Exchange Commission at 100 F Street, N.E. Washington D.C. 20549.

You can also obtain copies of this annual report on Form 20-F by mail from the Public Reference Section of the Securities and Exchange Commission, 100 F Street, N.E., Washington D.C. 20549, at prescribed rates. Additionally, copies of this material may be obtained from the Securities and Exchange Commission’s Internet site at <http://www.sec.gov>. The Commission’s telephone number is 1-800-SEC-0330.

[Table of Contents](#)

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

Our exposure to interest rate risk primarily relates to interest income generated by excess cash, which is mostly held in interest-bearing bank deposits. We have not used derivative financial instruments in our investment portfolio. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed, nor do we anticipate being exposed, to material risks due to changes in market interest rates. However, our future interest income may fall short of expectations due to changes in market interest rates.

Foreign Currency Risk

Because substantially all of our revenues and expenditures are denominated in Renminbi, fluctuations in the exchange rate between the U.S. dollar and Renminbi will affect our balance sheet and earnings per share in U.S. dollars. In addition, appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar would affect our financial results reported in U.S. dollar terms without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividend we issue that will be exchanged into U.S. dollars and earnings from and the value of any U.S. dollar-denominated investments we make in the future.

The value of the Renminbi against the U.S. dollar and other currencies is affected by, among other things, changes in China's political and economic conditions and China's foreign exchange policies. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the Renminbi to the U.S. dollar. However, the People's Bank of China regularly intervenes in the foreign exchange market to limit fluctuations in Renminbi exchange rates and achieve policy goals. Following the removal of the U.S. dollar peg, the Renminbi appreciated more than 20% against the U.S. dollar over the following three years. Since reaching a high against the U.S. dollar in July 2008, however, the Renminbi has traded within a narrow range against the U.S. dollar. On June 19, 2010, the People's Bank of China announced the removal of the de facto peg. Following this announcement, the Renminbi has appreciated modestly, from 6.7968 Renminbi per U.S. dollar on June 21, 2010 to 6.1328 Renminbi per U.S. dollar on June 21, 2013.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedging transactions may be limited and we may not be able to successfully hedge our exposure at all. In addition, our currency exchange losses may be magnified by Chinese exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

ATA Inc. and ATA BVI's functional currency is the U.S. dollar, which resulted in our exposure to foreign currency exchange risk. Primarily as a result of the appreciation of the Renminbi against the U.S. dollar, the translation of the net assets of ATA Inc. and ATA BVI to Renminbi during consolidation resulted in translation loss of RMB0.4 million (\$60,338) which we recognized as a component of comprehensive loss as of March 31, 2013. If the Renminbi against U.S. dollar as of March 31, 2013 had further appreciated by 10% from 6.2689 to 5.6990 as of March 31, 2013, the translation loss would have increased by RMB3.0 million (\$0.5 million). Further, we recognized a net foreign currency exchange gain of RMB77,240 (\$12,436) as a result of the remeasurement of the foreign currency denominated monetary assets and liabilities. If the Renminbi against U.S. dollar as of March 31, 2013 had further appreciated by 10% from 6.2689 to 5.6990 as of March 31, 2013, the foreign currency exchange gain would have increased by RMB1.4 million (\$0.2 million).

Inflation

China has generally not experienced significant inflation in recent years. According to China's National Bureau of Statistics, the change in China's consumer price index was 3.3%, 5.4% and 2.6% in the years 2010, 2011 and 2012, respectively. In April 2013, the year-over-year change in China's consumer price index was 2.4%. Neither inflation nor deflation has had a material impact on our results of operations to date, and we do not currently expect the recent inflation in China to have a significant effect on our operations.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

A. Debt Securities

Not applicable.

B. Warrants and Rights

Not applicable.

C. Other Securities

Not applicable.

D. American Depositary Shares

Fees Payable by ADS Holders

Citibank, N.A., the depository of our ADR program, collects its fees for issuance and cancellation of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. Such fees are typically paid to the depository by the brokers (on behalf of their clients) receiving the newly issued ADSs from the depository and by the brokers (on behalf of their clients) delivering the ADSs to the depository for cancellation. The brokers in turn charge these transaction fees to their clients. Depository fees payable in connection with distributions of cash or securities to ADS holders and the depository service fee are charged by the depository to the holders of record of ADSs as of the applicable ADS record date. In the case of cash distributions, the depository fees are generally deducted from the cash being distributed. In the case of distributions other than cash (e.g., stock dividends, rights, etc.), the depository charges the applicable fee to the ADS record date holders concurrent with the distribution. In the case of ADSs registered in the name of the investor (whether certificated or in DRS), the depository sends invoices to the applicable record date ADS holders. In the case of ADSs held in brokerage and custodian accounts (via DTC), the depository generally collects its fees through the settlement systems provided by DTC (whose nominee is the registered holder of the ADSs held in DTC) from the brokers and custodians holding ADSs in their DTC accounts. The brokers and custodians who hold their clients' ADSs in DTC accounts in turn charge their clients' accounts the amount of the fees paid to the depository.

In the event of refusal to pay the depository fees the depository may, under the terms of the deposit agreement, refuse the requested service until payment is received or may set off the amount of the depository fees from any distribution to be made to the ADS holder.

An ADS holder is required to pay the following service fees to the depository:

<u>Service</u>	<u>Fees</u>
• Issuance of ADSs	US\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs) issued
• Cancellation of ADSs	US\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs) issued
• Distribution of cash dividends or other cash distributions	US\$2.00 (or less) per 100 ADSs (or portion of 100 ADSs) issued
• Distribution of ADSs pursuant to stock dividends, free stock distributions or exercise of rights	US\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs) issued
• Distribution of securities other than ADSs or rights to purchase additional ADSs	US\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs) issued
• Depository services	US\$2.00 (or less) per 100 ADSs (or portion of 100 ADSs) issued

An ADS holder will also be responsible to pay certain fees and expenses incurred by the depository bank and certain taxes and governmental charges such as:

[Table of Contents](#)

- taxes (including applicable interest and penalties) and other governmental charges;
- such registration fees as may from time to time be in effect for the registration of shares or other deposited securities on the share register and applicable to transfers of shares or other deposited securities to or from the name of the custodian, the depository or any nominees upon the making of deposits and withdrawals, respectively;
- such cable, telex and facsimile transmission and delivery expenses as are expressly provided in the deposit agreement to be at the expense of the person depositing or withdrawing shares or holders and beneficial owners of ADSs;
- the expenses and charges incurred by the depository in the conversion of foreign currency;
- such fees and expenses as are incurred by the depository in connection with compliance with exchange control regulations and other regulatory requirements applicable to shares, deposited Securities, ADSs and ADRs; and
- the fees and expenses incurred by the depository, the custodian, or any nominee in connection with the servicing or delivery of deposited securities. The fees and charges an ADS holder may be required to pay may vary over time and may be changed by us and by the depository bank. ADS holders will receive prior notice of such changes.

Fees and Other Payments Made by the Depository to Us

As of March 31, 2012, we had received from our depository a reimbursement of \$0.8 million for professional expenses incurred in connection with the advancement of our ADR and investor relations programs. We did not receive any direct reimbursement from our depository in the fiscal year ended March 31, 2013.

PART II.

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

The rights of securities holders have not been materially modified.

ITEM 15. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this annual report, an evaluation has been carried out under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Based on that evaluation, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures are effective in ensuring that material information required to be disclosed in this annual report is recorded, processed, summarized and reported to them for assessment, and required disclosure is made within the time period specified in the rules and forms of the Securities and Exchange Commission.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended, for our company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements in accordance with generally accepted accounting principles and includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of a company's assets, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that a company's receipts and expenditures are being made only in accordance with authorizations of a company's management and directors, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of a company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, a system of internal control over financial reporting can provide only reasonable assurance with respect to consolidated financial statement preparation and presentation and may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As required by Section 404 of the Sarbanes-Oxley Act of 2002 and related rules as promulgated by the Securities and Exchange Commission, management assessed the effectiveness of our internal control over financial reporting as of March 31, 2013 using criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on this assessment, management concluded that the internal control over financial reporting was effective as of March 31, 2013 based on the criteria established in this Internal Control-Integrated Framework.

KPMG, an independent registered public accounting firm, has audited the effectiveness of our internal control over financial reporting as of March 31, 2013, as stated in their report which is included below.

[Table of Contents](#)

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
ATA Inc.:

We have audited ATA Inc.'s internal control over financial reporting as of March 31, 2013, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). ATA Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on ATA Inc.'s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, ATA Inc. maintained, in all material respects, effective internal control over financial reporting as of March 31, 2013, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of ATA Inc. and subsidiaries as of March 31, 2013 and 2012, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended March 31, 2013, and our report dated June 26, 2013 expressed an unqualified opinion on those consolidated financial statements.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the period covered by this annual report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16. RESERVED

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our audit committee consists of Hope Ni and Alec Tsui. Hope Ni is the chairman of our audit committee. Our board of directors has determined that Hope Ni and Alec Tsui are "independent directors" within the meaning of Nasdaq Stock Market Rule 5605(a)(2) and meet the criteria for independence set forth in Rule 10A-3(b) of the Exchange Act. Hope Ni meets the criteria of an audit committee financial expert as set forth under the applicable rules of the SEC.

[Table of Contents](#)

ITEM 16B. CODE OF ETHICS

Our board of directors has adopted a code of ethics that is applicable to our senior executive and financial officers. In addition, our board of directors adopted a code of conduct that is applicable to all of our directors, officers and employees. Our code of ethics and our code of conduct are publicly available on our web site, <http://www.ata.net.cn>.

ITEM 16C. PRINCIPAL ACCOUNTANT FEE AND SERVICES

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by KPMG, our principal accountant, for the periods indicated.

	For the fiscal year ended March 31,		
	2012	2013	2013
	RMB	RMB	US\$
Audit fees ⁽¹⁾	5,221,224	4,353,195	700,907
Audit-related fees ⁽²⁾	1,553,816	1,841,279	296,464

Tax fees ⁽³⁾	274,241	289,315	46,583
-------------------------	---------	---------	--------

- (1) “Audit fees” means the aggregate fees billed or payable for professional services rendered by our principal accountant for the audit of our consolidated financial statements.
- (2) “Audit-related fees” means the aggregate fees billed or payable for assurance and related services by our principal accountant that are reasonably related to the performance of the audit or review of our consolidated financial statements and are not reported under “Audit fees.” Services comprising the fees disclosed under the category of “Audit-related fees” in the fiscal years ended March 31, 2012 and 2013 involve principally the agreed-upon procedures in connection with our quarterly financial information.
- (3) “Tax fees” means the aggregate fees billed or payable for services rendered by our principal accountant for tax compliance and tax advice.

The audit committee or our board of directors is to pre-approve all auditing services and permitted non-audit services to be performed for us by our independent registered public accounting firm, including the fees and terms thereof (subject to the de minimis exceptions for non-audit services described in Section 10A(i)(I)(B) of the Exchange Act which are approved by the audit committee or our board of directors prior to the completion of the audit).

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

None.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

Period	(a) Total Number of ADSs Purchased	(b) Average Price Paid per ADS ⁽¹⁾	(c) Total Number of ADSs Purchased as Part of Publicly Announced Plan	(d) Maximum Approximate Dollar Value of ADSs that May Yet Be Purchased Under the Plan ^{(1), (2)}
December 1 — December 31, 2012		\$3.9477		\$4,968,276
	8,036	(RMB24.5184)	8,036	(RMB30,856,969)
March 1 — March 31, 2013		\$3.9989		\$4,947,546
	5,184	(RMB24.8364)	13,220	(RMB30,728,219)

(1) All translations from U.S. dollar to Renminbi were made at a rate of RMB6.2108 to US\$1.00, which was the noon buying rate in effect as of March 29, 2013.

(2) On November 1, 2012, we announced a share repurchase plan. Under the plan, we are approved to repurchase up to US\$5.0 million worth of our outstanding ADSs from time to time through March 31, 2013. On January 31, 2013, the Company’s board of director reviewed and approved the continuation of the share repurchase program through May 31, 2013.

Other than shown in the table above, there were no other repurchases during the fiscal year ended March 31, 2013.

ITEM 16F. CHANGE IN REGISTRANT’S CERTIFYING ACCOUNTANT

Not applicable.

ITEM 16G. CORPORATE GOVERNANCE

As a foreign private issuer with shares listed on the Nasdaq Global Market we are subject to corporate governance requirements imposed by Nasdaq. Under Nasdaq Stock Market Rule 5615(a)(3), a foreign private issuer such as us may follow its home-country corporate governance practices in lieu of certain of the Nasdaq Stock Market Rules corporate governance requirements. We are committed to a high standard of corporate governance. As such, we strive to comply with most of the Nasdaq corporate governance practices. However, our current corporate governance practices differ from Nasdaq corporate governance requirements for U.S. companies in certain respects, as summarized below:

[Table of Contents](#)

- Nasdaq Stock Market Rule 5605(c)(2) requires a Nasdaq-listed company to have an audit committee composed of at least three independent members. In this regard we have elected to adopt the practices of our home country, the Cayman Islands, which does not require us to have a three member audit committee or to fill all three seats on the audit committee at this time.
- Nasdaq Stock Market Rule 5605(e)(1) requires a Nasdaq-listed company to have a nominations committee composed solely of independent directors to select or recommend for selection director nominees. In this regard we have elected to adopt the practices of our home country, the Cayman Islands, which does not require that any of the members of a company’s nominations committee be

independent directors.

- Nasdaq Stock Market Rule 5635(c) requires a Nasdaq-listed company to obtain shareholder approval for the establishment of or material amendments to equity compensation plans. As a foreign private issuer, however, we may adopt the practices of our home country, the Cayman Island, which do not require shareholder approval for establishment or material amendments to equity compensation plans. Neither the 2005 Plan nor the 2008 Plan require shareholder approval for material amendments to the plan or awards granted under the plan, including without limitation increasing the number of share awards that may be issued under the plan or the repricing of outstanding options.

