## **ATA Announces Share Repurchase Program**

BEIJING, November 13, 2008 — ATA Inc. (“ATA” or the “Company”) (NASDAQ: ATAI), the leading provider of computer-based testing and testing-related services in China, today announced that its board of directors has approved a share repurchase program effective November 13, 2008. Under the approved program, ATA is authorized to repurchase up to US\$5 million worth of its issued and outstanding American Depositary Shares (“ADSs”) from time to time in open-market transactions on the Nasdaq Global Market. The repurchases will be made at prevailing market prices, in negotiated transactions off the market, in block trades, pursuant to a 10b5-1 plan (which if adopted, will allow ATA to repurchase its ADSs during periods in which it may be in possession of material non-public information) or otherwise. The purchases will be made subject to restrictions relating to volume, price and timing. The timing and extent of any purchases will depend upon market conditions, the trading price of its ADSs and other factors. ATA expects to implement this share repurchase program over the next 12 months, in a manner consistent with market conditions and the interest of its shareholders. ATA’s board of directors will review the share repurchase program periodically, and may authorize adjustment of its terms and size accordingly. The program may be suspended or discontinued at any time.

“Our board of directors’ approval of this share repurchase program is a testament to the confidence we have in the long-term value of our company, and reiterates our commitment to creating lasting value to our shareholders,” said Kevin Ma, ATA’s Chairman and Chief Executive Officer. “Furthermore, we believe our current cash position gives us the flexibility to implement this program while at the same time continuing to pursue our strategies and growth opportunities.”

ATA plans to fund repurchases made under this program from available cash balance. As of September 30, 2008, ATA’s cash and cash equivalents totaled approximately US\$51 million, and as of November 11, 2008, the Company had 45.7 million common shares issued and outstanding, approximately 11.1 million of which were represented by ADSs (with each ADS representing two common shares). [This paragraph has been amended from the original press release to correct the number of outstanding common shares represented by ADSs.]