ITEM 16H. MINE SAFETY DISCLOSURE

Not applicable.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
ATA Inc.:

We have audited the accompanying consolidated balance sheets of ATA Inc. and subsidiaries as of March 31, 2013 and 2012, and the related consolidated statements of comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended March 31, 2013. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of ATA Inc. and subsidiaries as of March 31, 2013 and 2012, and the results of their operations and their cash flows for each of the years in the

three-year period ended March 31, 2013, in conformity with U.S. generally accepted accounting principles.

The accompanying consolidated financial statements as of and for the year ended March 31, 2013 have been translated into United States dollars solely for the convenience of the reader. We have audited the translation and, in our opinion, the consolidated financial statements expressed in Renminbi have been translated into dollars on the basis set forth in Note 2(d) of the notes to the consolidated financial statements.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), ATA Inc.'s internal control over financial reporting as of March 31, 2013, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated June 26, 2013 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

ATA INC.
Notes to the Consolidated Financial Statements

(1) DESCRIPTION OF BUSINESS, ORGANIZATION AND SIGNIFICANT CONCENTRATIONS AND RISKS

Description of Business and Organization

ATA Inc. (the “Company”), through its wholly-owned subsidiaries, ATA Testing Authority (Holdings) Limited (“ATA BVI”), ATA Testing Authority (Beijing) Limited (“ATA Testing”), Beijing JinDiXin Software Technology Limited (“Beijing JDX”), ATA Learning (Beijing) Inc. (“ATA Learning”), and its consolidated variable interest entity (“VIE”), ATA Online (Beijing) Education Technology Limited (“ATA Online”) (collectively, referred to as the “Group”), provides computer-based testing services, test-based educational services, test preparation and training solutions and other related services in the People’s Republic of China (the “PRC”).

Significant Concentrations and Risks

The Group is subject to the following significant concentration and risks:

Country risk

The Group is subject to special risks associated with the PRC. These include risks associated with, among others, the political, economic, legal and social environment in the PRC, including the relative difficulty of protecting and enforcing intellectual property rights in the PRC. The interpretation and application of current or proposed requirements and regulations may have an adverse effect on the Group’s business, financial condition and results of operations. In addition, the ability to negotiate and implement specific business development projects in a timely and favorable manner may be impacted by political considerations unrelated to or beyond the control of the Group. Although the PRC government has been pursuing economic reform policies for almost three decades, no assurance can be given that the PRC government will continue to pursue such policies or that such policies may not be significantly altered. Any change in PRC government policies and regulations affecting the education and testing service industry may have a negative impact on the Group’s operating results and financial condition.

F-8

ATA INC.
Notes to the Consolidated Financial Statements (Continued)

Revenue concentration

For the years ended March 31, 2011, 2012 and 2013, RMB209.3 million, RMB240.7 million and RMB246.9 million, representing 68.9%, 68.4% and 67.3% of the Group's net revenues, respectively, were generated from service fees from Chinese government controlled entities including governmental agencies, educational institutions and industry associations controlled by the PRC government. The demand for the Group's products and services by these agencies, institutions and associations are affected by government budgetary cycles, funding availability and government policies. Funding reductions, reallocations or delays could adversely impact demand for the Group's products and services or reduce the fees these customers are willing to pay for the Group's products and services.

Net revenues from customers that individually exceeded 10% of the Group's net revenues are as follows:

	Year Ended March 31,					
	2011		2012		2013	
	RMB	%	RMB	%	RMB	%
Securities Association of China	115,742,065	38.1%	131,404,013	37.3%	84,244,267	23.0%
China Banking Association	51,681,348	17.0%	36,971,719	10.5%	60,573,979	16.5%
The Chinese Institute of Certified Public Accountants	—	—	—	—	54,255,662	14.8%

Accounts receivable, net from customers, that individually exceeded 10% of the Group's accounts receivable are as follows:

	March 31,			
	2012		2013	
	RMB	%	RMB	%
Securities Association of China	25,579,897	31.3%	19,643,518	38.4%
China Customs Education and Training Center	9,863,856	12.1%	7,927,308	15.5%

Concentration of cash balances held at financial institutions

Cash balances include deposits in:

	March 31,	
	2012	2013
	RMB	RMB
Financial institutions in the mainland of the PRC		
— Denominated in Renminbi ("RMB")	208,631,163	248,284,360
— Denominated in United States Dollars ("USD")	719	719
Total cash balances held at mainland PRC financial institutions	208,631,882	248,285,079
Financial institutions in HKSAR of the PRC		
— Denominated in RMB	45,917,908	16,662,994
— Denominated in Hong Kong Dollar	437,435	3,172,392
— Denominated in USD	2,177,482	21,909,250
Total cash balances held at HKSAR financial institutions	48,532,825	41,744,636
Total cash balances held at financial institutions	257,164,707	290,029,715

Management believes these financial institutions have high credit ratings. Cash denominated in currencies other than functional currency is subject to foreign currency risk due to the appreciation or depreciation of the RMB under the current exchange rate regime in the PRC and Hong Kong Special Administrative Region ("HKSAR").

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Principles of consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries and its VIE for which the Group is the primary beneficiary. All significant intercompany balances and transactions have been eliminated upon consolidation.

(b) Basis of presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

(c) *Use of estimates*

The preparation of financial statements in conformity with U.S. GAAP requires management of the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates include the determination of primary beneficiary of VIE, the fair values of share-based payments, the collectibility of accounts receivable, the realizability of deferred income tax assets, the useful lives and residual values of long-lived assets, the recoverability of the carrying values of long-lived assets and goodwill, realizable value of inventories and with respect to revenue recognition, the expected service period for course programs and the expected licensing period for perpetual license. Actual results could differ from those estimates.

F-10

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(d) *Foreign currency translation and risks*

The accompanying consolidated financial statements have been expressed in RMB, the Company's reporting currency.

The Company and ATA BVI's functional currency is the USD. The functional currency of the Company's PRC subsidiaries and VIE is the RMB.

Transactions denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the applicable exchange rates at the balance sheet dates. The resulting foreign exchange gains and losses are included in the consolidated statements of comprehensive income in the line item "Foreign currency exchange gains, net."

Assets and liabilities of the Company and ATA BVI are translated into RMB using the applicable exchange rate at each balance sheet date. Revenues and expenses are translated into RMB at average rates prevailing during the year. The resulting foreign currency translation adjustments are recognized as a separate component of accumulated other comprehensive losses within equity.

For the convenience of the readers, the 2013 RMB amounts included in the accompanying consolidated financial statements have been translated into USD at the rate of USD1.00 = RMB6.2108, the noon buying rate in New York cable transfers of RMB per USD as set forth in the H.10 weekly statistical release of Federal Reserve Board, as of March 31, 2013. No representation is made that the RMB amounts could have been, or could be, converted into USD at that rate or at any other rate on March 31, 2013.

(e) *Commitments and contingencies*

In the normal course of business, the Group is subject to contingencies, such as legal proceedings and claims that cover a wide range of matters. Liabilities for such contingencies are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

(f) *Fair value measurements*

The Group utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The Group determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market. When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.
- Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

The Group did not have any nonfinancial assets and liabilities that are measured at fair value on a nonrecurring basis as of March 31, 2012 and 2013.

The Company's financial instruments consist of cash, accounts receivable, advances to third parties, employees and suppliers, which are included in the prepaid expenses and other current assets, other assets excluding deferred income tax assets, and accrued expenses and other payables, all of which have a carrying amount that approximate fair value because of the short maturity of these instruments.

F-11

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(g) Revenue recognition

The Group's revenues are principally derived from the provision of testing services, test-based educational services and test preparation solutions. The Group recognizes revenues when all of the following have occurred:

- persuasive evidence of an agreement with the customer exists;
- services have been performed and/or delivery of goods has occurred;
- the fees for services performed and/or price of goods sold are fixed or determinable; and
- collectibility of the fees and/or sales proceeds is reasonably assured.

The application of the above criteria for revenue recognition for each type of service or product is as follows:

i) Testing services

Fees for testing services are recognized upon the completion of the exam by the test taker since the Group has no significant future involvement after the completion of the examination. Fees received in advance of test delivery are recorded as deferred revenue.

F-12

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

ii) Test preparation and training solutions

The Group derives test preparation and training solutions revenues from online test preparation and training service and online training platform development and maintenance service.

a) Online test preparation and training service fees

The Group sells online training to end users directly or through distributors on a consignment basis. The online training entitles end users to access online test preparation and training services during a specified service period, which normally ranges between 90 to 365 days from activation.

Online training revenue is recognized on a straight-line basis over the service period commencing at the point of time the online training is activated. If the online training sold to end users is not activated before the expiration date, related online service revenue is recognized on the expiration date. For online training granted with fixed online hours, the Group compares the revenue recognized to the actual completion status, and makes any revenue adjustments to reflect the actual completion status.

The Group is not contractually obligated to accept, nor has the Group historically accepted, returns from end users.

b) Online training platform development and maintenance service fees

The Group develops online training platform based on customer's requirements and provides maintenance services during the contract period. The online training platform enables end users to participate online training courses.

Fees from online training platform development and maintenance service are recognized, when the platform has been delivered, collectibility is reasonably assured, and on a straight-line basis over the contractual period.

iii) Other revenue

a) Test-based educational services

Fees from educational institutions for degree major course programs are recognized, when collectibility is reasonably assured, on a straight-line basis over the contractual period, which typically starts in the month of September and ends in the month of June or August of the following year, or 10 to 12 months.

Fees from educational institutions for single course programs are recognized on a straight-line basis over the expected service period or the contractual period, whichever is longer. At the end of each reporting period upon the closing of the Group's

financial records, the Group compares the revenue recognized at the onset of the contracts to the actual completion status of each contract, on a contract by contract basis, and makes any revenue adjustments to reflect the actual completion status.

Fees are not refundable if the student fails to complete one or more of the courses or the entire degree major course programs or fails any of the exams.

b) Licensing fees from authorized test centers

The Group receives a fixed fee for a perpetual license or an initial fee plus continuing annual fees for renewable annual licenses that provide authorized test centers the right to use the Group's brand name and E-testing platform.

The Group is obligated to provide ongoing technical support and unspecific system upgrades; and to provide training to authorized test centers' staff. Initial fees for renewable annual license and fixed fees for perpetual licenses are recognized on a straight-line basis over the expected licensing period of 10 years, which is the period the Group is expected to have continuing involvement with the authorized test centers. Management estimates the expected licensing period based on its historical retention experience, factoring in the expected level of future competition, the risk of technological obsolescence, technological innovation, and the expected changes in the education training environment.

F-13

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

c) Test development services

Test development service fees are recognized upon the acceptance of the developed tests by the customer. The period to develop the tests is short, generally within two to six months from commencement of development.

d) Test administration software products

Test administration software products sales are recognized upon delivery and when collectibility is reasonably assured.

iv) Business tax and value added tax ("VAT")

Prior to September 1, 2012, revenue is recorded, net of business tax. Business tax is levied on the Group's service-related revenues generated in the PRC at 5%.

From September 1, 2012, pursuant to the new PRC tax law, the Company's business is subject to VAT instead of business tax. From September 1, 2012, revenue is recorded, net of VAT. VAT collected from customers, net of VAT paid for purchases, is recorded as a liability in the balance sheet until it is paid to the tax authorities. VAT is levied on the Group's service-related revenues generated in the PRC at 6%.

(h) Cost of revenues

Cost of revenues consists primarily of cost of test monitoring, royalty fees for IT vendors and test sponsor licensing arrangements, cost of inventories, payroll compensation, technical support, and other related costs, which are directly attributable to the rendering of services and delivery of goods.

The test monitoring costs are recognized upon completion of examinations based on actual number of test takers. Royalty fees are recognized as cost of revenues based on actual usage according to contract provisions.

The test monitoring costs and royalty fees for the years ended March 31, 2011, 2012 and 2013 are as follows:

	Year Ended March 31,		
	2011	2012	2013
	RMB	RMB	RMB
Test monitoring costs	85,375,463	88,232,358	129,127,028
Royalty fees	17,561,272	22,032,654	15,594,990

(i) Research and development costs

Research and development costs primarily consist of software developed for internal use and software developed for sale.

i) Software developed for internal use

The Group expenses all costs that are incurred in connection with the planning and implementation phases of the development of software. Costs incurred in the development phase are capitalized and amortized over the estimated product life. No costs were capitalized for any of the periods presented.

[Table of Contents](#)**ATA INC.**

Notes to the Consolidated Financial Statements (Continued)

ii) Software developed for sale

Costs incurred internally in researching and developing a computer software product are charged to expense as research and development costs prior to technological feasibility being established for the product. Once technological feasibility is established, all computer software costs are capitalized until the product is available for general release to customers. Technological feasibility is established upon completion of all the activities that are necessary to substantiate that the computer software product can be produced in accordance with its design specifications, including functions, features, and technical performance requirements. No costs were capitalized for any of periods presented.

(j) Income taxes

Income taxes are accounted for under the asset and liability method. Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax loss carryforwards. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in tax rates or tax status is recognized in income in the period that includes the enactment date or the date of change in tax status. A valuation allowance is provided to reduce the amount of deferred income tax assets if it is considered more likely than not that some portion or all of the deferred income tax assets will not be realized.

The Group recognizes in the consolidated financial statements the impact of a tax position, if that position is more likely than not of being sustained upon examination, based on the technical merits of the position. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

The Group's accounting policy is to accrue interest and penalties related to unrecognized tax benefits, if and when required, as interest expense and a component of general and administrative expenses, respectively in the consolidated statements of comprehensive income.

(k) Share-based payment

The Group measures the cost of employee share options or similar equity instruments based on the grant date fair value of the award and recognizes that cost over the period during which an employee is required to provide services in exchange for the award, which generally is the vesting period. When no future services are required to be performed by the employee in exchange for an award of equity instruments, and if such award does not contain a performance or market condition, the cost of the award is expensed on the grant date. When there is a modification of the terms and conditions of an award of equity instruments, the Company measures the pre-modification and post-modification fair value of the equity instruments as of the modification date and recognizes the incremental value as compensation cost over the remaining service period.

When there is a change in the grantee status from an employee to a non-employee, if grantee retains the awards on a change in status and continues to provide substantive services to the Group, the change in status results in a new measurement date for the unvested awards with compensation costs measured as if the awards were newly issued to the grantee on the date of the change in status. If grantee retains the awards on a change in status and is not required to provide substantive services to the grantor subsequent to that change in status, the change in status is, in substance, an acceleration of the vesting of the arrangement.

[Table of Contents](#)**ATA INC.**

Notes to the Consolidated Financial Statements (Continued)

(l) Cash

Cash consists of cash on hand and cash in banks. None of the Group's cash is restricted from withdrawal.

(m) Accounts receivable

Accounts receivable include amounts billed at the invoiced amount.

The allowance for doubtful accounts is the management's best estimate of the amount of probable credit losses resulting from the inability of the Group's customers to make required payments. The allowance for doubtful accounts is based on a review of specifically identified accounts, aging data and historical collection pattern. Account balances are charged off against the allowance after all means of

collection have been exhausted and the potential for recovery is considered remote. The Group does not have any off-balance-sheet credit exposure related to its customers.

(n) Inventories

Inventories include textbooks, exam papers and low value consumables. Inventories are stated at the lower of cost or market value. Cost is determined using the first-in, first-out method. Adjustments are recorded to write down the carrying amount of any obsolete and excess inventory to its estimated net realizable value based on historical and forecasted demand. Provisions to write-down the carrying amount of obsolete inventory to its estimated net realizable value amounted to of RMB2,033,211, RMB nil and RMB nil for the years ended March 31, 2011, 2012 and 2013, respectively, and were recorded as cost of revenues in the consolidated statements of comprehensive income.

(o) Property and equipment, net

Property and equipment is stated at historical cost.

Depreciation is recognized over the following useful lives on the straight-line method, taking into consideration the assets' estimated salvage value:

Building	30 years
Computer equipment	5 years
Furniture, fixtures and office equipment	5 years
Software	3 to 5 years
Motor vehicles	5 years
Leasehold improvements	the shorter of the lease terms or 5 years

F-16

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(p) Intangible assets

Intangible assets acquired are initially recognized and measured at fair value and are amortized on a straight-line basis over their respective estimated useful lives, which range from 3 to 12 years. The Company has no intangible assets with indefinite useful lives.

(q) Impairment of long-lived assets, excluding goodwill

Long-lived assets, such as property and equipment, and purchased intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset or asset group be tested for possible impairment, the Company first compares undiscounted cash flows expected to be generated by that asset or asset group to its carrying value. If the carrying value of the long-lived asset or asset group is not recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent that the carrying value exceeds its fair value. Fair value is determined through various valuation techniques including discounted cash flow models, quoted market values and third-party independent appraisals, as considered necessary. No impairment of long-lived assets was recognized for any of the periods presented.

(r) Goodwill

Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized. Goodwill is reviewed for impairment at least annually. In September 2011, the FASB issued ASU 2011-08, *Testing Goodwill for Impairment*, which provides an entity the option to perform a qualitative assessment to determine whether it is more-likely-than-not that the fair value of a reporting unit is less than its carrying amount prior to performing the two-step goodwill impairment test. If this is the case, the two-step goodwill impairment test is required. If it is more-likely-than-not that the fair value of a reporting unit is greater than its carrying amount, the two-step goodwill impairment test is not required. The Company adopted this guidance in the year ended March 31, 2013.

If the two-step goodwill impairment test is required, first, the fair value of the reporting unit is compared with its carrying amount (including goodwill). If the fair value of the reporting unit is less than its carrying amount, an indication of goodwill impairment exists for the reporting unit and the entity must perform step two of the impairment test (measurement). Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying amount, step two does not need to be performed.

The Company performs its annual impairment review of goodwill at March 31, and when a triggering event occurs between annual impairment tests. No impairment loss was recorded for any of the periods presented.

(s) *Employee benefit plans*

As stipulated by the regulations of the PRC, the Company's PRC subsidiaries are required to contribute to various defined contribution plans, organized by municipal and provincial governments on behalf of their employees. The contributions to these plans are based on certain percentages of the employee's standard salary base as determined by the local Social Security Bureau. The Group has no other obligation for the payment of employee benefits associated with these plans beyond the annual contributions described above.

Employee benefit expenses recognized under these plans for the years ended March 31, 2011, 2012 and 2013 is allocated to the following expense items:

	Year Ended March 31,		
	2011	2012	2013
	RMB	RMB	RMB
Cost of revenues	3,461,455	3,847,873	4,898,098
Research and development	3,553,612	3,694,142	4,214,374
Sales and marketing	3,649,029	3,551,100	5,269,923
General and administrative	2,109,344	2,206,793	2,608,307
Total employee benefit expenses	12,773,440	13,299,908	16,990,702

F-17

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(t) *Earnings per share*

Basic earnings per share is computed by dividing net earnings by the weighted average number of common shares outstanding during the year using the two-class method. Under the two-class method, net income is allocated between common shares and other participating securities based on their participating rights in undistributed earnings. The Company's nonvested shares relating to the share-based awards under the share incentive plan were considered participating securities since the holders of these securities have non-forfeitable rights to cash dividends.

Diluted earnings per share is calculated by dividing net earnings adjusted for the effect of dilutive common equivalent shares, if any, by the weighted average number of common and dilutive common equivalent shares outstanding during the year. Common equivalent shares consist of common shares issuable upon the exercise of outstanding share options (using the treasury stock method). Common equivalent shares in the diluted earnings per share computation are excluded to the effect that they would be anti-dilutive. In calculating the diluted earnings per share, the undistributed earnings are not reallocated to the participating securities and the common and dilutive common equivalent shares.

(u) *Segment reporting*

The Group has one operating segment, testing and training services. Substantially all of the Group's operations and customers are located in the PRC. Consequently, no geographic information is presented.

(v) *Variable Interest Entity ("VIE")*

PRC regulations prohibit direct foreign ownership of business entities that engage in internet content provision ("ICP") services in the PRC. The Company and its subsidiaries are foreign owned business entities under the PRC law and accordingly are prohibited from providing ICP services in the PRC, including having ownership of entities engaged in providing such services. ATA Online provides ICP online test preparation services in the PRC.

The Group has no legal ownership interest in ATA Online. The legal ownership interests of ATA Online are held by Mr. Kevin Xiaofeng Ma, the Company's co-founder, chairman and chief executive officer and Mr. Walter Lin Wang, the Company's co-founder and director.

A series of contractual agreements, including loan agreements, a call option and cooperation agreement, an equity pledge agreement, a technical support agreement, a strategic consulting service agreement and a power of attorney (collectively, the "VIE Agreements") were entered among ATA BVI, ATA Learning, ATA Online, Mr. Kevin Xiaofeng Ma and Mr. Walter Lin Wang. As a result of the VIE Agreements and as described below, the financial statements of ATA Online are consolidated in the Company's consolidated financial statements.

ATA Online is determined to be a VIE because although Mr. Kevin Xiaofeng Ma and Mr. Walter Lin Wang are the equity holders of ATA Online, (i) their equity investment of RMB10 million in ATA Online was financed by the Group and (ii) they do not participate in any profit or loss of ATA Online.

Although the Group does not have an equity investment in ATA Online, the Group has other variable interests in ATA Online through, among others, (i) the Group's subordinated loans to Mr. Kevin Xiaofeng Ma and Mr. Walter Lin Wang (used by them to finance their equity investment in ATA Online) and other subordinated loans to ATA Online, (ii) the Group's right, under the loan agreement, to receive all the dividends declared by ATA Online through its equity holders and (iii) the Group's exclusive purchase option to acquire (or

to have the Group's designee acquire) 100% of the equity interest or assets in ATA Online for a consideration equal to the loans provided by the Group to Mr. Kevin Xiaofeng Ma and Mr. Walter Lin Wang, to the extent permitted under PRC law. As a result of these variable interests, the Group has the obligation to absorb the expected losses and the right to receive expected residual returns of ATA Online.

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

Through the VIE Agreements, the Group has a controlling financial interest in ATA Online because the Group (i) has the power to direct activities of ATA Online that most significantly impact the economic performance of ATA Online; and (ii) the obligation to absorb the expected losses and the right to receive expected residual return of ATA Online that could potentially be significant to ATA Online.

Accordingly, the financial statements of ATA Online are consolidated in the Company's consolidated financial statements. All of the equity (net assets) and net incomes or losses of ATA Online are attributed to the Company; therefore, non-controlling interest in ATA Online is not presented in the Company's consolidated financial statements.

The key terms of these VIE Agreements are as follows:

Loan agreements: ATA BVI lent to ATA Online's equity holders, Mr. Kevin Xiaofeng Ma, and Mr. Walter Lin Wang, interest free loans in the amount of RMB10 million for the sole purpose of investing in ATA Online as ATA Online's registered capital. The equity holders of ATA Online can only repay the loans by transferring all of their legal ownership interest in ATA Online to ATA BVI or to a third party designated by ATA BVI. The equity holders of ATA Online are required to pay to ATA BVI all dividend received from ATA Online. The initial terms of the loans are ten years, which may be extended upon the agreement of ATA BVI and ATA Online's equity holders. The approval of ATA Online is not required for the renewal of the loan agreements nor can ATA Online terminate the loan agreement during the contract term. ATA BVI lent RMB 1 million on October 27, 2006 and RMB 9 million on July 7, 2009. As of March 31, 2013, the remaining terms of the loan agreements are 3.6 years and 6.3 years for the loans of RMB 1 million and RMB 9 million, respectively, assuming no renewal of the agreement.

Technical support agreement: ATA Learning has the exclusive right to provide technical support services to ATA Online. ATA Online pays a quarterly service fee to ATA Learning. The service fees are mutually agreed by both parties, and are determined based on certain objective criteria such as the actual services required by ATA Online and the actual labor costs, as determined by the number of days and personnel involved, incurred by ATA Learning for providing the services during the relevant period. The term of this agreement is ten years, automatically renewable for successive one year terms unless ATA Learning notifies ATA Online of its intention not to renew 30 days before the relevant term expires. ATA Online may not terminate this agreement during its term or upon its expiration. The agreement was entered into on October 27, 2006 with a remaining term of 3.6 years as of March 31, 2013, assuming no renewal of the agreement.

Strategic consulting service agreement: ATA Learning provides ATA Online with strategic consulting and related services to ATA Online. The fees for these services are determined by ATA Learning and calculated monthly but paid quarterly based on actual time spent providing the services. ATA Learning has the right to adjust the fees payable by ATA Online in accordance with its performance. The term of this agreement is twenty years, automatically renewable for successive one year terms unless ATA Learning notifies ATA Online of its intention not to renew 30 days before the relevant term expires. ATA Online can only terminate this agreement if ATA Learning fails to perform its obligation under this agreement. The agreement was entered into on October 27, 2006 with a remaining term of 13.6 years as of March 31, 2013, assuming no renewal of the agreement.

For the years ended March 31, 2011, 2012 and 2013, the Company billed RMB nil, RMB nil and RMB 12.6 million to ATA Online based on the technical support agreement and strategic consulting service agreement. As of March 31, 2011, 2012 and 2013, RMB nil, RMB nil and RMB 12.6 million was collected.

Call option and cooperation agreement: Through the call option and cooperation agreement entered into among ATA BVI, ATA Online and its equity holders, ATA BVI or any party designated by ATA BVI, has an exclusive purchase option to acquire the equity interest in ATA Online from its equity holders or acquire ATA Online's assets at any time when permitted by applicable Chinese laws and regulations. The proceeds from the exercise of the call option will be applied to repay the loans under the loan agreements described above. Further, without ATA BVI's prior written consent, ATA Online or its equity holders cannot sell, assign, mortgage or dispose any of ATA Online's assets or operation, cannot enter into any transaction which may materially affect ATA Online's assets, liability, operation, equity or other legal rights, and cannot distribute any dividend to its equity holders. ATA BVI is also obligated to provide financial support to ATA Online's operation to which ATA BVI has no recourse right if ATA Online cannot repay such financing due to its losses. This agreement has an indefinite term and can only be terminated with the unanimous consent of all parties, except that ATA BVI may terminate this agreement with 30 days prior notice to the other parties.

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

Equity pledge agreement: To secure the payment obligations of ATA Online under the technical support agreement and the strategic consulting service agreement described above, ATA Online's equity holders have pledged to ATA Learning their entire equity ownership interests in ATA Online. Under this agreement, equity holders of ATA Online may not transfer the pledged equity interest without ATA Learning's prior written consent. This agreement will also be binding upon successors of the pledgor and transferees of the pledged equity interest. The term of the pledge is the same as the term of the strategic consulting service agreement. ATA Online may terminate this agreement upon the completion of its contractual obligations under the technical support agreement and the strategic consulting service agreement as described above. As of March 31, 2013, the remaining term of this agreement is 13.6 years, assuming no renewal of the strategic consulting service agreement.

Power of attorney: Each of Mr. Kevin Xiaofeng Ma and Mr. Walter Lin Wang signed a power of attorney, on March 27, 2013 and April 3, 2013 respectively, with ATA Learning to exclusively assign their rights as an shareholder of ATA Online to ATA Learning, including but not limited to voting right and right to appoint director and executive management of ATA Online. The assignment of the shareholder's rights is legally binding, irrevocable. The agreement is retrospectively effective when the call option and cooperation agreement and equity pledge agreement were effective and remains effective as long as the call option and cooperation agreement and equity pledge agreement are effective.

Risks and uncertainties of the VIE Agreements: The Company relies on the VIE Agreements to operate and control ATA Online. However, these contractual arrangements may not be as effective as direct equity ownership in providing the Company with control over ATA Online. Any failure by ATA Online or its equity holders to perform their obligations under the VIE Agreements would have a material adverse effect on the financial position and financial performance of the Company. All the VIE Agreements are governed by PRC law and provide for the resolution of disputes through arbitration in the PRC. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal system in the PRC is not as developed as some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit the Company's ability to enforce these contractual arrangements. In addition, if the legal structure and the VIE Agreements were found to be in violation of any existing or future PRC laws and regulations, the Company may be subject to fines or other legal or administrative sanctions.

In the opinion of management, based on the legal opinion obtained from the Company's PRC legal counsel, the above contractual arrangements are legally binding and enforceable and do not violate current PRC laws and regulations. However, there are uncertainties regarding the interpretation and application of existing and future PRC laws and regulations.

Accordingly, the Company cannot be assured that PRC regulatory authorities will not ultimately take a contrary view to its opinion. If the current ownership structure of the Company and the VIE Agreements are found to be in violation of any existing or future PRC laws and regulations, the PRC government could:

- revoke the Company's business and operating licenses;
- levy fines on the Company;
- confiscate any of the Company's income that they deem to be obtained through illegal operations;
- shut down a portion or all of the Company's servers or block a portion or all of the Company's web site;
- discontinue or restrict the Company's operations in the PRC;
- impose conditions or requirements with which the Company may not be able to comply;
- require the Company to restructure the Company's corporate and contractual structure;
- take other regulatory or enforcement actions that could be harmful to the Company's business.

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

If the imposition of any of these government actions, or any inability to enforce the contractual arrangements upon a breach, causes the Company to lose its ability to direct the activities of ATA Online or receive substantially all the economic benefits and residual returns from ATA Online and the Company is not able to restructure its ownership structure and operations in a satisfactory manner, the Company would no longer be able to consolidate the financial results of ATA Online in the Company's consolidated financial statements. Total assets, total liability, equity, net sales, net income and cash flows of the Company would be significantly less than the reported amount in the consolidated financial statements of the Company. In the opinion of management, the likelihood of loss in respect of the Company's current ownership structure or VIE Agreements is remote based on current facts and circumstances.

The assets and liabilities of ATA Online as of March 31, 2012 and 2013 and the net revenue and net income (loss) for the years ended March 31, 2011, 2012 and 2013 are as follows:

	March 31,	
	2012	2013
	RMB	RMB
Cash	26,474,179	12,118,865
Accounts receivable, net	12,839,077	11,441,392

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(w) Recently issued accounting standards

In June 2011, the FASB issued Accounting Standards Update ("ASU") 2011-05, *Presentation of Comprehensive Income* ("ASU 2011-05"), which amended accounting guidance related to presentation of comprehensive income. The standards update is intended to help financial statement users better understand the causes of an entity's change in financial position and results of operation. The amendment eliminates the option to present components of other comprehensive income as part of the statement of changes in equity. The amendment requires that all non-owner changes in equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance also requires that reclassification adjustments for items that are reclassified from other comprehensive income to net income be presented on the face of the financial statement where the components of net income and other comprehensive income are presented. In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05* ("ASU 2011-12"), which defers only those changes in ASU 2011-05 that relate to the presentation of reclassification adjustments out of accumulated other comprehensive income. ASU 2011-05 and ASU 2011-12 are effective for reporting periods beginning after December 15, 2011. The Company adopted the new guidance on April 1, 2012.

In February 2013, the FASB issued ASU 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income* ("ASU 2013-02"). The standard requires that companies present either in a single note or parenthetically on the face of the financial statements, the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source (e.g., the release due to cash flow hedges from interest rate contracts) and the income statement line items affected by the reclassification (e.g., interest income or interest expense). If a component is not required to be reclassified to net income in its entirety (e.g., the net periodic pension cost), companies would instead cross reference to the related footnote for additional information (e.g., the pension footnote). ASU 2013-02 is effective for interim and annual reporting periods beginning after December 15, 2012. The Company will adopt the provisions of the new guidance on April 1, 2013. The adoption will not have a material impact on its consolidated financial statements or related disclosures.

(3) ACCOUNTS RECEIVABLE, NET

Accounts receivable, net is summarized as follows:

	March 31,	
	2012 RMB	2013 RMB
Accounts receivable	111,944,576	86,119,787
Less: allowance for doubtful accounts	(30,100,005)	(35,005,069)
Accounts receivable, net	81,844,571	51,114,718

F-22

[Table of Contents](#)**ATA INC.**

Notes to the Consolidated Financial Statements (Continued)

Management performs ongoing credit evaluations of its customers' financial condition and generally does not require collateral on accounts receivable.

The activity in the allowance for doubtful accounts for accounts receivable for the years ended March 31, 2011, 2012 and 2013 is as follows:

	Year Ended March 31,		
	2011	2012	2013
	RMB	RMB	RMB
Beginning allowance for doubtful accounts	29,934,512	27,938,198	30,100,005
Additions charged to bad debt expense	2,235,627	2,350,990	9,140,062
Write-off of accounts receivable	(4,231,941)	(189,183)	(4,234,998)
Ending allowance for doubtful accounts	27,938,198	30,100,005	35,005,069

(6) INTANGIBLE ASSETS, NET

The following table summarizes the Company's intangible assets, as of March 31, 2012 and 2013.

	March 31, 2012			
	Gross carrying amount	Accumulated amortization	Net carrying amount	Weighted Average Amortization Period
	RMB	RMB	RMB	Years
ETS TOEIC license	24,126,706	(7,495,275)	16,631,431	10
Customer relationships	1,300,000	(334,165)	965,835	12
Total intangible assets	25,426,706	(7,829,440)	17,597,266	

	March 31, 2013			
	Gross carrying amount	Accumulated amortization	Net carrying amount	Weighted Average Amortization Period
	RMB	RMB	RMB	Years
ETS TOEIC license	24,126,706	(9,901,334)	14,225,372	10
Customer relationships	1,300,000	(442,498)	857,502	12
Total intangible assets	25,426,706	(10,343,832)	15,082,874	

ETS TOEIC license represents the amounts paid to Educational Testing Service ("ETS") under a master distributor agreement for the exclusive right to market, distribute, administer and sell the Test of English for International Communication ("TOEIC") in mainland PRC for ten years commencing from March 2009.

Amortization expenses for intangible assets were RMB 2,850,487, RMB 2,758,838 and RMB 2,514,392 for the year ended March 31, 2011, 2012 and 2013, respectively. Estimated amortization expense is RMB 2,514,392 for each of the next five years.

(9) NET REVENUES

The components of net revenues for the years ended March 31, 2011, 2012 and 2013 are as follows:

	Year Ended March 31,		
	2011	2012	2013
	RMB	RMB	RMB
Testing services	243,103,305	290,881,289	335,790,689
Test preparation and training solutions	15,426,587	26,996,054	11,343,066
Other revenue	45,373,919	34,208,217	19,541,740
Net revenues	303,903,811	352,085,560	366,675,495

Other revenue includes net revenues from test-based educational services of RMB 25,727,038, RMB 12,614,294 and RMB 6,778,429 for the year ended March 31, 2011, 2012 and 2013, respectively.

Product sales of RMB 478,468, RMB 788,062 and RMB 1,095,370 for the years ended March 31, 2011, 2012 and 2013 are included in other revenue. Other revenue primarily includes test-based educational services, licensing fees from authorized test centers, test development services, test certificate services, and test administration software product sales.

(10) INCOME TAXES

Cayman Islands and British Virgin Islands

Under the current laws of the Cayman Islands and the British Virgin Islands, the Group is not subject to any income tax in these jurisdictions.

People's Republic of China

The Company's consolidated PRC entities file separate income tax returns.

On March 16, 2007, the National People's Congress passed the new Enterprise Income Tax Law ("new EIT Law") which statutory income tax rate is 25% effective from January 1, 2008. According to the new EIT Law, entities that qualify as "high-and-new technology enterprises eligible for key support from the State" ("HNTE") are entitled to a preferential income tax rate of 15%.

The Company's PRC entities are subject to income tax at 25%, unless otherwise specified.

F-27

[Table of Contents](#)

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

In December 2008, ATA Testing received approval from the tax authority that it qualified as an HNTE. The certificate entitled ATA Testing to the preferential income tax rate of 15% effective retroactively from January 1, 2008 to December 31, 2010. As of March 31, 2011, ATA Testing's applicable income tax rate from January 1, 2011 onwards was 25%. In October 2011, ATA Testing received

approval from the tax authority on its renewal as an HNTe which entitled it to the preferential income tax rate of 15% effective retroactively from January 1, 2011 to December 31, 2013. ATA Testing's applicable income tax rate from January 1, 2014 onwards is 25%.

In December 2009, ATA Learning, ATA Online and Beijing JDX received approvals from the tax authorities that they qualified as HNTes. The certificates entitled them to the preferential income tax rate of 15% effectively retroactively from January 1, 2009 to December 31, 2011. As of March 31, 2012, ATA Learning, ATA Online and Beijing JDX's applicable income tax rate from January 1, 2012 onwards was 25%. In May and July 2012, ATA Learning, ATA Online and Beijing JDX received approvals from the tax authorities on its renewals as HNTes which entitled them to the preferential income tax rate of 15% effective retroactively from January 1, 2012 to December 31, 2014. ATA Learning, ATA Online and Beijing JDX's applicable income tax rate from January 1, 2015 onwards is 25%.

The new EIT Law and its relevant regulations impose a withholding tax at 10%, unless reduced by a tax treaty or agreement, for dividends distributed by a PRC-resident enterprise to its immediate holding company outside the PRC for earnings generated beginning on January 1, 2008. Undistributed earnings generated prior to January 1, 2008 are exempt from withholding tax. As of March 31, 2013, the Company has not provided for income taxes on earnings of RMB 142,455,116 generated by its PRC consolidated entities since January 1, 2008 as the Company plans to reinvest these earnings indefinitely in the PRC. As of March 31, 2013, the unrecognized deferred income tax liability related to these earnings was RMB 14,245,512.

The earnings before income taxes were generated in the following jurisdictions:

	Year Ended March 31,		
	2011	2012	2013
	RMB	RMB	RMB
Cayman Islands and British Virgin Islands	(11,433,911)	(15,598,329)	(19,373,510)
PRC	34,500,214	85,778,881	49,586,482
Earnings before income taxes	23,066,303	70,180,552	30,212,972

Income tax expense (benefit) recognized in the consolidated statements of comprehensive income consists of the following:

	Year Ended March 31,		
	2011	2012	2013
	RMB	RMB	RMB
PRC			
Current expense	7,203,811	13,189,414	10,226,537
Deferred (benefit) expense	(3,891,524)	1,149,668	(3,221,555)
Total income tax expense	3,312,287	14,339,082	7,004,982

The actual income tax expense reported in the consolidated statements of comprehensive income differs from the respective amount computed by applying the PRC statutory income tax rate of 25% for each of the years ended March 31, 2011, 2012 and 2013 to earnings before income taxes due to the following:

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

	March 31,	
	2012	2013
	RMB	RMB
Current deferred income tax assets, included in prepaid expenses and other current assets	4,233,996	7,524,161
Non-current deferred income tax assets, included in other assets	1,859,136	1,709,276
Non-current deferred income tax liabilities	(139,931)	(58,681)
Net deferred income tax assets	5,953,201	9,174,756

The decrease in the valuation allowance for the years ended March 31, 2011, 2012 and 2013 were RMB1,379,408, RMB2,035,788 and RMB735,773, respectively. As of March 31, 2013, the valuation allowance of RMB921,751 was mainly related to the deferred income tax assets of entities at cumulative losses. As of March 31, 2013, management believes it is more likely than not that the Group will realize the deferred income tax assets, net of the valuation allowance. The amount of the deferred income tax assets, however, considered realizable as of March 31, 2013 could be reduced in the near term if estimates of future taxable income are reduced.

As of March 31, 2013, the Group had net tax loss carry forwards for PRC income tax purpose of RMB 17,623,772, if unused, will expire by December 31, 2018.

For the years ended March 31, 2011, 2012 and 2013, the Group had no unrecognized tax benefits, and thus no related interest and penalties were recorded. Also, the Group does not expect that the amount of unrecognized tax benefits will significantly increase within the next twelve months.

According to the PRC Tax Administration and Collection Law, the statute of limitation is three years if the underpayment of taxes is due to computational errors made by the taxpayer or the withholding agent. The statute of limitation is extended to five years under special circumstances where the underpayment of taxes is more than RMB 100,000. In the case of transfer pricing issues, the statute of limitation is ten years. There is no statute of limitation in the case of tax evasion. The income tax return of each of the Company's PRC consolidated entities is subject to examination by the relevant tax authorities for the calendar tax years beginning in 2008.

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(11) SHARE BASED COMPENSATION

2005 Share incentive plan

In April 2005, the Company adopted a share incentive plan (the "2005 Plan"), pursuant to which the Company is authorized to issue options to officers, employees, directors and consultants of the Group to purchase up to 2,894,000 of its common shares. In October 2007, the Company's board of directors approved an increase in the number of shares reserved for issuance under the 2005 Plan

to 3,310,300 shares. The 2005 Plan expires in ten years. Options awards provide for accelerated vesting if there is a change in control (as defined in the 2005 Plan).

2008 Share incentive plan

On January 7, 2008, the Company adopted a share incentive plan (the “2008 Plan”), pursuant to which the Company is authorized to issue options and other share-based awards to officers, employees, directors and consultants of the Group to purchase up to 336,307 of its common shares, plus, unless the board of directors determines a lesser amount, an annual increase on January 1 of each calendar year beginning in 2009 equal to the lesser of 1) one percent of the number of shares issued and outstanding on December 31 of the immediately preceding calendar year, and 2) 336,307 shares. The 2008 Plan expires in ten years. Options awards provide for accelerated vesting if there is a change in control (as defined in the 2008 Plan). As of March 31, 2013, 2,017,842 shares were reserved for issuance under the 2008 Plan.

Under both the 2005 Plan and 2008 Plan, share options are generally granted with 25% vesting on the first anniversary of the grant date and the remaining 75% vesting ratably over the following 36 months, unless a shorter or longer duration is established at the time of the option grant. Share options are granted at an exercise price equal to the fair market value of the Company’s share at the date of grant and expire 10 years from the grant date.

Under the 2008 Plan, nonvested shares are granted with a graded vesting as to 25% at the end of each year from the grant date over 4 years.

For the graded vesting share options and nonvested shares, the Company recognizes the compensation cost over the requisite service period for each separately vesting portion of the award as if the award is, in substance, multiple awards.

During the year ended March 31, 2013, the Company extended the exercise period of two employees’ vested share options and continued the vesting of their unvested share options and continued the vesting of one employee’s nonvested shares upon their resignation. The modification resulted in additional compensation expense of RMB1,294,834 recognized in the “general and administrative expense” for the year ended March 31, 2013.

Exercisable as of March 31, 2013	2,672,342	2.86	3.0	Nil

The aggregate intrinsic value of options outstanding and exercisable at March 31, 2013, was calculated based on the closing price of the Company’s common shares on March 31, 2013.

The total intrinsic value of options exercised in the years ended March 31, 2011, 2012 and 2013 are USD 10,175, USD 28,775 and USD nil respectively.

In March 2011, certain individuals exercised 43,884 share options with an exercise price of USD3.6 per share. The proceeds of USD157,982 (RMB1,035,796) were not received by the Company as of March 31, 2011 and a receivable from shareholders of RMB 1,035,796 was recorded in the shareholders’ equity. The Company received the proceeds in May 2011.

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

(12) COMMON SHARES

The Company's board of directors approved a share repurchase program on November 13, 2008 to repurchase up to USD5 million worth of its outstanding American Depository Shares ("ADS") from time to time in open-market transactions. On February 12, 2010, the Company's board of director reviewed and approved the continuation of the share repurchase program through March 31, 2011. The Company's board of directors approved a share repurchase program on November 1, 2012 to repurchase up to USD5 million worth of its issued and outstanding ADSs in both open-market and privately negotiated transactions. On January 31, 2013, the Company's board of director reviewed and approved the continuation of the share repurchase program through May 31, 2013. For the year ended March 31, 2011, 2012 and 2013, the Company repurchased nil, nil and 26,440 common shares at a repurchase price of RMB nil, RMB nil and RMB 329,357, respectively.

(13) SPECIAL CASH DIVIDEND

On June 1, 2011, the Company's board of directors declared a special cash dividend of USD0.215 per common share, or USD0.43 per ADS. The total amount of cash distributed in the dividend was USD9.8 million (RMB 63,634,726) and was paid from the cash held by ATA Inc. in August 2011.

On August 7, 2012, the Company's board of directors declared a special cash dividend of USD0.087 per common share, or USD0.174 per ADS. The total amount of cash distributed in the dividend was USD4.0 million (RMB 25,331,341) and was paid from the cash held by ATA Inc. in September 2012.

(14) STATUTORY RESERVES

In accordance with the relevant laws and regulations of the PRC, the Company's PRC consolidated entities are required to transfer 10% of their respective after tax profit, as determined in accordance with PRC accounting standards and regulations to a general reserve fund until the balance of the fund reaches 50% of the registered capital of the respective entity. The transfer to this general reserve fund must be made before distribution of dividends can be made. As of March 31, 2012 and 2013, the PRC consolidated entities had appropriated RMB 10,598,807 and RMB 14,892,860, respectively, to the general reserve fund, which is restricted for distribution to the Company.

(15) COMMITMENTS AND CONTINGENCIES

Lease commitments

The Group entered into non-cancelable operating leases, primarily for office space, for initial terms of two to three years.

Minimum rent payments under operating leases are recognized on a straight-line basis over the term of the lease, including any periods of free rent.

F-36

ATA INC.

Notes to the Consolidated Financial Statements (Continued)

Future minimum lease payments under non-cancelable operating leases (with initial or remaining lease terms in excess of one year) as of March 31, 2013 are:

	Minimum Lease Amount RMB
Year ended:	
March 31, 2014	5,859,831
March 31, 2015	2,368,911
March 31, 2016	1,963,867
March 31, 2017	—
March 31, 2018	—
	10,192,609

Rental expense for operating leases (except leases with a term of one month or less that are not renewed) for the years ended March 31, 2011, 2012 and 2013 were RMB 5,446,033, RMB 5,159,138 and RMB 6,517,907 respectively.

(16) EARNINGS PER COMMON SHARE

Basic and diluted earnings per common share are calculated as follows:

	Year Ended March 31,		
	2011	2012	2013
	RMB	RMB	RMB
Numerator:			
Net earnings	19,754,016	55,841,470	23,207,990
Less: Dividends paid to participating securities	—	(1,476,269)	(525,049)
Net earnings attributable to participating securities	(162,360)	—	—
Net earnings available to common shareholders	19,591,656	54,365,201	22,682,941
Denominator:			
Denominator for basic earnings per share:			
Weighted average common shares outstanding	44,469,182	44,713,418	44,967,823
Plus: Incremental shares issuable upon exercise of share options	—	951,469	147,794
Denominator for diluted earnings per share	44,469,182	45,664,887	45,115,617
Basic earnings per common share	0.44	1.22	0.50
Diluted earnings per common share	0.44	1.19	0.50

The following table summarizes potential common shares outstanding excluded from the calculation of diluted earnings per share for the years ended March 31, 2011, 2012 and 2013, because their effect is anti-dilutive:

	Year ended March 31,		
	2011	2012	2013
Shares issuable under share options	3,262,650	100,000	1,134,742

REGISTRATION RIGHTS EXTENSION AGREEMENT

THIS REGISTRATION RIGHTS EXTENSION AGREEMENT (this “**Agreement**”) is entered into as of March 5, 2013 (the “**Effective Date**”), by and among ATA Inc., an exempted company duly incorporated and validly existing under the Laws of the Cayman Islands (the “**Company**”), and SB ASIA INVESTMENT FUND II, L.P., a limited partnership organized and existing under the Laws of the Cayman Islands (“**SAIF**”). The Company and SAIF are referred to herein as “**Parties**” collectively and a “**Party**” individually.

RECITALS

WHEREAS, the Company, SAIF and certain other shareholders of the Company were parties to a Shareholders Agreement dated November 10, 2006 (the “**Shareholders Agreement**”), under which SAIF held certain registration rights, which terminate on March 31, 2013;

WHEREAS the Company and SAIF have agreed to enter into this agreement to provide SAIF substantially the same registration rights from April 1, 2013 until March 31, 2017; and

WHEREAS the Parties have agreed that from April 1, 2013 SAIF’s registration rights will be governed by this Agreement and not the Shareholders Agreement.

WITNESSETH

NOW, THEREFORE, in consideration of the premises set forth above, the mutual promises and covenants set forth herein and other good and valuable consideration, the Parties agree as follows:

1. Interpretation.

1.1 Definitions. The following terms shall have the meanings ascribed to them below:

“**Affiliate**”, with regard to a given Person, means a Person that Controls, is Controlled by or is under common Control with the given Person; the term “**Affiliated**” has the meaning correlative to the foregoing.

“**Applicable Securities Law**” means (i) with respect to any offering of securities in the United States, or any other act or omission within that jurisdiction, the securities Law of the United States, including the Exchange Act and the Securities Act, and any applicable securities Law of any state of the United States, and (ii) with respect to any offering of securities in any jurisdiction other than the United States, or any related act or omission in that jurisdiction, the applicable securities Laws of that jurisdiction.

“**Board**” means the board of directors of the Company.

“**Commission**” means the Securities and Exchange Commission of the United States or any other federal agency at the time administering the Securities Act.

“**Common Shares**” means the common shares, par value US\$0.01, of the Company.

“**Common Share Equivalents**” means warrants, options and rights exercisable for Common Shares or securities convertible into or exchangeable for Common Shares.

“**Control**” of a given Person means the power or authority, whether exercised or not, to direct the business, management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise, which power or authority shall conclusively be presumed to exist upon possession of beneficial ownership or power to direct the vote of more than 50% of the votes entitled to be cast at meetings of the members or shareholders of such Person or power to control the composition of the board of directors of such Person; the terms “**Controlling**” and “**Controlled**” have meanings correlative to the foregoing.

“**Equity Securities**” means any Common Shares or Common Share Equivalents of the Company.

“**Exchange Act**” means the United States Securities Exchange Act of 1934, as amended.

“**Form F-1**” means Form F-1 promulgated by the Commission under the Securities Act or any successor form or substantially similar form then in effect.

“**Form F-3**” means Form F-3 promulgated by the Commission under the Securities Act or any successor form or substantially similar form then in effect.

“Governmental Authority” means a nation or government or any province or state or any other political subdivision thereof, and any entity, authority or body exercising executive, legislative, judicial, regulatory or administrative functions of or pertaining to government, including any government authority, agency, department, board, commission or instrumentality or any political subdivision thereof, any court, tribunal or arbitrator, and any self-regulatory organization.

“Holders” mean SAIF and any permitted assignee of SAIF hereunder.

“Initiating Holders” means, with respect to a request duly made under Section 2.1 to Register any Registrable Securities, the Holders initiating such request.

“Law” means any constitutional provision, statute or other law, rule, regulation, official policy or interpretation of any Governmental Authority and any injunction, judgment, order, ruling, assessment or writ issued by any Governmental Authority.

“Person” means any individual, corporation, partnership, limited partnership, proprietorship, association, limited liability company, firm, trust, estate or other enterprise or entity.

“PRC” means the People’s Republic of China, but solely for the purposes of this Agreement, excluding the Hong Kong Special Administrative Region, Macau Special Administrative Region and the islands of Taiwan.

“Registrable Securities” means (i) the 12,707,436 Common Shares held by SAIF as of February 1, 2008, and (ii) any Common Shares of the Company issued as a dividend or other distribution with respect to, in exchange for, or in replacement of, the shares referenced in (i). For purposes of this Agreement, (i) Registrable Securities shall cease to be Registrable Securities when a Registration Statement covering such Registrable Securities has been declared effective under the Securities Act by the Commission whether or not such Registrable Securities have been disposed of pursuant to such effective Registration Statement and (ii) the Registrable Securities of a Holder shall not be deemed to be Registrable Securities at any time when the entire amount of such Registrable Securities proposed to be sold by such Holder in a single sale are or, in the opinion of counsel satisfactory to the Company and such Holder, each in their reasonable judgment, may be, so distributed to the public pursuant to Rule 144 (or any successor provision then in effect) under the Securities Act in any three (3) month period or any such Registrable Securities have been sold in a sale made pursuant to Rule 144 of the Securities Act.

“Registration” means a registration for sale of Registrable Securities under the Securities Act effected by preparing and filing a Registration Statement and the declaration or ordering of the effectiveness of that Registration Statement; and the term **“Register”** means the act of effecting such Registration.

“Registration Statement” means a registration statement prepared on Form F-1 or F-3, under the Securities Act (including, without limitation, Rule 415 under the Securities Act), or on any successor form to such forms under the Securities Act.

“Securities Act” means the United States Securities Act of 1933, as amended.

“Selling Expenses” means all underwriting discounts and selling commissions applicable to the sale of Registrable Securities pursuant to this Agreement.

2. Demand Registration.

2.1 Registration on Form F-3. Subject to the terms of this Agreement, if the Company qualifies for registration on Form F-3, Holders holding a majority of the then outstanding Registrable Securities may request the Company to file a Registration Statement on Form F-3 for a public offering of Registrable Securities for which the reasonably anticipated aggregate price to the public, net of Selling Expenses, would exceed US\$10,000,000. Upon receipt of such a request, the Company shall (i) promptly give written notice of the proposed Registration to all other Holders and (ii) as soon as practicable, use its reasonable best efforts to cause the Registrable Securities specified in the request, together with any Registrable Securities of any Holder who requests in writing to join such Registration within fifteen (15) days after the Company’s delivery of written notice, to be Registered and qualified for sale and distribution. If the Company is not entitled to use Form F-3, Holders holding a majority of the then outstanding Registrable Securities may request the Company file a Registration Statement on a form other than Form F-3 under the Securities Act providing for the Registration of such Registrable Securities. A written request under this Section 2.1 shall be delivered to the Company in accordance with the notice provisions set forth below, and shall specify the number of Registrable Securities for which registration is requested. Subject to the provisions of this Agreement, the Holders may at any time, and from time to time, require the Company to effect the Registration of Registrable Securities under this Section 2.1. However, the Company shall not be required to effect more than five (5) Registrations pursuant to this Section 2.1.

2.3 Right of Deferral.

(a) The Company shall not be obligated to file a Registration Statement or qualify Registrable Securities pursuant to this Section 2:

(i) if, within ten (10) days of the receipt of any request of the Holders to Register any Registrable Securities under Section 2.1 or Section 2.2, the Company gives notice to the Initiating Holders of its bona fide intention to effect the filing for its own account of a Registration Statement of Common Shares within sixty (60) days of receipt of that request; provided that the Company is actively employing in good faith its reasonable best efforts to cause that Registration Statement to become effective within sixty (60) days of the

initial filing; provided further that the Holders are entitled to join such Registration subject to Section 3;

(ii) during the period starting with the date of filing by the Company of, and ending six (6) months following the effective date of, any Registration Statement pertaining to Common Shares of the Company; provided that the Holders are entitled to join such Registration subject to Section 3; or

(iii) after September 30th of any year if any interim financial statements shall be required to be included in such Registration Statement and such interim financial statements are not available or such Registration Statement is required to be filed under this Agreement before such interim financial statements can be reasonably produced.

(b) If, after receiving a request from the Initiating Holders pursuant to Section 2.1 hereof, the Company furnishes to the Holder a certificate signed by the chief executive officer of the Company stating that, in the good faith judgment of the Board, there is a reasonable likelihood that it would be materially detrimental to the Company or its members for a Registration Statement to be filed in the near future, then the Company shall have the right to defer such filing for a period during which such filing would be materially detrimental, provided that such deferral by the Company shall not exceed ninety (90) days from the receipt of any request duly submitted by Holders under Section 2.1 to Register Registrable Securities; provided further, that the Company may not Register any other of its Securities during such 90-day period (except for Registrations contemplated by Section 3.4).

2.4 Underwritten Offerings. If, in connection with a request to Register Registrable Securities under Section 2.1, the Initiating Holders seek to distribute such Registrable Securities in an underwritten offering, they shall so advise the Company as a part of the request, and the Company shall include such information in the written notice to the other Holders described in Sections 2.1. In such event, the right of any Holder to include its Registrable Securities in such Registration shall be conditioned upon such Holder's participation in such underwriting and the inclusion of such Holder's Registrable Securities in the underwriting (unless otherwise mutually agreed by a majority in interest of the Initiating Holders and such Holder) to the extent provided herein. . All Holders proposing to distribute their securities through such underwritten offering shall enter into an underwriting agreement in customary form with the underwriter or underwriters of internationally recognized standing selected for such underwriting by the Company. Notwithstanding any other provision of this Agreement, if the managing underwriter advises the Company that marketing factors (including without limitation the aggregate number of securities requested to be Registered, the general condition of the market, and the status of the Persons proposing to sell securities pursuant to the Registration) require a limitation of the number of Registrable Securities to be underwritten in a Registration pursuant to Section 2.1, the underwriters may exclude up to 70% of the Registrable Securities requested to be Registered but only after excluding all other Equity Securities from the Registration and underwriting and so long as the number of shares to be included in the Registration on behalf of Holders is allocated among all Holders in proportion, as nearly as practicable, to the respective amounts of Registrable Securities requested by such Holders to be included, provided that if, as a result of such underwriter cutback, the Holders cannot include in the initial public offering all of the Registrable Securities that they have requested to be included therein, then such Registration shall not be deemed to constitute one of the five demand Registrations to which the Holders are entitled pursuant to Section 2.1. Any Registrable Securities excluded or withdrawn from such underwriting shall be withdrawn from the Registration.

3. Piggyback Registrations.

3.1 Registration of the Company's Securities. Subject to the terms of this Agreement, if the Company proposes to Register for its own account any of its Equity Securities, or for the account of any holder (other than a Holder) of Equity Securities any of such holder's Equity Securities, in connection with the public offering of such securities solely for cash (except as set forth in Section 3.4), the Company shall promptly give each Holder written notice of such Registration and, upon the written request of any Holder given within fifteen (15) days after delivery of such notice, the Company shall use its reasonable best efforts to include in such Registration any Registrable Securities thereby requested to be Registered by such Holder. If a Holder decides not to include all or any of its Registrable Securities in such Registration by the Company, such Holder shall nevertheless continue to have the right to include any Registrable Securities in any subsequent Registration Statement or Registration Statements as may be filed by the Company, all upon the terms and conditions set forth herein.

3.2 Right to Terminate Registration. The Company shall have the right to terminate or withdraw any Registration initiated by it under Section 3.1 prior to the effectiveness of such Registration, whether or not any Holder has elected to participate therein. The expenses of such withdrawn Registration shall be borne by the Company in accordance with Section 4.3.

3.3 Underwriting Requirements.

(a) In connection with any offering involving an underwriting of the Company's Equity Securities solely for cash, the Company shall not be required to Register the Registrable Securities of a Holder under this Section 3 unless such Holder's Registrable Securities are included in the underwriting and such Holder enters into an underwriting agreement in customary form with the underwriters selected by the Company and setting forth such terms for the underwriting as have been agreed upon between the Company and the underwriters. In the event the underwriters advise Holders seeking Registration of Registrable Securities pursuant to this Section 3 in writing that market factors (including the aggregate number of Registrable Securities requested to be Registered, the general condition of the market, and the status of the Persons proposing to sell securities pursuant to the Registration) require a limitation of the number of Registrable Securities to be underwritten, the underwriters may exclude up to seventy percent (70%) of the Registrable Securities requested to be Registered but only after excluding all other Equity Securities (except for securities to be offered by the Company) from the Registration and underwriting and so long as the Registrable Securities to be included in such Registration on behalf of Holders are allocated among all Holders in proportion, as nearly as practicable, to the respective amounts of Registrable Securities requested by such Holders to be included.

(b) If any Holder disapproves the terms of any underwriting, the Holder may elect to withdraw therefrom by written notice to the Company and the underwriters delivered at least ten (10) days prior to the effective date of the Registration Statement. Any Registrable Securities excluded or withdrawn from the underwriting shall be withdrawn from the Registration.

3.4 Exempt Transactions. The Company shall have no obligation to Register any Registrable Securities under this Section 3 in connection with a Registration by the Company (i) relating solely to the sale of securities to participants in a Company share award plan, or (ii) relating to a corporate reorganization or other transaction under Rule 145 of the Securities Act.

4. Procedures.

4.1 Registration Procedures and Obligations. Whenever required under this Agreement to effect the Registration of any Registrable Securities held by the Holders, the Company shall, as expeditiously as reasonably possible:

(a) Prepare and file with the Commission a Registration Statement with respect to those Registrable Securities and use its reasonable best efforts to cause that Registration Statement to become effective, and, upon the request of the Holders holding a majority of the Registrable Securities Registered thereunder, keep the Registration Statement effective for up to one hundred and eighty (180) days or, if earlier, until the distribution thereunder has been completed; provided, however, that such one hundred and eighty (180) day period shall be extended for a period of time equal to the period any Holder refrains from selling any Registrable Securities included in such Registration at the written request of the underwriter(s) for such Registration.

(b) Prepare and file with the Commission amendments and supplements to that Registration Statement and the prospectus used in connection with the Registration Statement as may be necessary to comply with the provisions of Applicable Securities Law with respect to the disposition of all securities covered by the Registration Statement;

(c) Furnish to the Holders the number of copies of a prospectus, including a preliminary prospectus, required by Applicable Securities Law, and any other documents as they may reasonably request in order to facilitate the disposition of Registrable Securities owned by them;

(d) Use its reasonable best efforts to Register and qualify the securities covered by the Registration Statement under the securities Laws of any jurisdiction, as reasonably requested by the Holders, provided that the Company shall not be required to qualify to do business or file a general consent to service of process in any such jurisdictions;

(e) In the event of any underwritten public offering, enter into and perform its obligations under an underwriting agreement, in customary form, with the managing underwriter(s) of the offering. Each shareholder participating in the underwriting shall also enter into and perform its obligations under such an agreement;

(f) Notify each Holder of Registrable Securities covered by the Registration Statement at any time when a prospectus relating thereto is required to be delivered under Applicable Securities Law of (i) the issuance of any stop order by the commission, or (ii) the happening of any event as a result of which any prospectus included in the Registration Statement, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances then existing;

(g) Provide a transfer agent and registrar for all Registrable Securities Registered pursuant to the Registration Statement and, where applicable, a number assigned by the Committee on Uniform Securities Identification Procedures for all those Registrable Securities, in each case not later than the effective date of the Registration;

(h) Furnish, at the request of any Holder requesting Registration of Registrable Securities pursuant to this Agreement, on the date that such Registrable Securities are delivered for sale in connection with a Registration pursuant to this Agreement, (i) an opinion, dated the closing date of the sale, of the counsel representing the Company for the purposes of the Registration, in form and substance as is customarily given to underwriters in an underwritten public offering; (ii) (A) a comfort letter dated the signing date of the underwriting agreement; and (B) a bring down comfort letter dated the closing of the sale, each from the independent certified public accountants of the Company, in form and substance as is customarily given by independent certified public accountants to underwriters in an underwritten public offering, addressed to the underwriters; and

(i) Take all reasonable action necessary to list the Registrable Securities on the primary exchange on which the Company's American depositary receipts representing Common Shares are then traded.

4.2 Information from Holder. It shall be a condition precedent to the obligations of the Company to take any action pursuant to this Agreement with respect to the Registrable Securities of any selling Holder that such Holder shall furnish to the Company such information regarding itself, the Registrable Securities held by it, and the intended method of disposition of such securities as shall be required to effect the Registration of such Holder's Registrable Securities.

4.3 Expenses of Registration. All Registration, filing and qualification fees, printers' and accounting fees and fees and disbursements of counsel for the Company, as well as reasonable fees and disbursement of one counsel for all selling Holders up to \$20,000, in relation to any Registration hereunder shall be borne by the Company. The Company shall not, however, be required to pay for any expenses of any Registration proceeding begun pursuant to this Agreement if the Registration request is subsequently withdrawn at the request of a Holder or Holders requesting such Registration (in which case all participating Holders shall bear such expenses pro rata based upon the number of Registrable Securities that were to be thereby Registered in the withdrawn Registration).

4.4 Delay of Registration. No Holder shall have any right to obtain or seek an injunction restraining or otherwise delaying any Registration as the result of any controversy that may arise with respect to the interpretation or implementation of this Agreement.

5. Indemnification.

5.1 Company Indemnity.

(a) To the maximum extent permitted by Law, the Company will indemnify and hold harmless each Holder, such Holder's officers, directors, shareholders, legal counsel and accountants, any underwriter (as defined in the Securities Act) for such Holder and each Person, if any, who controls (as defined in the Securities Act) such Holder or underwriter, against any losses, claims, damages or liabilities (joint or several) to which they may become subject under Laws which are applicable to the Company and relate to action or inaction required of the Company in connection with any Registration, qualification, or compliance, insofar as such losses, claims, damages, or liabilities (or actions in respect thereof) arise out of or are based upon any of the following statements, omissions or violations (each a "**Violation**"): (i) any untrue statement or alleged untrue statement of a material fact contained in such Registration Statement, on the effective date thereof (including any preliminary prospectus or final prospectus contained therein or any amendments or supplements thereto), (ii) the omission or alleged omission to state in the Registration Statement, including any preliminary prospectus or final prospectus contained therein or any amendments or supplements thereto, a material fact required to be stated therein or necessary to make the statements therein not misleading, or (iii) any violation or alleged violation by the Company of Applicable Securities Laws, or any rule or regulation promulgated under Applicable Securities Laws. The Company will reimburse each such Holder, underwriter or controlling person for any legal or other expenses reasonably incurred by them in connection with investigating or defending any such loss, claim, damage, liability or action.

(b) The indemnity agreement contained in this Section 5.1 shall not apply to amounts paid in settlement of any such loss, claim, damage, liability or action if such settlement is effected without the consent of the Company (which consent shall not be unreasonably withheld or delayed), nor shall the Company be liable in any such case for any such loss, claim, damage, liability or action to the extent that it arises out of or is based upon a Violation that occurs in reliance upon and in conformity with written information furnished for use in connection with such Registration by any such Holder, underwriter or controlling person.

5.2 Holder Indemnity.

(a) To the maximum extent permitted by Law, each selling Holder will indemnify and hold harmless the Company, its directors, officers, legal counsel and accountants, any underwriter, any other Holder selling securities in connection with such Registration and each Person, if any, who controls (within the meaning of the Securities Act) the Company, such underwriter or other Holder, against any losses, claims, damages or liabilities (joint or several) to which any of the foregoing persons may become subject, under Applicable Securities Laws, or any rule or regulation promulgated under Applicable Securities Laws, insofar as such losses, claims, damages or liabilities (or actions in respect thereto) arise out of or are based upon any Violation, in each case to the extent (and only to the extent) that such Violation occurs in reliance upon and in conformity with written information furnished by such Holder for use in connection with such Registration; and each such Holder will reimburse any Person intended to be indemnified pursuant to this Section 5.2, for any legal or other expenses reasonably incurred by such Person in connection with investigating or defending any such loss, claim, damage, liability or action. No Holder's liability under this Section 5.2 shall exceed the net proceeds (less underwriting discounts and selling commissions) received by such Holder from the offering of securities made in connection with that Registration; provided, however, such limitation shall not apply in the case of willful fraud by such Holder.

(b) The indemnity contained in this Section 5.2 shall not apply to amounts paid in settlement of any such loss, claim, damage, liability or action if such settlement is effected without the consent of the selling Holders (which consent shall not be unreasonably withheld or delayed).

5.3 Notice of Indemnification Claim. Promptly after receipt by an indemnified party under Section 5.1 or Section 5.2 of notice of the commencement of any action (including any governmental action), such indemnified party will, if a claim in respect thereof is to be made against any indemnifying party under Section 5.1 or Section 5.2, deliver to the indemnifying party a written notice of the commencement thereof and the indemnifying party shall have the right to participate in, and, to the extent the indemnifying party so desires, jointly with any other indemnifying party similarly noticed, to assume the defense thereof with counsel mutually satisfactory to the indemnifying parties. An indemnified party (together with all other indemnified parties that may be represented without conflict by one counsel) shall have the right to retain one separate counsel, with the reasonably incurred fees and expenses to be paid by the indemnifying party, if representation of such indemnified party by the counsel retained by the indemnifying party would be inappropriate due to actual or potential differing interests between such indemnified party and any other party represented by such counsel in such proceeding. The failure to deliver written notice to the indemnifying party within a reasonable time of the commencement of any such action, if prejudicial to its ability to defend such action, shall relieve such indemnifying party, to the extent so prejudiced, of any liability to the indemnified party under this Section 5, but the omission to deliver written notice to the indemnifying party will not relieve it of any liability that it may have to any indemnified party otherwise than under this Section 5.

5.4 Contribution. If any indemnification provided for in Section 5.1 or Section 5.2 is held by a court of competent jurisdiction to be unavailable to an indemnified party with respect to any loss, liability, claim, damage or expense referred to herein, the indemnifying party, in lieu of indemnifying such indemnified party hereunder, shall contribute to the amount paid or payable by such indemnified party as a result of such loss, liability, claim, damage or expense in such proportion as is appropriate to reflect the relative fault of the indemnifying party, on the one hand, and of the indemnified party, on the other, in connection with the statements or omissions that resulted in such loss, liability, claim, damage or expense, as well as any other relevant equitable considerations. The relative fault of the indemnifying party and of the indemnified party shall be determined by reference to, among other things, whether the untrue or alleged

untrue statement of a material fact or the omission to state a material fact relates to information supplied by the indemnifying party or by the indemnified party and the parties' relative intent, knowledge, access to information, and opportunity to correct or prevent such statement or omission.

5.5 Underwriting Agreement. To the extent that the provisions on indemnification and contribution contained in the underwriting agreement entered into in connection with the underwritten public offering are in conflict with the foregoing provisions, the provisions in the underwriting agreement shall control.

5.6 Survival. The obligations of the Company and Holders under this Section 5 shall survive the completion of any offering of Registrable Securities in a Registration Statement under this Agreement.

6. Additional Undertakings.

6.1 Reports under the Exchange Act. With a view to making available to the Holders the benefits of Rule 144 promulgated under the Securities Act and any comparable provision of any Applicable Securities Law that may at any time permit a Holder to sell securities of the Company to the public without Registration or pursuant to a Registration on Form F-3, the Company agrees to:

(a) make and keep public information available, as those terms are understood and defined in Rule 144 (or comparable provision, if any, under Applicable Securities Laws), at all times;

(b) file with the Commission in a timely manner all reports and other documents required of the Company under all Applicable Securities Laws; and

(c) promptly furnish to any Holder holding Registrable Securities, upon request (i) a written statement by the Company that it has complied with the reporting requirements of all Applicable Securities Laws at any time after it has become subject to such reporting requirements or, at any time after so qualified, that it qualifies as a registrant whose securities may be resold pursuant to Form F-3, (ii) a copy of the most recent annual or quarterly report of the Company and such other reports and documents as may be filed by the Company with the Commission, and (iii) such other information as may be reasonably requested in availing any Holder of any rule or regulation of the Commission, that permits the selling of any such securities without Registration or pursuant to Form F-3.

6.2 Effectiveness and Termination of Registration Rights. The registration rights set forth in Section 2 and Section 3 of this Agreement shall become effective on April 1, 2013 and terminate on March 31, 2017.

7. Assignments and Transfers; No Third Party Beneficiaries. This Agreement and the rights and obligations of the parties hereunder shall inure to the benefit of, and be binding upon, their respective successors, assigns and legal representatives, but shall not otherwise be for the benefit of any third party. This Agreement and the rights and obligations of the parties hereunder are not assignable or transferable without the written consent of both Parties.

8. Miscellaneous.

8.1 Governing Law. This Agreement shall be governed by and construed under the Laws of the State of New York, without regard to principles of conflicts of law thereunder.

8.2 Dispute Resolution.

(a) Any dispute, controversy or claim arising out of or relating to this Agreement, or the interpretation, breach, termination or validity hereof, shall first be subject to resolution through consultation of the parties to such dispute, controversy or claim. Such consultation shall begin within seven (7) days after one party hereto has delivered to the other party hereto a written request for such consultation. If within thirty (30) days following the commencement of such consultation the dispute cannot be resolved, the dispute shall be submitted to arbitration upon the request of either party with notice to the other.

(b) The arbitration shall be conducted in Hong Kong under the auspices of the Hong Kong International Arbitration Centre (the "Centre"). There shall be three arbitrators. The complainant or complainants, on the one hand, and the respondent or respondents, on the other hand, shall each select one arbitrator within thirty (30) days after giving or receiving the demand for arbitration. Such arbitrators shall be freely selected, and the parties shall not be limited in their selection to any prescribed list. The Chairman of the Centre shall select the third arbitrator, who shall be qualified to practice law in New York. If either party does not appoint an arbitrator who has consented to participate within thirty (30) days after selection of the first arbitrator, the relevant appointment shall be made by the Chairman of the Centre.

(c) The arbitration proceedings shall be conducted in English. The arbitration tribunal shall apply the Arbitration Rules of the Centre in effect at the time of the arbitration. However, if such rules are in conflict with the provisions of this Section 8.2, including the provisions concerning the appointment of arbitrators, the provisions of this Section 8.2 shall prevail.

(d) The arbitrators shall decide any dispute submitted by the parties to the arbitration strictly in accordance with the substantive Law of New York and shall not apply any other substantive Law.

(e) Each party hereto shall cooperate with the other in making full disclosure of and providing complete access to all information and documents requested by the other in connection with such arbitration proceedings, subject only to any confidentiality

obligations binding on such party.

(f) The award of the arbitration tribunal shall be final and binding upon the disputing parties, and either party may apply to a court of competent jurisdiction for enforcement of such award.

(g) Either party shall be entitled to seek preliminary injunctive relief, if possible, from any court of competent jurisdiction pending the constitution of the arbitral tribunal.

8.3 Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Facsimile and e-mailed copies of signatures shall be deemed to be originals for purposes of the effectiveness of this Agreement.

8.4 Notices. Any notice required or permitted pursuant to this Agreement shall be given in writing and shall be given either personally or by sending it by next-day or second-day courier service, fax, electronic mail or similar means to the address as shown below the signature of such party on the signature page of this Agreement (or at such other address as such party may designate by 15 days' advance written notice to the other parties to this Agreement given in accordance with this Section). Where a notice is sent by next-day or second-day courier service, service of the notice shall be deemed to be effected by properly addressing, pre-paying and sending by next-day or second-day service through an internationally-recognized courier a letter containing the notice, with a confirmation of delivery, and to have been effected at the expiration of two days after the letter containing the same is sent as aforesaid. Where a notice is sent by fax or electronic mail, service of the notice shall be deemed to be effected by properly addressing, and sending such notice through a transmitting organization, with a written confirmation of delivery, and to have been effected on the day the same is sent as aforesaid.

8.5 Headings and Titles. Headings and titles used in this Agreement are used for convenience only and are not to be considered in construing or interpreting this Agreement.

8.6 Expenses. If any action at law or in equity is necessary to enforce or interpret the terms of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees, costs and necessary disbursements in addition to any other relief to which such party may be entitled.

8.7 Entire Agreement: Amendments and Waivers. This Agreement constitutes the full and entire understanding and agreement among the parties with regard to the subjects hereof, and SAIF hereby waives all rights under Sections 2, 3, 4 or 5 of the Shareholders Agreement. Any term of this Agreement may be amended and the observance of any term of this Agreement may be waived (either generally or in a particular instance and either retroactively or prospectively), only with the written consent of the Company and SAIF.

8.8 Severability. If a provision of this Agreement is held to be unenforceable under applicable Laws, such provision shall be excluded from this Agreement and the balance of the Agreement shall be interpreted as if such provision were so excluded and shall be enforceable in accordance with its terms.

8.9 Further Assurances. The parties agree to execute such further instruments and to take such further action as may be reasonably necessary to carry out the intent of this Agreement.

8.10 Rights Cumulative. Each and all of the various rights, powers and remedies of a party hereto will be considered to be cumulative with and in addition to any other rights, powers and remedies which such party may have at law or in equity in the event of the breach of any of the terms of this Agreement. The exercise or partial exercise of any right, power or remedy will neither constitute the exclusive election thereof nor the waiver of any other right, power or remedy available to such party.

8.11 No Waiver. Failure to insist upon strict compliance with any of the terms, covenants, or conditions hereof will not be deemed a waiver of such term, covenant, or condition, nor will any waiver or relinquishment of, or failure to insist upon strict compliance with, any right, power or remedy power hereunder at any one or more times be deemed a waiver or relinquishment of such right, power or remedy at any other time or times.

8.12 No Presumption. The parties acknowledge that any applicable Law that would require interpretation of any claimed ambiguities in this Agreement against the party that drafted it has no application and is expressly waived. If any claim is made by a party relating to any conflict, omission or ambiguity in the provisions of this Agreement, no presumption or burden of proof or persuasion will be implied because this Agreement was prepared by or at the request of any party or its counsel.

[The remainder of this page is intentionally left blank.]

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date first written above.

Power of Attorney

Authorizing Party: Xiaofeng Ma
 Personal ID #:
 Address:

Authorized Party: ATA Learning (Beijing) Inc.
 Address:
 Telephone:
 Facsimile:

I, Xiaofeng Ma, a PRC citizen, hereby irrevocably authorize ATA Learning (Beijing) Inc. (hereinafter, “**ATA Learning**”) to exercise the following rights during the term of this Power of Attorney:

Authorizing ATA Learning or any eligible PRC citizens authorized thereby (hereinafter, the “**Designees**”, and ATA Learning and the Designees are collectively referred to as “**Authorized Party**”) to act as my sole and exclusive agent who have full power to represent myself in connection with the following:

Exercising any and all of my voting rights in the capacity of a shareholder of ATA Online (Beijing) Education Technology Limited (hereinafter “**ATA Online**”) and such other shareholder’s rights, including but not limited to, appointing and electing, in the capacity of my authorized representative, directors, general manager and other executives of ATA Online in ATA Online’s shareholders’ meetings.

The Authorized Party has the right to, within the scope of authorization specified herein, execute on my behalf any transfer documents necessary for the performance of obligations under the Equity Pledge Contract and the Call Option and Cooperation Agreement attached as Appendix I hereto and signed by me.

The Authorized Party has the right to join the liquidation committee and participate in liquidation matters on my behalf in the case of liquidation of ATA Online. I hereby acknowledge, ratify and approve any actions to be taken and documents to be executed by the Authorized Party during the liquidation of ATA Online.

Any actions to be taken by and any documents to be executed by the Authorized Party in connection with ATA Online shall be considered taken/executed by myself. I hereby acknowledge, ratify and approve any actions to be taken and documents to be executed by the Authorized Party.

The abovementioned authorization and designation shall be subject to the following conditions: the Designees are PRC citizens and are employees of ATA Learning, and the controlling shareholders of ATA Learning consent to such authorization and designation. Promptly upon the occurrence that any Designees no longer hold any positions in ATA Learning or ATA Learning issues written notice to replace any Designees, I will immediately withdraw the authorization and designation granted to the Designees herein and will authorize and/or designate other employees that are PRC citizens designated by ATA Learning to exercise my aforesaid shareholder’s voting rights in ATA Online’s shareholders’ meetings.

The Authorized Party shall perform its fiduciary obligations in a prudent and diligent manner in accordance with law and within the scope of authorization, and shall hold the Authorizing Party free from any and all losses/damages arising out of such authorization and/or designation, except for the losses/damages caused by willful or gross negligence by the Authorized Party, in which case the Authorized Party shall bear all legal and economic liabilities to the Authorizing Party and ATA Online.

The Authorizing Party hereby agrees that the duration of this Power of Attorney shall be the same as that set forth in the Equity Pledge Contract and Call Option and Cooperation Agreement attached as Appendix I hereto and shall have a retroactive effect to the date of execution of the Equity Pledge Contract and Call Option and Cooperation Agreement attached as Appendix I hereto. The duration of this Power of Attorney shall be postponed accordingly in the case the duration of Equity Pledge Contract and Call Option and Cooperation Agreement is postponed.

Appendix I: Equity Pledge Contract and Call Option and Cooperation Agreement

CONFIDENTIAL TREATMENT REQUESTED

Indicates that certain information contained herein has been omitted and filed separately with the Securities and Exchange Commission. Confidential Treatment has been requested with respect to the omitted portions.

Service Agreement for 2013 Securities Practitioner Qualification Exams

Party A: Securities Association of China
Address: 2nd Floor, B Tower, Fukai Plaza, 19 Jinrong Street, Xicheng District, Beijing

Party B: ATA Testing Authority (Beijing) Limited (“ATA”)
Address: 16th Floor, E Tower, No. 6 Gongyuan West Street, Jianguomennei, Beijing

Securities Association of China is the holder of Securities Practitioner Qualification Exams. ATA is a specialty supplier of exam technology services and exam delivery services. Based on the principles of rigorousness, scientific methodology and efficiency, and through friendly negotiation, Party A and Party B hereby enter into this Agreement for mutual observance.

Article 1 In accordance with relevant State laws and regulations and the overall arrangement on Securities Practitioner Qualification Exams (“Exam” or “Qualification Exam”), Party A hereby entrusts Party B to perform relevant services for the exams of 2013. The exams will be performed on computers (“Computer-based Exam”).

Article 2 Services entrusted by Party A to Party B in connection with the exams include: providing technical services for exams, handling exam takers’ registrations and payment, issuing and mailing receipts, arranging exam venues, arranging exam premises’ layout, producing admission cards, arranging exams, collecting and processing exam score, carrying out statistical and analysis work for the exams, evaluating exam papers, and other work deemed necessary by Party A.

Article 3 Party A will formulate and inform Party B of the standards and regulations of the Qualification Exam and the Computer-based Exam.

Article 4 Party B shall perform services for Party A on the basis of the above Article 2 and such services shall be consistent with the requirements in Party A’s announcement in respect of each specific exam.

Article 5 The services to be provided by Party B should be examined and supervised by Party A. Party B should promptly notify Party A of relevant information regarding action against Exam Takers that violated rules.

Article 6 Party B shall, according to the principle of ensuring smooth administration of exams, formulate Service Criteria for Securities Practitioner Qualification Exams and specific working plan for each exam and submit to Party A for its records.

Article 7 Party B will accept registrations from exam takers (“Exam Takers”) by means of online registration and the payment relating thereto may be made via bank transfer or online payment. Party B should take effective measures to ensure smooth registration.

Article 8 Party A and Party B should enter into a joint fund management agreement with the party that collects the registration fee so that the three parties may jointly manage the funds. The account for the registration fee collection should be named according to Party A’s exam and shall be used for fee collection and accounts transfers only. Party B shall not withdraw funds from the registration fee account by any means without Party A’s approval.

Article 9 ✚

Bank account holder: ✚
Bank name: ✚
Account number: ✚

Article 10 Party B shall arrange sufficient manpower to assist Party A in issuing and mailing receipts for registration fees to Exam Takers.

Article 11 Party B is required to create a specific window on the exam registration website so that Party A will be informed of the registration status from time to time.

Article 12 Party B is required to provide the information of the registered Exam Takers within one month of the completion of registration. The information security officer of Party A shall go to Party B’s site to examine, among others, the data storage and backup record, and supervise the destruction of exam data throughout the entire process and the completion of ATA’s List of Eliminated Exam Results by Party B’s data administrator.

Article 13 Party B shall, according to Party A’s express standards and requirements on exam venues and exam premises, arrange

exam venues and exam premises based on the principles of facilitating Exam Takers. The exam venues should be safe, conveniently located, have a clean environment, and have sufficient hardware facilities to ensure smooth conduction of exams.

Article 14 The exam venues and exam premises should be inspected and accepted by Party A; those considered not meeting relevant standards and requirements should be corrected or replaced by Party B.

Article 15 Party B shall enter into contracts with the exam venues and exam premises it selected, and shall take proper measures to ensure the performance of the contracts.

Article 16 Party B shall arrange the Exam Takers to attend the exam, and shall take the effective measures listed below to ensure the success of the exam:

- (1) Exam premises shall be equipped with sufficient monitoring teachers who are required to fulfill the duty to keep the exam premises in order;
- (2) Exam premises shall be equipped with on-site video capture facilities and have integrated video capture standard;
- (3) Exam premises shall be equipped with necessary remote surveillance equipment;
- (4) Each exam premises shall be equipped with sufficient technicians;
- (5) Each exam premises shall be equipped with sufficient computers and backups to meet the need of exams. After an exam is started, computers in premises should be able to work properly, and the number of malfunctioning computers (such as computer breakdown) shall not exceed 0.1% of the total computers used in the exam. Moreover, upon adoption of preventive and corrective measures, all the computers shall be in proper working conditions during the exam; and
- (6) Other preventive measures in other comparable exams.

Article 17 Party B shall, through the exam premises administrator, read out the exam rules formulated by Party A to exam takers.

Article 18 Party B shall, within 5 working days after the exam is over, finish the test paper review and submit to Party A the exam data, including exam result, analysis of exam data, disciplinary action against breach of exam discipline. The information security officer of Party A shall, within 15 working days after the exam is over, go to Party B's site to examine, among others, the data storage and backup record, and supervise the destruction of exam data throughout the entire process and the completion of ATA's List of Eliminated Exam Results by Party B's data administrator.

Article 19 Party A may entrust Party B with accepting inquiries from exam takers about the exam matters; without permission of Party A, Party B may not engage in any publicity activity relating to the exam or accept any inquiries about exam results.

Article 20 †

Bank account name: †

Bank name: †

Account number: †

Article 21 Each party shall respect and protect the other party's intellectual property rights and shall only use the other party's intellectual property rights to the extent expressly authorized or agreed and shall make best endeavors to protect the other party's intellectual property rights.

Article 22 Both parties shall undertake that their respective own intellectual property rights will not infringe upon any interest of any third party; if any third party raises any objection, institutes any action or applies for arbitration, which causes any loss to a party hereto, the party at fault shall be solely liable for damages.

Article 23 Party A shall absolutely own the intellectual property rights to the exam question pool and the exam papers it provided, irrespective of whether this agreement is terminated or not, and Party B may not use or divulge in any way any information relating to the exam question pool and the exam papers that it learned during the performance of the terms of this agreement without the written consent of Party A.

Article 24 Irrespective of whether this agreement is terminated or not, each party shall treat as confidential any Confidential Information of the other party that it obtained during the performance of this agreement. The party aware of such Confidential Information may communicate such Confidential Information to its relevant employees or relevant professionals engaged by it, provided that it guarantee that such personnel shall agree to be bound by this agreement and not to divulge the Confidential Information in any manner.

Article 25 The "Confidential Information" hereunder means the exam question pool, test paper, financial information of the parties, exam takers' information, exam data and result relating to the products and services provided by the parties in connection with the exam work, as well as proprietary technology, software programs and working.

Article 26 The test technology and software owned by Party B to provide test related services shall be kept under strict confidential arrangement and reliable technical support shall be provided to ensure the secrecy of intellectual property rights of Party A and other

confidential matters under this agreement.

Article 27 If Party B breaches Articles 3 to 19 hereof and the circumstance of such breach is moderate, Party A shall give admonition and ask Party B to make a correction within a prescribed time limit; if the breach is serious or if Party B refuses to accept such admonition and fails to make a correction, Party A shall have the right to unilaterally rescind this agreement.

Article 28 If Party B violates Articles 21 to 25 hereof, and such action results in serious consequences and prevents the normal administration of the exam, Party A shall have the right to immediately terminate this agreement and to demand that Party B indemnify Party A for the losses arising therefrom which shall be equal to the fees already paid by Party A to Party B.

Article 29 If Party B cooperates with any third party in connection with the exam matters delegated by Party A, and Party A's interest is impaired by such third party, Party B shall be liable for damages.

Article 30 Neither party shall be liable for any delay in performing, or any failure to perform, any of its obligations under this agreement if such delay or failure arises from force majeure.

Article 31 Any dispute arising from the content or the performance of this agreement shall be settled through active consultations between the parties. If consultations come to no avail, either party may institute legal action with a court located near where Party A is situated.

Article 32 During the performance of this agreement, Party A, depending on its needs, has the right to delegate to any third party the exam work not expressly set forth in this agreement.

Article 33 If the terms of this agreement conflict with an announcement regarding exam content issued by Party A during the performance hereof, the announcement issued by Party A shall prevail.

Article 34 Either party has the right to terminate this agreement if the other party becomes bankrupt or stops doing business during the performance of this agreement; the party that becomes bankrupt or stops doing business shall indemnify the other party for its relevant loss.

Article 35 Any matters not covered herein shall be provided for in a supplementary agreement.

Article 36 This agreement will come into force upon signature and seal of both parties and will be valid for a period of 1 year.

Article 37 This agreement shall be executed in 4 counterparts, with each party holding 2 counterparts.

Re: ATA Inc.

June 26, 2013

Dear Sirs,

We are qualified lawyers of the People's Republic of China (the "**PRC**"), for the purpose of this legal opinion (the "**Opinion**"), excluding the Hong Kong Special Administrative Region, Macao Special Administrative Region and Taiwan), and as such are qualified to issue legal opinions on the PRC laws, regulations or rules.

We are acting as the PRC counsel for ATA Inc., an exempted company incorporated in the Cayman Islands with limited liability (the "**Company**"), in connection with the filing of its annual report on Form 20-F (the "**Annual Report**") for the fiscal year ended March 31, 2013 with the U.S. Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended.

In rendering this Opinion, we have examined the originals or copies certified or otherwise identified to our satisfaction, of documents provided to us by the Company and such other documents, corporate records, certificates issued by Governmental Agencies (as defined below) in the PRC, by officers of the Company, and/or by the Group Companies (as defined below) and other instruments (the "**Documents**") as we have considered necessary, advisable or desirable for the purpose of rendering this Opinion. Where certain facts were not or may not be possible to be independently established by us, we have relied upon certificates or statements or representations issued or made by relevant Governmental Agencies of the PRC and the appropriate representatives of the Company and/or the PRC Companies with the proper powers and functions.

In our examination of the Documents and for purpose of rendering this Opinion, we have assumed without further inquiry: (A) the genuineness of all signatures, seals and chops, and the authenticity of all documents submitted to us as originals and the conformity with authentic original documents submitted to us as copies; (B) the Documents as submitted to us remain in full force and effect up to the date of this Opinion, and have not been revoked, amended, revised, modified or supplemented except as otherwise indicated in such Documents; (C) the truthfulness, accuracy, fairness and completeness of Documents as well as all factual statements in the Documents; (D) that all information provided to us by the Company in response to our inquiries for the purpose of this Opinion is true, accurate, complete and not misleading and that the Company has not withheld anything that, if disclosed to us, would reasonably cause us to alter this Opinion in whole or in part; (E) other than in relation to the Control Agreements (as defined below), that all parties have the requisite power and authority to enter into, execute, deliver and perform the Documents to which they are parties; (F) other than in relation to the Control Agreements, that all parties have duly executed, delivered, performed, and will duly perform their obligations under the Documents to which they are parties; and (G) other than in relation to the Control Agreements, that all Documents are legal, valid, binding and enforceable under all such laws as govern or relate to them other than PRC Laws (as defined below).

This Opinion is rendered on the basis of the PRC Laws effective as at the date hereof. We do not purport to be an expert on, generally familiar with, or qualified to express legal opinions based on, any laws other than the PRC Laws. Accordingly, we express no opinion on the laws of any jurisdiction other than the PRC. Furthermore, there is no guarantee that any such PRC Laws will not be changed, amended or replaced in the immediate future or in the longer term with or without retrospective effect.

The following terms as used in this Opinion are defined as follows:

"ATA Learning"	means ATA Learning (Beijing), Inc. a company incorporated under the PRC Laws of which 100% equity interest is indirectly owned by the Company. ATA Testing Authority (Beijing) Limited
"ATA Testing"	means ATA Testing Authority (Beijing) Limited, a company incorporated under the PRC Laws of which 100% equity interest is indirectly owned by the Company.
"BVI Subsidiary"	means ATA Testing Authority (Holdings) Limited, a company incorporated under the laws of British Virgin Islands of which 100% equity interest is directly owned by the Company.
"Control Agreements"	means the agreements set forth in Item 7.B of the Annual Report headed "Related Party Transactions—Agreements among ATA BVI, ATA Learning and ATA Online," and as listed in Schedule I of this Opinion.

“Group Companies”	means the Company, BVI Subsidiary, and the PRC Companies.
“Government Agency”	means any competent government authorities, courts, arbitration commissions or regulatory bodies of the PRC.
“Governmental Authorization”	means any approval, consent, permit, authorization, filing, registration, exemption, waiver, endorsement, annual inspection, qualification and license required by the applicable PRC Laws to be obtained from any Government Agency.
“Material Adverse Effect”	means any event, circumstance, condition, occurrence or situation or any combination of the foregoing that has or could be reasonably expected to have a material and adverse effect upon the conditions (financial or otherwise), business, properties or results of operations or prospects of the Group Companies taken as a whole.
“Initial Public Offering”	means the initial public offering of American depository shares representing the Company’s ordinary shares as described in the prospectus for such offering dated January 28, 2008.
“PRC Laws”	means any and all laws, regulations, statutes, rules, decrees, notices and supreme court’s judicial interpretations currently in force and publicly available in the PRC as of the date hereof.
“PRC Companies”	means the PRC Wholly Owned Subsidiaries, and the PRC Subsidiary.

“PRC Subsidiary”	means ATA Online (Beijing) Education Technology Limited, a company incorporated under the PRC Laws of which 90% of the equity interest is directly owned by Kevin Xiaofeng Ma and 10% of the equity interest is directly owned by Walter Lin Wang
“PRC Wholly Owned Subsidiaries”	means ATA Learning and ATA Testing.

Based on the foregoing, after our due inquiry, we are of the opinion that:

- (i) *Corporate Structure.* The descriptions of the corporate structure of the PRC Companies and the Control Agreements set forth in the “Risk Factors,” “Organizational Structure” and “Related Party Transactions—Agreements among ATA BVI, ATA Learning and ATA Online” sections of the Annual Report are correct and accurate in all material respects and nothing has been omitted from such descriptions which would make the same misleading in any material respect.

We are of the opinion that, except as disclosed in the Annual Report, (A) the ownership structure of the PRC Companies as described in the Annual Report under the headings “Risk Factors,” “Organizational Structure” and “Related Party Transactions—Agreements among ATA BVI, ATA Learning and ATA Online” are and has been in compliance with all current PRC Laws; (B) each of the Control Agreements has been duly executed and delivered by each of the parties thereto and constitutes its or his binding obligations; (C) the contractual arrangements among ATA Learning, the PRC Subsidiary and the shareholders of the PRC Subsidiary, established by the Control Agreements, individually and as a whole, are valid, legally binding and enforceable, and will not result in any violation of the PRC Laws currently in effect; and (D) the business operations of the Company and the PRC Companies, as described in the Annual Report, are in compliance with all current PRC Laws in all material aspects.

- (ii) *M&A Rules.* On August 8, 2006, six PRC regulatory agencies, namely, the PRC Ministry of Commerce, the State Assets Supervision and Administration Commission, the State Administration for Taxation, the State Administration for Industry and Commerce, the China Securities Regulatory Commission (the “CSRC”), and the State Administration of Foreign Exchange of the PRC, jointly adopted the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors (the “**M&A Rules**”), which became effective on September 8, 2006 and amended on June 22, 2009. The M&A Rules purport, among other things, to require offshore special purpose vehicles (the “**SPVs**”) formed for overseas listing purposes through acquisitions of PRC domestic companies and controlled by PRC companies or individuals, to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange. On September 21, 2006, pursuant to the M&A Rules and other PRC Laws and regulations, the CSRC, on its official website, promulgated relevant guidance with respect to the issues of listing and trading of PRC domestic enterprises’ securities on overseas stock exchanges, including a list of application materials with respect to the listing on overseas stock exchanges by SPVs.

We are of the opinion that as of the date hereof, the Company was not and is not required under the M&A Rules and other relevant PRC Laws to obtain the approval of the CSRC for the issuance and sale of the American depository shares representing the Company’s common shares or the listing of the Company’s American depository shares on Nasdaq in connection with the Initial Public Offering, because (1) the Company established the PRC Wholly Owned Subsidiaries as a foreign-invested enterprise by means of direct investment and not through a merger or acquisition of the equity or assets of a “PRC domestic company” as such term is defined under the M&A Rules, and (2) there is no provision in the M&A Rules that clearly classifies contractual arrangements described under “Our Corporate Structure” and “Related Party Transactions—Agreements among ATA BVI, ATA Learning and ATA Online” sections of the Annual Report as the type of merger and acquisition transaction falling under the M&A Rules.

This Opinion is rendered to you and is intended to be used in the context which is specifically referred to herein and solely for the benefit of the Company in connection with its Annual Report filing and each paragraph should be looked at as a whole and no part should be extracted

and referred to independently.

We hereby consent to the filing of this Opinion with the U.S. Securities and Exchange Commission as an exhibit to the Annual Report and to the use of and references to our name and this Opinion and its contents under the sections headed "Risk Factors" and "Regulation" and other sections of the Annual Report.

Yours faithfully,

/s/ Jincheng Tongda & Neal Law Firm
